**Washington, D.C. 20549**

---

**FORM 10-K**

**ANNUAL REPORT PURSUANT TO SECTION 13 OF THE  
SECURITIES EXCHANGE ACT OF 1934**

**For the Fiscal Year Ended December 31, 2006**

**Commission File Number: 000-24149**

**CIB MARINE BANCSHARES, INC.**

(Exact name of registrant as specified in its charter)

**Wisconsin**  
(State of incorporation)

**37-1203599**  
(I.R.S. Employer Identification No.)

**N27 W24025 Paul Court, Pewaukee, Wisconsin**  
(Address of principal executive offices)

**53072**  
(Zip Code)

Registrant's telephone number, including area code: **(262) 695-6010**

Securities registered pursuant to Section 12(b) of the Act: **None**

Securities registered pursuant to Section 12(g) of the Act:

**Common Stock, \$1.00 Par Value Per Share**  
(Title of Class)

Indicate by check mark if the registered is a well known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registered is not required to file reports pursuant to Section 13d or 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or other information statements incorporated by reference in Part III of this Form 10-K or any amendments to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

The aggregate market value of the common stock held by nonaffiliates of the registrant as of June 30, 2006 cannot be determined as there is no public market for the common stock.

As of September 30, 2007, there were issued and outstanding 18,346,442 shares of the registrant's common stock.

**DOCUMENTS INCORPORATED BY REFERENCE**

The following documents are incorporated by reference in this report: None.

## Table of Contents

### **PART I**

#### **ITEM 1. BUSINESS**

##### **CIB MARINE**

CIB Marine Bancshares, Inc. (“CIB Marine”) is a multi-bank holding company with its principal executive offices in Pewaukee, Wisconsin, a suburb of Milwaukee. CIB Marine owned and operated three separately chartered commercial banking organizations at December 31, 2006:

- Central Illinois Bank, with its main office in Champaign, Illinois;
- Marine Bank, with its main office in Wauwatosa, Wisconsin, a suburb of Milwaukee (“Marine-Wisconsin”); and
- Citrus Bank, N.A., with its main office in Vero Beach, Florida (“Citrus Bank”).

In March 2006, CIB Marine merged Marine Bank, a federal savings bank whose main office was located in Scottsdale, Arizona (“Marine FSB”) into Marine-Wisconsin. In August 2006, CIB Marine merged CIB Bank, whose main office was located in Indianapolis, Indiana (“CIB-Indiana”) into Marine Wisconsin. CIB Marine sold CIB Bank whose main office was located in Hillside, Illinois, a suburb of Chicago (“CIB-Chicago”) to an unrelated banking organization on November 30, 2004.

CIB Marine was originally incorporated in the State of Illinois in 1985 as Sidney Bancorporation, Inc., a one-bank holding company headquartered in Sidney, Illinois. The Company subsequently changed its name to Central Illinois Bancorp, Inc. On August 27, 1999, Central Illinois Bancorp reincorporated as a Wisconsin corporation and changed its name to CIB Marine Bancshares, Inc.

CIB Marine offers a full array of traditional banking services through its bank subsidiaries. These services include a broad range of loan products, such as commercial loans, commercial real estate loans, commercial and residential real estate construction loans, one-to-four family residential real estate loans, consumer loans, and commercial and standby letters of credit; accepting demand, savings and time deposits; providing commercial paper and repurchase agreements; and providing other banking services.

During 2003, CIB Marine shifted its strategic focus from business development and asset growth to improving the company’s credit administration function, asset quality, and liquidity and capital positions. The change in emphasis occurred in response to a significant deterioration in the credit quality of the loan portfolio and other credit related matters, including credit concentration risk and weaknesses in the credit administration process, identified by the bank and holding company regulators during their regular examinations in 2002 and 2003. These issues subsequently resulted in the issuance of various orders, agreements and memoranda with the banking regulators, CIB Marine and its bank subsidiaries. During 2004 and 2005, CIB Marine took a number of actions to improve the financial condition of the company and corrected the weaknesses which were identified in the credit administration process. During 2006, the company continued to take actions to improve its financial condition. In addition, CIB Marine allocated additional resources to business development as part of its strategic focus and sold or closed certain of its subsidiary bank branches.

##### ***Additional Information***

See Item 7-Management’s Discussion and Analysis of Financial Condition and Results of Operations and Item 8-Financial Statements and Supplementary Data in Part II of this Form 10-K for more details regarding certain of the above described items.

##### **Markets Served**

At December 31, 2006, CIB Marine served six geographic markets or regions through its banking subsidiaries. Information on these banks as of December 31, 2006 and the markets they served is set forth in the following table:

## Table of Contents

Bank	Geographic Market/Region (2)	Operated Since	Banking Facilities	Assets	Deposits
(Dollars in millions)					
Central Illinois Bank	Central Illinois	1987	12	\$465.9	\$375.0
Marine-Wisconsin (1)	Milwaukee, Indianapolis, Phoenix and Las Vegas metropolitan areas	1997	12	\$390.1	\$316.3
Citrus Bank	Florida's southeastern coast	2001	6	\$135.9	\$103.9

- (1) Marine FSB was merged into Marine-Wisconsin in March 2006 and CIB-Indiana was merged into Marine-Wisconsin in August 2006.
- (2) As a result of the evaluation of the effectiveness of its branch network, CIB Marine sold its Omaha facility in June 2006 and closed its Henderson, Nevada facility, which served the Las Vegas metropolitan area, in the second quarter of 2007, thereby exiting these markets. See Item 8, Note 25-Subsequent Events in Part II of this Form 10-K for additional details regarding branch sales and closures.

### Nonbank Subsidiaries

At December 31, 2006, CIB Marine had one wholly-owned operating nonbanking subsidiary, CIB Marine Information Services, Inc. CIB Marine also had four wholly-owned nonbanking subsidiaries that had ceased operations and are in the process of winding down: Mortgage Services, Inc., CIB Marine Capital, LLC, MICR, Inc. ("MICR") n/k/a Everett Tech, Inc., and CIB Construction, LLC ("CIB Construction").

#### *CIB Marine Information Services, Inc.*

CIB Marine Information Services, Inc. ("CIB Marine Information"), an Illinois corporation and wholly-owned subsidiary of CIB Marine, was incorporated in August 1990 as CIB Data Processing Services, Inc. In 2002, CIB Marine changed the name of the subsidiary to CIB Marine Information Services, Inc. This subsidiary was organized to provide in-house data processing services, coordinate computer equipment leases and purchases, license banking software and coordinate operation of CIB Marine software. CIB Marine Information facilitates internal operational needs and does not provide services to third parties. As of December 31, 2006, CIB Marine Information had 15 full-time equivalent employees. CIB Marine Information does not separately own any facilities.

#### *Mortgage Services, Inc.*

CIB Marine sold the operations of Mortgage Services, Inc. ("MSI"), a mortgage origination and mortgage brokerage services company, in the third quarter of 2004. CIB Marine is in the process of winding down the remaining affairs of MSI. CIB Marine continues to offer residential mortgage loans through its subsidiary banks.

#### *CIB Marine Capital, LLC*

In April 2001, CIB Marine established CIB Marine Capital, LLC ("CIB Marine Capital"), a Wisconsin limited liability company. CIB Marine Capital provided leveraged financing, including mezzanine loans. Typically, the collateral coverage on these loans is insufficient to secure a senior debt position. These loans are, by their nature, inherently riskier than senior debt position loans. During 2003, CIB Marine ceased to offer new loans through CIB Marine Capital and began winding down its affairs, including the sale and collection of outstanding loans. CIB Marine Capital does not separately own any facilities and its principal office was located in the Hillside, Illinois facility of CIB-Chicago. At December 31, 2006, CIB Marine Capital had one loan outstanding with a balance of \$0.7 million and a specific reserve for the balance of the loan.

#### *MICR, Inc. (n/k/a Everett Tech, Inc.)*

In 2000, CIB Marine acquired and/or assumed, through MICR, a wholly-owned subsidiary of CIB-Chicago, the business and certain assets and liabilities of a manufacturer of payment processing systems. The business was acquired from a borrower, who was in default of its obligations, in lieu of foreclosure or other legal action. The assets and liabilities of MICR are classified as assets and liabilities held for disposal. As of the acquisition date, MICR was recorded at \$6.5 million, which represented the approximate fair value, as determined by an independent appraiser, of the business, less estimated costs to sell. In November 2004, in conjunction with the sale of CIB-Chicago, CIB Marine bought MICR, which was a subsidiary of CIB-Chicago, at its book value immediately prior to the sale. Excluding impairment losses, pretax income was \$1.0 million and \$1.3 million for 2005 and 2004, respectively. During 2004, CIB Marine recognized a \$1.9 million fair market value impairment loss related to

---

## **Table of Contents**

MICR. In November 2005, CIB Marine sold substantially all the assets and operations of MICR and changed its name to Everett Tech, Inc. CIB Marine recognized a \$0.2 million pretax gain on the sale. CIB Marine is in the process of winding down the remaining affairs of this company. At December 31, 2006, the majority of MICR's net liabilities consisted of income taxes payable. For more information on this company see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Companies Held for Disposal and Item 8, Note 7-Companies Held for Disposal and Discontinued Operations in Part II of this Form 10-K.

### ***CIB Construction, LLC***

In 2002, CIB Marine acquired through its wholly-owned subsidiary, CIB Construction, 84% of Canron Corporation ("Canron"), a steel fabrication and erection company that had operations in the United States, Canada and Mexico. Canron was acquired from a borrower who was in default of its obligations and it is classified as an asset held for disposal. In September 2003, Canron commenced a voluntary liquidation and winding down of its affairs. In the fourth quarter of 2003, Canron sold its Western Canada, Western United States and Mexico operations. At December 31, 2006, CIB Construction had \$3.3 million in assets and \$4.6 million in liabilities. These amounts reflect estimated liquidation values net of selling costs. For more information on this company see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Companies Held For Disposal and Subsequent Events-CIB Construction/Canron, and Item 8, Note 7-Companies Held for Disposal and Discontinued Operations in Part II of this Form 10-K.

### **Management Support Services**

In addition to the support services provided by its nonbank subsidiaries, CIB Marine, as a holding company, performs a significant portion of its subsidiaries' back office services, including credit administration, treasury and asset/liability management support services, accounting, finance, audit, operations, human resources, legal, marketing and advertising. CIB Marine believes it is more efficient to consolidate these services and that providing these services assures that its operating policies and procedures are consistent throughout the organization. This also enables CIB Marine to more efficiently manage the costs of these services than if these services were performed independently at each subsidiary. At December 31, 2006, CIB Marine had 94 full-time equivalent employees at the holding company level, a majority of whom are providing the described services to its subsidiaries.

### **Total Employees**

At December 31, 2006, CIB Marine and all of its bank and nonbank subsidiaries had a combined total of 301 full-time equivalent employees.

### **COMPETITION**

The banking industry is highly competitive. CIB Marine's subsidiary banks compete for loans, deposits and other financial services in their markets and surrounding areas. CIB Marine competes with other financial institutions, money market and other mutual funds, insurance companies, brokerage companies and other non-depository financial service companies, including certain governmental organizations which may offer subsidized financing at lower rates than those offered by CIB Marine. Many of these financial firms have a regional or national presence and resources many times greater than those of CIB Marine. In addition, financial companies such as money market mutual funds, brokerage companies and other nonbanking organizations are not subject to the same regulations and laws that govern the operation of traditional depository institutions.

Changes in federal and state laws have resulted in and are expected to continue to result in increased competition. The reductions in legal barriers to the acquisition of banks resulting from the implementation of interstate banking laws, the Gramm-Leach-Bliley Act (the "GLBA"), and other recent and proposed changes, are expected to continue to further stimulate competition in the markets in which CIB Marine operates, although it is not possible to predict the extent or timing of such increased competition.

---

## **Table of Contents**

### **SUPERVISION AND REGULATION**

#### **General**

Bank holding companies and financial institutions are extensively regulated under both federal and state law. Any significant change in the banking laws and regulations applicable to CIB Marine or its banking subsidiaries could materially impact CIB Marine's operations or change the manner in which it conducts business. Federal and state regulation of financial institutions is intended primarily for the protection of the federal deposit insurance funds and depositors.

CIB Marine is a registered bank holding company under the Bank Holding Company Act of 1956, as amended (the "BHCA"), and is regulated by the Federal Reserve Board. Citrus Bank is a national bank, and its primary regulator is the Office of the Comptroller of the Currency (the "OCC"). CIB Marine's other bank subsidiaries are regulated by the FDIC, as their primary federal regulator, and also by the state banking regulator for the state in which they are chartered: the Illinois Department of Financial and Professional Regulation, Division of Banks and Real Estate ("DBRE") or the Wisconsin Department of Financial Institutions.

CIB Marine and its nonbank subsidiaries are subject to examination by the Federal Reserve Board. The state banking regulators and FDIC periodically conduct examinations of CIB Marine's state bank subsidiaries and nonbank subsidiaries that are under their regulatory authority. The OCC periodically conducts examinations of Citrus Bank, and the FDIC may also conduct special examinations of this bank.

The bank regulatory agencies have extensive oversight authority relative to the depository holding companies and institutions that they supervise. They have been granted wide-ranging enforcement and supervision powers and exercise this authority to ensure that depository holding companies and institutions under their jurisdiction operate on a safe and sound basis and in compliance with applicable laws. Holding companies and institutions that fail to conduct their operations in a safe and sound basis or in compliance with applicable laws can be compelled by the regulators to change the way they do business and may be subject to regulatory enforcement actions, including encumbrances imposed on their operations. At December 31, 2006, CIB Marine and each of its subsidiary banks, except Citrus Bank, were subject to a Written Agreement, Cease and Desist Order or Memorandum of Understanding. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters in Part II of this Form 10-K.

The following discussion summarizes the material elements of the regulatory framework applicable to CIB Marine and its subsidiaries. It is not meant to be a complete discussion of all the federal and state banking statutes and regulations applicable to CIB Marine and its subsidiaries. To the extent this discussion describes statutory and regulatory provisions it is qualified in its entirety by reference to those provisions.

#### **Expansion Activities**

The BHCA requires every bank holding company to obtain the prior approval of the Federal Reserve Board before merging with another bank holding company, acquiring substantially all the assets of any bank or bank holding company, or acquiring directly or indirectly any ownership or control of more than 5% of the voting shares of any bank. The BHCA also prohibits a bank holding company, with particular exceptions, from acquiring direct or indirect ownership of more than 5% of the voting shares of any company which is not a bank or bank holding company and from engaging in any business other than that of banking, managing and controlling banks, or furnishing services to banks and their subsidiaries. Bank holding companies may, however, engage in some businesses and activities determined by the Federal Reserve Board to be closely related to banking or managing and controlling banks.

#### **Interstate Banking and Branching**

The Riegle-Neal Act enacted in 1994 permits an adequately capitalized and adequately managed bank holding company, with Federal Reserve Board approval, to acquire banking institutions located in states other than the bank holding company's home state without regard to whether the transaction is prohibited under state law. In addition, national banks and state banks with different home states are permitted to merge across state lines, with the approval

---

## Table of Contents

of the appropriate federal banking agency, unless the home state of a participating banking institution has passed legislation prior to that date that expressly prohibits interstate mergers. De novo interstate branching is permitted if the laws of the host state so authorize.

### **Capital Standards**

The federal banking agencies impose risk-based capital requirements and guidelines on bank holding companies and banks to provide for a measure of capital that reflects the degree of risk associated with a banking organization's operations for both transactions reported on the balance sheet as assets and those recorded as off-balance sheet items. A bank holding company or bank's capital, in turn, is divided into two tiers:

- core capital (commonly referred to as Tier 1 capital), which generally includes common equity, qualifying noncumulative perpetual preferred stock, and for bank holding companies, a limited amount of qualifying cumulative perpetual preferred stock, and minority interests in equity accounts of consolidated subsidiaries (including junior subordinated debentures net of investment in trust, provided that not more than 25% of the qualifying Tier 1 capital may consist of junior subordinated debentures, net of investment in trust), less goodwill and certain other intangible assets; and
- supplementary capital (commonly referred to as Tier 2 capital), which includes, among other items, perpetual preferred stock not meeting the Tier 1 definition, mandatory convertible securities, and limited amounts of subordinated debt and reserves for credit losses.

Bank holding companies and banks are currently required to maintain Tier 1 capital equal to at least 4% and "total capital" (the sum of Tier 1 and Tier 2 capital) equal to at least 8% of its total risk-weighted assets, including certain off-balance-sheet items, such as unused lending commitments and standby letters of credit.

The Federal Reserve Board, the FDIC and the OCC have also adopted rules to incorporate market and interest rate risk components into their risk-based capital standards. Amendments to the risk-based capital requirements, incorporating market risk for institutions with substantial trading activities or institutions where the federal banking regulator deems it necessary for safety and soundness, became effective January 1, 1998. Under these market risk requirements, capital must be allocated to support the amount of market risk related to a financial institution's ongoing trading activities. The market risk requirements do not presently apply to CIB Marine or any of its bank subsidiaries.

The Federal Reserve Board also requires bank holding companies to maintain a minimum "leverage ratio" of Tier 1 capital to adjusted total assets of 3% if the bank holding company has the highest regulatory rating and meets certain other requirements, or 3% plus an additional cushion of at least 100 to 200 basis points if the bank holding company does not meet these requirements. Federal regulators have imposed similar requirements on banks.

The regulators may set capital requirements higher than the minimums noted above for banks and bank holding companies whose circumstances warrant it. For example, bank holding companies experiencing or anticipating significant growth may be expected to maintain strong capital positions substantially above the minimum supervisory levels without significant reliance on intangible assets. Furthermore, the Federal Reserve Board has indicated that it will consider a "tangible Tier 1 capital leverage ratio" (deducting all intangibles) and other indications of capital strength in evaluating proposals for expansion or new activities.

At December 31, 2006, CIB Marine and its banking subsidiaries were in compliance with these minimum capital requirements. For more information about the regulatory capital levels of CIB Marine and its bank subsidiaries, see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Capital and Item 8, Note 14-Stockholders' Equity in Part II of this Form 10-K.

Central Illinois Bank, Marine-Wisconsin and CIB-Indiana, which was merged into Marine-Wisconsin in August 2006, entered into Cease and Desist Orders with the FDIC and their applicable state banking regulators and CIB Marine entered into a Written Agreement with the Federal Reserve Bank, each effective May 29, 2004. On August 19, 2004, Citrus Bank entered into a similar written agreement with the OCC. Pursuant to the regulatory orders and agreements, the banks agreed to maintain a minimum Tier 1 capital level of 8%, and Citrus Bank also agreed to maintain a minimum total capital to risk weighted assets of 14% while these Orders and Agreements were in effect.

---

## **Table of Contents**

In April 2005, as a result of improvements at the banks, the Cease and Desist Orders at Marine-Wisconsin and CIB-Indiana were terminated and replaced with Memoranda of Understanding, which were entered into in March 2005. Pursuant to the Memoranda, the banks agreed to maintain minimum Tier 1 capital levels of 8%, correct loan administration deficiencies, reduce concentrations and problem credits and not declare or pay cash dividends without regulatory approval. In September 2006 the Written Agreement entered into by Citrus Bank with the OCC was terminated as a result of improvements at that bank, and in January 2007, the Cease and Desist Order at Central Illinois Bank was terminated and replaced with a Memorandum of Understanding. The Memorandum provided that Central Illinois Bank will (a) develop a plan to lower the bank's risk position in loans classified as "substandard"; (b) develop and implement a plan to improve earnings; (c) maintain minimum Tier 1 capital level of 8%; and (d) obtain regulatory approval prior to purchasing any loan pools in excess of \$3 million. In April 2005, Central Illinois Bank, Marine-Wisconsin and CIB-Indiana entered into separate Memoranda of Understanding with the FDIC and their state banking regulators as a result of deficiencies related to controls over information technology. These memoranda were terminated in January 2006. For additional information relative to the Cease and Desist Order, Memoranda and Written Agreement, see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters and Item 8, Note 14-Stockholders' Equity in Part II of this Form 10-K.

For several years, the U.S. bank regulators have been preparing to implement a new framework for risk-based capital adequacy developed by the Basel Committee on Banking Supervision, sometimes referred to as "Basel II." In July 2007, the U.S. regulators announced an agreement reflecting their current plan for implementing the most advanced approach under Basel II for banks with over \$250 billion in assets or over \$10 billion in foreign exposure. The agreement also provides that the regulators will propose rules permitting smaller financial institutions, such as CIB Marine and its bank subsidiaries, to choose between the current method of calculating risk-based capital ("Basel I") and the "standardized" approach under Basel II. The standardized approach under Basel II would lower risk weightings for certain categories of assets (including mortgages) from the weightings reflected in Basel I, but would also require an explicit capital charge for operational risk, which is not required by Basel I.

### **Holding Company Obligations**

Under current Federal Reserve Board policy, a bank holding company is expected to act as a source of financial and managerial strength to each of its subsidiary banks and to maintain resources adequate to support each subsidiary bank. This support may be required at times when the bank holding company may not have the resources to provide it. In addition, Section 55 of the National Bank Act permits the OCC to order the pro rata assessment of a stockholder of a national bank whose capital has become impaired. If a stockholder, like CIB Marine, failed within three months to pay that assessment, the OCC could order the sale of the stockholder's stock to cover the deficiency. In the event of a bank holding company's bankruptcy, any commitment by the bank holding company to a federal bank regulatory agency to maintain the capital of a subsidiary bank would be assumed by the bankruptcy trustee and entitled to priority of payment.

### **Cross-Guarantees Under the Federal Deposit Insurance Act**

Under the Federal Deposit Insurance Act ("FDIA"), when two or more insured depository institutions are under common control, each of those depository institutions may be liable for any loss incurred, or expected to be incurred, by the FDIC in connection with the default of any of the others. Each also may be liable for any assistance the FDIC provides to the other institutions. "Default" means the appointment of a conservator or receiver for the institution. Thus, any of CIB Marine's banking subsidiaries could be liable to the FDIC if the FDIC were to suffer a loss in connection with any of CIB Marine's other banking subsidiaries. This cross-guarantee liability for a loss at a commonly controlled institution would be subordinated in right of payment to deposit liabilities, secured obligations, any other general or senior liability, and any obligation subordinated to depositors or other general creditors, other than obligations owed to any affiliate of the depository institution (with certain exceptions).

### **Safety and Soundness Guidelines**

The federal banking agencies have adopted guidelines to assist in identifying and addressing potential safety and soundness concerns before capital becomes impaired. The guidelines establish operational and managerial standards relating to internal controls, information systems, and internal audit systems; loan documentation; credit underwriting; interest rate exposure; asset growth and asset quality; and compensation, fees, and benefits. In

---

## Table of Contents

addition, the federal banking agencies have adopted safety and soundness guidelines for asset quality and for evaluating and monitoring earnings to ensure that earnings are sufficient for the maintenance of adequate capital and reserves.

### **Prompt Corrective Action**

The Federal Deposit Insurance Corporation Improvement Act of 1991 (“FDICIA”) requires the federal banking regulators to take prompt corrective action in respect to FDIC insured depository institutions that do not meet minimum capital requirements. FDICIA establishes five capital tiers: “well capitalized,” “adequately capitalized,” “undercapitalized,” “significantly undercapitalized” and “critically undercapitalized.” A depository institution’s capital tier depends upon how its capital levels compare to various relevant capital measures and certain other factors established by regulation. Under applicable regulations, an FDIC insured bank is defined as well capitalized if it maintains a leverage ratio or Tier 1 capital to quarterly average total assets of at least 5%, a total capital ratio or qualifying total capital to risk-weighted assets, including certain off-balance sheet items, of at least 10% and a Tier 1 capital ratio or Tier 1 capital to risk-weighted assets of at least 6% and is not otherwise in a “troubled condition” as specified by its appropriate federal regulatory agency.

A bank is generally considered to be adequately capitalized if it is not defined as well capitalized but meets all of its minimum capital requirements: a leverage ratio of 4% or greater (or 3% or greater if it receives the highest composite examination rating by its examiners, subject to appropriate federal banking agency guidelines); a total capital ratio of 8% or greater; and a Tier 1 capital ratio of 4% or greater. A bank will be considered undercapitalized if it fails to meet any minimum required measure, significantly undercapitalized if it is significantly below such measure and critically undercapitalized if it maintains a level of tangible equity capital equal to or less than 2% of total assets. A bank may be reclassified to be in a capitalization category that is next below that indicated by its actual capital position if it receives a less than satisfactory examination rating by its examiners with respect to its assets, management, earning, or liquidity that has not been corrected, or it is determined that the bank is in an unsafe or unsound condition or engages in an unsafe or unsound practice. The federal banking agencies, however, may not treat a significantly undercapitalized institution as critically undercapitalized unless its capital ratio actually warrants such treatment. Pursuant to the regulatory memoranda in effect at September 30, 2007, Central Illinois Bank and Marine-Wisconsin have agreed to maintain minimum Tier 1 capital levels of 8% calculated in accordance with Part 325 of the FDIC Rules and Regulations. For additional information relative to the Cease and Desist Order, Memoranda and Written Agreement, see Item 7-Management’s Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters and Item 8, Note 14-Stockholders’ Equity in Part II of this Form 10-K.

FDICIA generally prohibits a depository institution from making any capital distribution, including payment of dividends or paying any management fee to its holding company, if the depository institution would thereafter be undercapitalized. Undercapitalized depository institutions are subject to growth limitations and are required to submit a capital restoration plan to become adequately capitalized. If a depository institution fails to submit an acceptable plan, it is treated as if it is significantly undercapitalized. Pursuant to the regulatory memoranda in effect at March 31, 2007, CIB Marine’s banking subsidiary Marine-Wisconsin has agreed not to declare or pay any cash dividends without the prior written consent of the Regional Director of the Federal Deposit Insurance Corporation and the Administrator of the Wisconsin Department of Financial Institutions, Division of Banking.

Under FDICIA, a bank that is not well capitalized is generally prohibited from accepting or renewing brokered deposits and offering interest rates on deposits significantly higher than the prevailing rate in its normal market area or nationally depending upon where the deposits are solicited; in addition, “pass-through” insurance coverage may not be available for certain employee benefit accounts.

A number of additional requirements and restrictions may apply to significantly undercapitalized depository institutions, including orders to sell sufficient voting stock to become adequately capitalized, requirements to reduce total assets and cessation of receipt of deposits from correspondent banks. Critically undercapitalized depository institutions may be restricted from making payments of principal and interest on subordinated debt and are subject to appointment of a receiver or conservator.

At December 31, 2006, pursuant to FDIC regulations in 12 C.F.R. Part 325, Citrus Bank and Marine-Wisconsin were classified as well capitalized and Central Illinois Bank was categorized as adequately capitalized. While

---

## **Table of Contents**

Central Illinois Bank met the capital ratio criteria of a well capitalized bank at December 31, 2006, it was subject to a cease and desist order as of that date, and pursuant to the FDIC regulations, a bank that is subject to any written agreement or order to meet and maintain a specific capital level for any capital measure cannot be classified as well capitalized.

In addition to measures taken under the prompt corrective action provisions, banking organizations may be subject to potential enforcement actions by the federal banking agencies for unsafe or unsound practices in conducting their business for violations of any law, rule, regulation, or any condition imposed in writing by the agency or any written agreement with the agency. These enforcement actions may include the appointment of a conservator or receiver for a bank, the issuance of a cease and desist order that can be judicially enforced, the termination of a bank's deposit insurance, the imposition of civil money penalties, the issuance of directives to increase capital, the issuance of formal and informal agreements, the issuance of removal and prohibition orders against officers, directors and other institution-affiliated parties, and the enforcement of such actions through injunctions or restraining orders based upon a judicial determination that the agency would be harmed if equitable relief was not granted. Finally, pursuant to an interagency agreement, the FDIC may examine without the express permission of the institution's primary regulator any institution that has a substandard regulatory examination score or is considered undercapitalized.

### **Dividend Restrictions**

The Federal Reserve Board's policy regarding dividends is that a bank holding company should not declare or pay a cash dividend which would impose undue pressure on the capital of its subsidiary banks or would be funded only through borrowing or other arrangements that might adversely affect a bank holding company's financial position. The Federal Reserve Board believes that a bank holding company should not initiate or continue cash dividends on its common stock unless its net income is sufficient to fully fund each dividend and its prospective rate of earnings retention appears consistent with its capital needs, asset quality and overall financial condition. Pursuant to the Written Agreement entered into with the Federal Reserve Bank of Chicago, CIB Marine has agreed not to declare or pay dividends without the prior written approval of the Federal Reserve Bank and the Director of the Division of Banking Supervision and Regulation of the Board of Governors. In addition, as a result of the agreement entered into with its regulator, CIB Marine has elected to defer all interest payments on its junior subordinated debentures subsequent to December 31, 2003. According to the terms of its junior subordinated debt agreements, during the deferral period, CIB Marine may not pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment on its stock. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters in Part II of this Form 10-K for further information on the Written Agreement.

CIB Marine's ability to pay any dividends to its shareholders depends in large part on the ability of CIB Marine's subsidiary banks to pay it dividends. Federal law prohibits the payment of any dividends that would cause a bank to become undercapitalized. The ability of state chartered commercial banks to pay dividends is also subject to restrictions primarily under the banking laws of the state under which the bank is organized. In the case of CIB Marine's state chartered banks, the laws of Illinois and Wisconsin are applicable. The ability of Citrus Bank to pay dividends is subject to OCC regulations applicable to national banks. In addition, the Federal Reserve Board and the bank's regulators have the authority to prohibit CIB Marine and its subsidiary banks from paying dividends, depending upon CIB Marine's and the banks' financial condition, if such payment is deemed to constitute an unsafe or unsound practice. Pursuant to the regulatory Memorandum in effect at March 31, 2007, CIB Marine's banking subsidiary Marine-Wisconsin has agreed not to declare or pay any cash dividends without the prior written consent of the Regional Director of the Federal Deposit Insurance Corporation and the Administrator of the Wisconsin Department of Financial Institutions, Division of Banking. Pursuant to the Order to Cease and Desist dated April 30, 2004, Central Illinois Bank could not declare or pay a dividend without the approval of the FDIC and DBRE. In 2007, the order was released and replaced with a memorandum which does not contain the dividend restriction.

During 2006, CIB Marine was paid dividends of \$1.6 million from CIB Construction.

---

## Table of Contents

### **Federal Deposit Insurance**

As FDIC-insured institutions, each of CIB Marine's subsidiary banks are required to pay deposit insurance premiums based on the risk each poses to the FDIC insurance funds. In 2006, the FDIC had the authority to raise or lower assessment rates on insured deposits in order to achieve certain designated reserve ratios in the insurance funds and to impose special additional assessments. The FDIC had adopted a premium rate schedule, which provided for an assessment range of 0% to 0.27% of domestic deposits, depending on the capital category and supervisory category to which it is assigned. The FDIC's risk-based insurance assessment system was amended by the Federal Deposit Insurance Reform Act in 2006. Under implementing regulations effective for 2007, each insured bank is placed in one of four risk categories based on its level of capital, supervisory ratings and other risk measures, including debt ratings for large institutions, and its insurance assessment rate is determined by its risk category. There is currently a 38 basis point spread between the highest and lowest assessment rates, so that banks classified by the FDIC in Risk Category I are subject in 2007 to an insurance assessment of five to seven basis points (according to the FDIC's assessment of the bank's strength), and banks classified by the FDIC in Risk Category IV are subject to an insurance assessment rate of .43%.

The FDIC is authorized to terminate an institution's deposit insurance upon a finding by the FDIC that the institution's financial condition is unsafe or unsound or that the institution has engaged in unsafe or unsound practices or has violated any applicable rule, regulation, order or condition enacted or imposed by the institution's regulatory agency. The termination of deposit insurance for CIB Marine's banks would have a material adverse effect on CIB Marine. In addition to its insurance assessment, each insured institution is subject to quarterly debt service assessments in connection with bonds issued by the government corporation that financed the federal savings and loan bailout.

In October 2006, the FDIC Board of Directors approved a One-Time Assessment Credit. This credit, totaling \$0.6 million for CIB Marine's subsidiary banks, will be recorded as a credit against regular FDIC insurance premium expense beginning in January 2007 and continue until the credit is exhausted. Of the \$0.6 million, an estimated \$0.2 million will be used to offset the FDIC insurance premium during 2007.

### **Restrictions on Affiliate Transactions**

Transactions between CIB Marine, its subsidiary banks and its nonbank subsidiaries are subject to a number of restrictions. Federal law imposes restrictions and limitations on CIB Marine's subsidiary banks from making extensions of credit to, or the issuance of a guarantee or letter of credit on behalf of, CIB Marine or other affiliates, the purchase of, or investment in, stock or other securities thereof, the taking of such securities as collateral for loans, and the purchase of assets of CIB Marine or other affiliates. Such restrictions and limitations prevent CIB Marine or other affiliates from borrowing from the subsidiary banks unless the loans are secured by marketable obligations of designated amounts. Further, such secured loans and investments by the subsidiary banks to or in CIB Marine or to or in any other non-banking affiliate are limited, individually, to 10% of the respective subsidiary bank's capital, allowance for loan losses and surplus, and such secured loans are limited in the aggregate to 20% of the respective subsidiary bank's capital, allowance for loan losses and surplus. All such transactions must be on terms that are no less favorable to the bank subsidiary than those that would be available from nonaffiliated third parties. Moreover, some state banking laws, like those in Illinois, impose restrictions on affiliate transactions similar to those imposed by federal law. Certain of CIB Marine's subsidiary banks have engaged in transactions with affiliates, including the making of loans to purchase CIB Marine stock. In connection with the Cease and Desist Orders issued against CIB Marine's bank subsidiaries (see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters in Part II of this Form 10-K for further information), CIB Marine's two Illinois bank subsidiaries were cited by bank regulators for failure to comply with federal restrictions (and CIB-Chicago was also cited for failure to comply with the Illinois restrictions) on transactions with affiliates relating to lending transactions involving the stock of CIB Marine. CIB Marine sold CIB-Chicago in November 2004. Federal Reserve Board policies also forbid the payment by bank subsidiaries of management fees which are unreasonable in amount or exceed the fair market value of the services rendered or, if no market exists, actual costs plus a reasonable profit.

At December 31, 2006 CIB Marine's subsidiary banks had \$1.7 million in outstanding principal balances on loans secured or partially secured by CIB Marine stock. Specific reserves on these loans were \$0.01 million. While these loans were secured by CIB Marine stock, the borrowers did not use the proceeds to acquire the stock.

---

## **Table of Contents**

The restrictions on loans to directors, executive officers, principal stockholders and their related interests (collectively referred to herein as “insiders”) contained in the Federal Reserve Act and Regulation O apply to all federally insured institutions. These restrictions include limits on loans to one borrower and conditions that must be met before such a loan can be made. There is also an aggregate limitation on all loans to insiders and their related interests. These loans cannot exceed the institution’s total unimpaired capital and surplus, and the FDIC may determine that a lesser amount is appropriate. Insiders are subject to enforcement actions for knowingly accepting loans in violation of applicable restrictions. Regulation O institutions are not subject to the prohibitions of the Sarbanes-Oxley Act of 2002 on certain loans to insiders.

### **Community Reinvestment Act and Fair Lending**

CIB Marine’s subsidiary banks are subject to the Community Reinvestment Act (“CRA”) and various fair lending requirements and reporting obligations. The CRA generally requires federal banking agencies to evaluate whether financial institutions are meeting the credit needs of its local communities, including low-and moderate-income neighborhoods and to rate such institutions and publicly disclose such ratings. State and federal agencies also examine financial institutions compliance with fair lending laws. A bank may be subject to substantial penalties and corrective measures for a violation of certain fair lending laws. Federal banking agencies are also authorized to take compliance with such laws and a bank’s CRA rating into consideration when regulating and supervising other activities of a bank holding company and its banks, including expansionary activities. As of the date of its most recent examination, each of CIB Marine’s subsidiary banks had a CRA rating of at least satisfactory.

### **Compliance with Consumer Protection Laws**

CIB Marine’s subsidiary banks are subject to many federal consumer protection statutes and regulations including the Truth in Lending Act, Truth in Savings Act, Equal Credit Opportunity Act, Fair Housing Act, Real Estate Settlement Procedures Act and Home Mortgage Disclosure Act. Among other things, these acts:

- require banks to disclose credit terms in meaningful and consistent ways;
- prohibit discrimination against an applicant in any consumer or business credit transaction;
- prohibit discrimination in housing-related lending activities;
- require banks to collect and report applicant and borrower data regarding loans for home purchases or improvement projects;
- require lenders to provide borrowers with information regarding the nature and cost of real estate settlements;
- prohibit certain lending practices and limit escrow account amounts with respect to real estate transactions; and
- prescribe possible penalties for violations of the requirements of consumer protection statutes and regulations.

### **Privacy and Security**

The GLBA also establishes a minimum federal standard of financial privacy by, among other provisions, requiring banks to adopt and disclose privacy policies with respect to consumer information and setting forth certain rules with respect to the disclosure to third parties of consumer information. CIB Marine has adopted and disseminated its privacy policies pursuant to the GLBA. Regulations adopted under the GLBA set standards for protecting the security, confidentiality and integrity of customer information, and require notice to regulators, and in some cases, to customers, in the event of security breaches. A number of states have adopted their own statutes requiring notification of security breaches. In addition, the GLBA requires the disclosure of agreements reached with community groups that relate to the CRA, and contains various other provisions designed to improve the delivery of financial services to consumers while maintaining an appropriate level of safety in the financial services industry.

---

## **Table of Contents**

### **USA Patriot Act of 2001**

The USA Patriot Act of 2001 and its implementing regulations (“Patriot Act”) were enacted and implemented for the purpose of strengthening the ability of the U.S. Government to intercept and obstruct terrorism by, among others, increasing the power of the U.S. government to obtain access to information and to investigate a broad range of criminal activities. The Patriot Act expanded the definition of money laundering to include terrorism, terrorism support and foreign corruption, and increases the civil and criminal penalties for money laundering offenses. The Patriot Act further applies certain anti-money laundering measures to United States bank accounts of foreign persons; prohibits financial institutions from establishing, maintaining, administering or managing a correspondent account with a foreign shell bank; provides for certain forfeitures of funds deposited in United States interbank accounts by foreign banks; provides the Department of Treasury with regulatory authority to ensure that certain accounts are not used to hide the identity of customers transferring funds and to impose additional reporting requirements with respect to money laundering activities; provides standards for verifying customer identification at account opening; and sets forth rules to promote cooperation among financial institutions, regulators and law enforcement entities in identifying parties that may be involved in terrorism or money laundering. The potential impact of the Patriot Act on financial institutions of all kinds is significant and wide ranging. Regulatory authorities have increased compliance monitoring activities and have levied significant fines and sanctions on many firms in the financial industry. No fines or sanctions have been levied on CIB Marine.

### **Sarbanes-Oxley Act of 2002**

The Sarbanes-Oxley Act of 2002 (“Sarbanes”) addresses corporate governance and accounting oversight matters. Sarbanes required the creation of a five member oversight board appointed by the Securities Exchange Commission (“SEC”) that sets standards for accountants and has investigative and disciplinary powers; prohibits accounting firms from providing various forms of service to public audit clients, such as certain consulting services; requires accounting firms to rotate partners working with public clients every five years; expands disclosure of corporate operations and internal controls; requires certification of financial statements by the CEO and the Chief Financial Officer of public companies; increases penalties and forfeitures for financial crimes or failing to report events having a material affect on the financial statements or operations of a public company; and enhances controls on and reporting of insider trading. As CIB Marine is a non-accelerated filer, it is not subject to the internal control requirements of Section 404 of Sarbanes for the fiscal year ended December 31, 2006.

### **Exchange Act**

CIB Marine’s stock is registered with the SEC. Under the Securities Exchange Act of 1934 (the “Exchange Act”), CIB Marine is subject to the information, reporting, proxy solicitation, insider trading, corporate governance and other requirements and restrictions of the Exchange Act.

### **Future Legislation**

Various legislation is from time to time introduced in Congress and state legislatures with respect to the regulation of financial institutions. Such legislation may change the banking statutes and the operating environment of CIB Marine and its banking subsidiaries in substantial and unpredictable ways. CIB Marine cannot determine the ultimate effect that potential legislation, or implementing regulations, if enacted, would have upon the financial condition or results of operations of CIB Marine or its banking subsidiaries.

### **AVAILABLE INFORMATION**

CIB Marine files various reports with the SEC. The reports include the annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act. CIB Marine makes all SEC filings available without charge to the public on its web site at <http://www.cibmarine.com> as soon as reasonably practicable after filed.

## Table of Contents

### **ITEM 1A. RISK FACTORS**

#### **Forward-Looking Statements**

CIB Marine has made statements in this Annual Report on Form 10-K that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. CIB Marine intends these forward-looking statements to be subject to the safe harbor created thereby and is including this statement to avail itself of the safe harbor. Forward-looking statements are identified generally by statements containing words and phrases such as “may,” “project,” “are confident,” “should be,” “will be,” “predict,” “believe,” “plan,” “expect,” “estimate,” “anticipate,” and similar expressions. These forward-looking statements reflect CIB Marine’s current views with respect to future events and financial performance, which are subject to many uncertainties and factors relating to CIB Marine’s operations and the business environment, which could change at any time. Financial information contained in this Form 10-K for 2007 is unaudited.

Forward-looking statements are subject to significant risks and uncertainties and CIB Marine’s actual results may differ materially from the results discussed in such forward-looking statements. Factors that might cause actual results to differ from the results discussed in forward-looking statements include, but are not limited to, the risk factors set forth below.

#### **Risk Factors**

The following discussion sets forth certain material risks that CIB Marine believes could have a material adverse impact on its financial condition and results of operations. Additional risks that are not currently known to CIB Marine, or that it currently believes to be immaterial, may also have a material effect on its financial condition and results of operations.

#### **CIB Marine has suffered large losses in recent years, and it must execute its strategic plan and return to profitability.**

CIB Marine has incurred net losses in each of the four years ended December 31, 2006. In particular, in 2003, CIB Marine’s net loss was \$137.6 million. Although CIB Marine has developed and implemented strategies to improve its profitability in the future, there can be no assurance that these strategies will be successful. CIB Marine’s strategic plans are dependent upon its ability to attract and retain borrowing customers, commercial loan officers and core deposits, all of which have been negatively impacted as a result of losses and weakened financial condition. If CIB Marine is unable to execute its strategic plans and return to profitability, it will have a material impact on its business, results of operations and financial condition. The inability to return to profitability may require CIB Marine to sell bank subsidiaries, reduce the size of bank subsidiaries and/or reduce staff. There can be no assurance that if CIB Marine is required to sell assets, it will be able to do so on acceptable terms. Regulators could take further action against CIB Marine in the event it does not return to profitability.

#### **CIB Marine’s results of operations are subject to general and regional economic conditions, which are beyond its control.**

CIB Marine’s business and profitability is affected, directly and indirectly, by domestic and international economic and political conditions and by governmental monetary and fiscal policies. Conditions such as inflation, unemployment, consumer spending, the level and volatility of interest rates, the housing market, government monetary policy, international conflicts, the actions of terrorists and other factors beyond its control may adversely affect its results of operations. Changes in interest rates, in particular, could adversely affect CIB Marine’s net interest income and have other adverse effects on its operations. Adverse economic conditions also could result in an increase in loan delinquencies, foreclosures and nonperforming assets and a decrease in the value of the property or other collateral which secure its loans, all of which could adversely affect its results of operations. In particular, CIB Marine is sensitive to changes in economic conditions and related uncertainties in the markets in which it has significant operations, including those in Illinois, Wisconsin, Indiana, Florida and Arizona.

---

## **Table of Contents**

### **CIB Marine operates in a highly regulated environment and is subject to supervision and examination by various federal and state regulatory agencies.**

As a bank holding company, CIB Marine is regulated separately by the Federal Reserve Board, and each of its bank subsidiaries is regulated separately by various federal and state banking regulators. This regulation is primarily intended to protect CIB Marine's customers and their deposits rather than its shareholders. In addition, CIB Marine's common stock is registered under the Exchange Act and CIB Marine is subject to public reporting requirements.

Federal and state laws and regulations govern numerous aspects of the business of the banks, including:

- Adequate capital and financial condition;
- Permissible types, amounts and extensions of credit and investments;
- Permissible non-banking activities; and
- Restrictions on dividend payments.

Federal and state banking agencies have extensive discretion and power to prevent or remedy unsafe or unsound practices or violations of law by banks and bank holding companies. CIB Marine and its bank subsidiaries also undergo periodic examination by one or more regulatory agencies. Regulators may require CIB Marine and its bank subsidiaries, based on the results of these examinations, to change its or their asset valuations or the amounts of required loan loss allowances, or to restrict operations. CIB Marine's operations are also subject to a wide variety of state and federal consumer protection and similar statutes and regulations. These federal and state regulatory restrictions limit the manner in which CIB Marine and its banks may conduct their businesses and obtain financing. Laws affecting CIB Marine may change, and often do change, significantly from time to time, and these changes could adversely affect CIB Marine.

At December 31, 2006, CIB Marine and certain of its subsidiaries are subject to an agreement, order and memorandum with their respective banking regulators. The orders, memoranda, and agreements impose certain restrictions and reporting requirements including, but not limited to:

- Maintenance of minimum capital levels;
- Restrictions on dividend payments and redemption of shares of CIB Marine without regulatory approval;
- Limitations on asset and loan growth;
- Adoption of a comprehensive plan to improve earnings;
- Development of a plan to reduce concentrations of credit and loan relationships classified as substandard or doubtful;
- Development of a system to correct loan administration deficiencies; and
- Development of a plan to correct and prevent violations of banking laws and regulations related to affiliate transactions.

Failure to comply with the requirements of the agreement, order and memorandum could adversely affect the business and operations of CIB Marine and its subsidiaries.

Further, CIB Marine has not filed all required reports pursuant to the Exchange Act and all required federal and state tax returns. Failure to bring these filings current could adversely affect the business and results of operations of CIB Marine. Failure to become current with the reporting requirements of the Exchange Act could result in deregistration of its common stock. Delinquencies in filing its tax returns could result in fines and penalties.

### **CIB Marine is subject to litigation.**

CIB Marine is currently, and may from time to time be, involved in litigation in which it has been named as a defendant as a result of its operations. In particular, CIB Marine and certain of its current and former officers and directors are defendants in a purported class action lawsuit alleging violations of the federal securities laws.

Claims asserted against CIB Marine, regardless of merit or eventual outcome, may harm CIB Marine's

---

## **Table of Contents**

reputation, which could have a material effect on its business operating results and financial condition. Judgments or settlements relating to pending or future litigation which exceed CIB Marine's insurance coverage or claims outside the scope of insurance coverage could also have a material impact on CIB Marine's business, operating results and financial condition and its ability to obtain future insurance coverage. CIB Marine is also subject to mandatory indemnification of its current and former officers and directors under certain circumstances. For a description of current legal proceedings, see Item 3-Legal Proceedings in Part I of this Form 10-K.

### **CIB Marine competes for key personnel.**

To a large degree, CIB Marine's success depends on its ability to attract and retain key personnel. Competition for skilled personnel in the banking industry can be intense, and CIB Marine may not be able to hire or retain the people necessary to successfully implement its business strategy. In particular, skilled lending officers are necessary in order to compete for loans in the markets CIB Marine serves and in helping to manage credit risk. The unexpected loss of services of one or more key personnel could have a material adverse impact on CIB Marine's business, given the knowledge and experience of such personnel, and the difficulty of finding qualified replacements on a timely basis.

### **CIB Marine's future success depends upon its ability to compete effectively in the highly competitive banking industry.**

Competition among financial institutions in the geographic markets in which CIB Marine competes is strong. CIB Marine competes with other bank holding companies, state and national commercial banks, state and federal savings and loan associations and savings banks, consumer finance companies, credit unions, securities brokerage firms, insurance companies, mortgage banking companies, money market mutual funds, asset-based non-bank lenders and other financial services providers. Many of these competitors have greater financial resources and lending limits and larger branch networks than CIB Marine. They are also able to offer a broader range of products and services than CIB Marine can offer. Some of the non-bank competitors also have less regulatory burden than CIB Marine. In addition, in recent years many large commercial enterprises, such as life insurance companies and securities brokerage firms, have acquired or formed their own banks. All of these factors have created stronger competition for CIB Marine's products and services. Failure to compete effectively for deposit, loan and other banking customers in CIB Marine's primary market areas will adversely affect CIB Marine's business.

### **CIB Marine's loan portfolio contains concentrations of credit to one borrower, related borrowers or borrowers in the same industry, which creates special credit risks.**

Credit risk is the risk that one or more of CIB Marine's borrowers will not be able to repay some or all of their obligations to CIB Marine. Credit risk is inherent in CIB Marine's business. Concentrations of credit occur when the aggregate amount owed by one borrower, a related group of borrowers or borrowers within an industry or group represent a relatively large percentage of the total credit extended by CIB Marine. Although each loan in a concentration may be of sound quality, concentrations of credit create special risks that are not present when the same loan amount is extended to a group of unrelated borrowers. Loans concentrated in one borrower depend, to a large degree, upon the financial capability and character of the individual borrower. Loans made to a related group of borrowers can be susceptible to a domino effect if financial problems are experienced by one or a few members of that group. Concentrations of loans within or dependent upon an industry are also impacted by external economic conditions and market acceptance, which are risk factors that can equally affect all members of that industry.

At December 31, 2006, CIB Marine had one borrowing relationship that exceeded 25% of stockholders' equity. The total outstanding commitments associated with this borrowing relationship, including lines of credit not fully drawn at December 31, 2006, was 25.8% of equity and 3.5% of total loans. The principal amount actually drawn and outstanding was \$3.1 million at December 31, 2006 and \$11.8 million at September 30, 2007. As of December 31, 2006 and September 30, 2007 all loans within this borrowing relationship are current. At December 31, 2006, CIB Marine also had total borrowings within six industries or industry groups that exceeded 25% of its stockholders' equity as of that date. Of the six industries or industry groups, the largest concentration at December 31, 2006, consisted of loans to commercial real estate developers, which had a total outstanding balance of approximately \$143.2 million, or 27% of total loans, and 200% of stockholders' equity.

---

## **Table of Contents**

### **CIB Marine is subject to certain risks in connection with its use of technology.**

Communications and information systems are essential to the conduct of CIB Marine's business. While CIB Marine has established policies and procedures to prevent or limit the impact of systems failures, interruptions, and security breaches, there can be no assurance that such events will not occur or that they will be adequately addressed if they do. Although CIB Marine relies on commonly used security and processing systems to provide the security and authentication necessary to effect the secure transmission of data, these precautions may not protect its systems from compromises or breaches of security. The occurrence of any systems failure, interruption, or breach of security could damage CIB Marine's reputation and result in a loss of customers and business, subject CIB Marine to additional regulatory scrutiny, or expose CIB Marine to civil litigation and possible financial liability. Any of these occurrences could have a material adverse effect on CIB Marine's financial condition and results of operations.

In addition, the provision of financial products and services has become increasingly technology-driven. CIB Marine's ability to meet the needs of its customers competitively, and in a cost-efficient manner, is dependent on its ability to keep pace with technological advances and to invest in new technology as it becomes available. Many of its competitors have greater resources to invest in technology and may be better equipped to market new technology-driven products and services. The ability to keep pace with technological change is important, and the failure to do so on CIB Marine's part could have a material adverse impact on CIB Marine's business and therefore on its financial condition and results of operations.

### **CIB Marine's profitability is dependent upon its ability to manage net interest income.**

CIB Marine's primary source of income is net interest income, which is the difference between the interest income earned on interest-earning assets (consisting primarily of loans and securities) and the interest expense paid on interest-bearing liabilities (consisting primarily of deposits and other borrowings). The level of net interest income is a function of the average balance of interest-earning assets, the average balance of interest-bearing liabilities, and the spread between the yield on such assets and the cost of such liabilities. These factors are influenced by CIB Marine's ability to attract loans and core deposits and the pricing and mix of these and other interest-earning assets and interest-bearing liabilities which, in turn, are impacted by such external factors as the local economy, competition for loans and deposits, monetary policy, and market interest rates.

The level of net interest income is influenced by movements in such rates of interest, and the pace at which such movements occur. If the interest rates on interest-bearing liabilities increase at a faster pace than the interest rates on interest-earning assets, the result could be a reduction in net interest income and with it, a reduction in earnings. CIB Marine's net interest income and earnings would be similarly impacted if the interest rates on interest-earning assets decline more quickly than the interest rates on interest-bearing liabilities. In addition, such changes in interest rates could have an effect on the ability to originate loans and attract and retain deposits; the fair value of financial assets and liabilities; and the average life of loan and securities portfolios.

### **CIB Marine is subject to credit risk.**

CIB Marine is exposed to the risk that third parties that owe it money, securities, or other assets will not repay their obligations. Credit risk arises anytime CIB Marine commits, invests, or otherwise extends funds through contractual agreements, whether reflected on or off the balance sheet. These parties may default on their obligations due to bankruptcy, lack of liquidity, operational failure or other reasons.

The Company's credit risk is concentrated in its loan portfolio. Credit risk is affected by a variety of factors including credit-worthiness of the borrower, the sufficiency of underlying collateral, the enforceability of third-party guarantees, changing economic and industry conditions and concentrations of credit by loan type, terms or geographic area, changes in the financial condition of the borrower or other party, and by credit and underwriting policies.

CIB Marine has established an allowance for loan loss which represents management's best estimate of probable losses inherent in its loan portfolio. The determination of the appropriate level of the allowance involves a high degree of subjectivity. If CIB Marine's assumptions and judgments are incorrect, its allowance may not be sufficient and additional provisions may need to be made. In addition, the bank regulatory agencies periodically review the

---

## **Table of Contents**

adequacy of the allowance and may require an increase in the allowance or loan charge-offs. Increases in the allowance, or charge-offs, could have a material adverse effect on CIB Marine's financial condition and results of operations.

### **CIB Marine is subject to liquidity risk and has long-term obligations on which it has deferred interest payments.**

Liquidity risk is the potential that CIB Marine will be unable to meet its obligations as they come due or capitalize on growth opportunities as they arise, because of an inability to liquidate assets or obtain adequate funding in a timely basis, at a reasonable cost and within acceptable risk tolerances. Liquidity is required to fund credit obligations to borrowers, withdrawals by depositors, repayment of debt when due or called, operating expenses and capital expenditures, among other things.

Liquidity is derived primarily from bank-issued deposit growth and retention; principal and interest payments on loans; principal and interest payments; sale, maturity and prepayment of investment securities; net cash provided from operations; and access to other funding sources.

CIB Marine's liquidity can be affected by a variety of factors, including general economic conditions, market disruption, operational problems affecting third parties or CIB Marine, unfavorable pricing, competition, CIB Marine's credit rating and regulatory restrictions. CIB Marine and its bank subsidiaries are subject to regulatory orders, memoranda and agreements which contain restrictions that could adversely impact liquidity.

CIB Marine exercised the right to defer interest payments on its junior subordinated debentures and, as a result, the related trusts deferred distributions on the trust preferred securities beginning in the first quarter of 2004. Accrued and unpaid interest on the \$61.9 million of junior subordinated debentures totaled \$14.1 million and \$20.8 million at December 31, 2005 and 2006, respectively. CIB Marine has the right to defer interest payments until the first quarter of 2009. CIB Marine must develop a strategy for refinancing or becoming current on distributions on the trust preferred securities before that time.

In addition, some of the borrowing sources customarily utilized by CIB Marine are restricted or unavailable due to noncompliance with certain asset quality, earnings and capital maintenance debt agreements and the inability to provide audited financial statements.

### **CIB Marine relies on dividends received from its subsidiaries.**

CIB Marine is a holding company that is a separate and distinct legal entity from its subsidiaries, and typically receives substantially all of its revenue from its subsidiaries in the form of dividends and professional fees. Various federal and state laws and regulations limit the amount of dividends that a bank may pay to its parent company. In addition, pursuant to the regulatory orders and agreements, the holding company and certain of its bank subsidiaries are currently restricted from paying dividends without prior regulatory approval and certain bank subsidiaries have agreed to maintain a minimum Tier 1 capital level of 8%. Further, CIB Marine's right to participate in a distribution of assets upon the liquidation or reorganization of a subsidiary may be subject to the prior claims of the subsidiary's creditors. In the event that the subsidiaries are unable to pay dividends to the holding company, CIB Marine may not be able to meet its obligations. Although CIB Marine believes that it currently has sufficient liquidity to meet its obligations, the inability to receive dividends from the subsidiaries, now and in the future, could have a material adverse effect on its business, financial condition, and results of operations.

- (1) Subsequent to December 31, 2006, CIB Marine sold, closed or received regulatory approval to close the branch. CIB Marine's subsidiary banks are continuing to evaluate the effectiveness of their respective branch networks, which may result in the sale or closure of additional branches. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Subsequent Events-Branch Activities in Part II of this Form 10-K.

None of the properties owned by CIB Marine or its subsidiaries are subject to encumbrances material to the operations of CIB Marine and its subsidiaries. CIB Marine considers the conditions of its properties to be generally good and adequate for the current needs of the businesses of it and its subsidiaries.

### ITEM 3. LEGAL PROCEEDINGS

Material pending litigation, other than that of a routine nature in the ordinary course of business, is as follows:

In August 2003, Keith Burchett, a shareholder of CIB Marine and a borrower of CIB-Chicago, commenced an action in the Circuit Court of Cook County, Illinois, against CIB Marine, Central Illinois Bank, CIB-Chicago and two of their now former directors and/or officers for damages arising out of alleged fraudulent misrepresentations relative to the financial condition of Canron and its principal shareholder by defendants to induce the plaintiff to borrow money from CIB-Chicago and make a \$0.5 million investment in Canron. Plaintiff asserts claims

for fraud

---

## Table of Contents

and shareholder remedies. The shareholder remedies action alleges the defendants' violations of lending regulations caused a decline in the plaintiff's investment in CIB Marine. Plaintiff seeks an unspecified amount of compensatory and punitive damages, requests an order requiring CIB Marine and the banks to repurchase his CIB Marine shares of stock at fair value, and other forms of relief. While the outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend this action. Central Illinois Bank has been removed as a defendant in subsequent amended complaints filed by the plaintiff. On November 30, 2004, CIB Marine sold CIB-Chicago.

In June 2004, Central Illinois Bank commenced an action in the Circuit Court of the Sixth Judicial Circuit, Champaign County, Illinois, against John C. Hadley and Mary Lydia Hadley, CIB Marine's largest individual shareholders at the time, for damages arising out of the Hadleys' default in December 2003 of certain loan obligations (the "State Litigation") and subsequently obtained a confession of judgment. The loans approximate \$9.7 million plus interest and attorneys fees and were secured by CIB Marine stock and the accounts receivable, inventory, equipment and other personal property of the borrowers and their restaurant supply and coin businesses. In December 2004, the Hadleys consented to the entry of an order for relief under Chapter 11 of the Bankruptcy Code pending in the United States Bankruptcy Court for the Central District of Illinois (the "Bankruptcy Case"). The Hadleys stayed the State Litigation and, in the first quarter of 2006, the Hadleys filed a counterclaim against Central Illinois Bank in the dischargeability adversary proceeding that sought to recover \$35.0 million in actual damages and punitive damages for the alleged loss or substitution by Central Illinois Bank of certain rare coins and collectibles which the Hadleys alleged were pledged to the bank as collateral, sought to recover certain alleged preferential transfers and sought to equitably subordinate the bank's claim to those of unsecured creditors. Central Illinois Bank and the Hadleys have settled these matters with the approval of the Bankruptcy Court. According to the settlement agreement, the adversary complaint and counterclaims in the Bankruptcy Court and the State Litigation were dismissed with prejudice and without admitting any fault or liability; the parties exchanged mutual general releases of claims among the Hadleys, Central Illinois Bank and its parent and affiliated corporations, preserving only the Hadleys' claims as members of a putative plaintiff class in an action currently pending in the United States District Court for the Eastern District of Wisconsin entitled *Dennis Lewis, et al. v. CIB Marine Bancshares, Inc., et al.*, Case No. 05-C-1008 or as individual plaintiffs in an "opt out" action against some or all of the same parties alleging substantially the same claims; and Central Illinois Bank discharged, waived, released and assigned its claims in the Bankruptcy Case to the Hadleys' bankruptcy estate, returned to the Hadleys' bankruptcy estate all collateral security held by Central Illinois Bank and paid the bankruptcy estate \$1.75 million in the first quarter of 2007. CIB Marine recorded a \$1.75 million contingent liability expense in the first quarter of 2006 related to the settlement.

In June 2004, John C. Ruedi, a former employee of CIB Marine, filed an action against CIB Marine and "Central Illinois Bancorp, Inc." in the Circuit Court of the Sixth Judicial District, Champaign County, Illinois for rescission or damages, including punitive damages, in connection with plaintiff's October 1, 2002 exercise of options issued by CIB Marine to acquire 36,688 shares of CIB Marine common stock at various exercise prices. Plaintiff claims that but for CIB Marine's and Central Illinois Bancorp, Inc.'s alleged fraudulent concealment of material facts regarding the financial condition of CIB Marine he would not have exercised his options. Plaintiff also seeks to recover from Central Illinois Bancorp, Inc. and CIB Marine in excess of \$40,000 allegedly due Plaintiff pursuant to a purported memorandum providing for the payment of an incentive to Plaintiff in connection with his employment. In March 2005, Plaintiff amended his complaint to add the former President and CEO of CIB Marine as a defendant based upon claims of alleged fraudulent concealment. (Claims filed in the action against CIB Marine's independent registered public accounting firm KPMG LLP (hereinafter "KPMG") and a now retired partner of KPMG were voluntarily dismissed by the Plaintiff.) CIB Marine filed a motion to dismiss several of Plaintiff's claims and answered the others denying liability. That motion to dismiss was denied and CIB Marine answered the remaining counts against it, denying liability. Plaintiff filed a motion for summary judgment seeking recovery of \$40,000 from CIB Marine on his incentive payment claim. This motion was denied. All discovery has been stayed in this action by an order of the Federal Court in the Dennis Lewis case described later in this section, with the result that this suit is currently dormant. Plaintiff has filed a motion in the Lewis case to vacate the discovery stay in this case. No date has been set for a ruling on that motion, which CIB Marine and the other defendants in the Lewis case opposed. While the ultimate outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend the action.

On June 3, 2005, a first consolidated complaint was filed by Dennis Lewis, a shareholder, and other alleged shareholders of CIB Marine in the United States District Court for the Central District of Illinois, Urbana Division,

---

## Table of Contents

against CIB Marine, certain of its current and former officers and directors, and KPMG. The filing consolidated two actions that had been filed in January 2005: one filed by Lewis in the United States District Court for the Central District of Illinois, Urbana Division and another filed in the United States District Court for the Central District of Illinois, Peoria Division by Elaine Sollberger, a purported shareholder, whose claims were voluntarily dismissed in connection with the consolidation, and have not been reasserted in the consolidated complaint. Plaintiffs sought to maintain the action as a class action on behalf of all persons who purchased common stock of CIB Marine between April 12, 1999, and April 12, 2004, claiming violations of Section 10(b) of the Exchange Act and Rule 10b-5 thereunder by CIB Marine and other defendants and liability of certain defendants other than CIB Marine and KPMG under Section 20(a) of the Exchange Act as controlling persons. The substance of the complaint is that the financial condition of CIB Marine was overstated with the result that members of the purported class acquired their CIB Marine stock at inflated prices. Plaintiffs seek money damages, interest, attorneys' fees and costs. The federal court in Urbana, Illinois granted the motion of CIB Marine and several other defendants to transfer the action to the United States District Court for the Eastern District of Wisconsin, sitting in Milwaukee, Wisconsin, where the action is now pending.

All defendants moved to dismiss the action on various grounds. On October 12, 2006 the court denied CIB Marine's motion to dismiss, granted in part the motions to dismiss filed by the individual defendants and granted the motion to dismiss filed by KPMG. CIB Marine and the individual defendants have filed answers to the pending complaint denying any liability. An additional person has moved to intervene as a plaintiff in the action. In light of a recent decision of the Supreme Court of the United States that addressed the pleading standards that must be satisfied by the plaintiff in a case such as this one, on July 16, 2007 CIB Marine and the individual defendants filed a motion for judgment on the pleadings, or in the alternative, a motion for reconsideration of the ruling on the motion to dismiss, seeking dismissal of the action on the ground that the plaintiffs have not satisfactorily pleaded one of the essential elements of their cause of action. That motion has been fully briefed and no date has been set for a decision.

On November 10, 2006, plaintiffs filed a further amended complaint as to KPMG, which KPMG moved to dismiss. On August 13, 2007, the court granted KPMG's motion and dismissed the action as to it.

As a result of the filing of the initial motions to dismiss, all discovery in this action was stayed automatically. Plaintiffs have moved to vacate that stay of discovery, which all defendants opposed based on KPMG's pending motion to dismiss the further amended complaint filed by plaintiffs against KPMG. In granting KPMG's motion to dismiss, the court noted the pendency of the motion for judgment on the pleadings described above and ruled that the stay of discovery will remain in place. Plaintiffs have filed a separate motion for a limited lift of the stay of discovery, which CIB Marine and the individual defendants opposed in their response filed on September 11, 2007. The court has not set a date to rule on the motions to vacate the stay of discovery.

CIB Marine intends to vigorously contest certification of any class action and to otherwise vigorously defend this action. The ultimate outcome of this action cannot be determined at this time.

In April 2005, James Fasano and Thomas Arundel, shareholders of CIB Marine and borrowers of CIB-Chicago, commenced an action in the Circuit Court of Cook County, Illinois, against CIB Marine, CIB-Chicago and two of their now former directors and/or officers for damages arising out of alleged fraudulent misrepresentations relative to the financial condition of Canron and its principal shareholder to induce the plaintiffs to borrow \$0.5 million from CIB-Chicago and invest it in Canron. Plaintiffs assert claims for fraud and shareholder remedies. The shareholder remedies action alleges the defendants' violations of lending regulations caused a decline in the plaintiffs' investment in CIB Marine. Plaintiffs seek an unspecified amount of compensatory and punitive damages, request an order requiring CIB Marine and the bank to repurchase their CIB Marine shares of stock at fair value, and other forms of relief. While the outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend this action. On November 30, 2004, CIB Marine sold CIB-Chicago.

In December 2003, CIB-Chicago acquired the title to a commercial office building that was being converted into residential condominiums. The property was acquired through a Deed in Lieu of Foreclosure Settlement Agreement ("DIL Agreement") from a borrower who was in default on its obligation. The property was included in foreclosed properties at December 31, 2003. Pursuant to the DIL Agreement, CIB-Chicago acquired the property subject to the first lien held by an unaffiliated financial institution and assumed the borrower's financial obligation relating to that

---

## Table of Contents

first lien. At December 31, 2003, the assumed financial obligation was reported as an outstanding non-recourse mortgage note payable. During the second quarter of 2004, CIB-Chicago transferred all of its rights, title and interest in the property, along with the borrower's obligation under the related mortgage note, to the first lien holder. CIB-Chicago transferred the property based upon its evaluation that the amount of additional funds necessary to complete the project was greater than the financial benefits and risks associated therewith. The property was transferred without any further liability or obligation to the first lien position holder and CIB-Chicago reserved its legal rights to pursue the borrower and guarantors. The transfer to the first lien holder resulted in no additional gain or loss to CIB Marine. During 2003, CIB Marine charged-off \$41.7 million of the loan to its allowance for loan loss with respect to this borrowing relationship and also recorded a \$1.5 million market value write down on the property. In July 2004, CIB-Chicago commenced litigation in the United States District Court for the Northern District of Illinois, Eastern Division, against the borrower, guarantors and their related interests for collection of the losses incurred by CIB Marine based upon state law claims of breach of agreements, fraud, conversion and other theories of recovery, including Federal RICO violations. In November 2004, CIB-Chicago assigned the loans and claims related to this development to CIB Marine in conjunction with the sale of CIB-Chicago. In April 2005, the United States District Court dismissed the RICO claim and, as a result, lacked jurisdiction over the state law claims. In April 2005, CIB Marine commenced an action in the Circuit Court of Cook County, Illinois, against the defendants on the state law claims. In the event that there are any recoveries with respect to these loans and claims, CIB Marine has agreed to pay the purchaser of CIB-Chicago ten percent of any recovery after collection costs. To date, CIB Marine has not made any recoveries with respect to such loans and claims.

On April 20, 2006, Mark A. Sindecuse filed an action in the United States District Court, Eastern District of Missouri, Eastern Division (St. Louis) against CIB Marine, Dean M. Katsaros ("Katsaros"), a former director of CIB Marine, and Katsaros & Associates, Inc. The complaint, as amended, purported to assert common law causes of action against CIB Marine for fraud and negligent misrepresentation in connection with plaintiff's purchases of common stock of CIB Marine in private placements in 1995, 1996, 1997 and 1998. Plaintiff sought compensatory damages in excess of \$2,000,000 and unspecified punitive damages. After a motion to dismiss the amended complaint resulted in the dismissal of the negligent misrepresentation claims against it, CIB Marine filed an answer denying any liability to plaintiff and a motion for summary judgment on the remaining claim. On August 28, 2007, following Plaintiff's withdrawal of two of the three remaining claims against Katsaros, the Court granted CIB Marine and Katsaros summary judgment on the sole remaining claim and dismissed the lawsuit. On September 24, 2007, Plaintiff filed a notice of appeal of the judgment.

CIB Marine and the individual defendants in the Ruedi, Burchett, Fasano/Arundel and Lewis cases described above, are insureds under a policy that on its face purports to provide coverage for those cases, including the costs of defense (payment of which by the insured reduces the remaining coverage under the policy), which include attorneys' fees. The insurer has reserved all rights and notified CIB Marine and the other insureds of potential grounds to deny coverage. After CIB Marine exhausted the retention under that policy, the insurer paid substantially all of the costs of defense of CIB Marine and the individual defendants in the Ruedi and Lewis cases through February 17, 2006 subject to its reservation of rights to seek reimbursement (and through March 31, 2007 in the Burchett and Fasano/Arundel cases). The insurer informed the insureds of its intention to terminate any further funding of the costs of defense. Negotiations ensued and CIB Marine and the insurer discussed an arrangement in which the insurer would pay 35% of the costs of defense of the Ruedi and Lewis cases incurred by CIB Marine and the individual defendants and CIB Marine would pay the remaining 65% of those reasonable costs. This agreement has not been reduced to writing. With respect to the individual defendants, the payment of these defense costs by CIB Marine is pursuant to the provision of its by-laws that mandates advancing defense costs of directors and officers under certain circumstances and a full reservation of rights under the policy by both parties. The advances to individuals are subject to repayment by the individual defendants if it is ultimately determined, as provided in the by-laws and applicable Wisconsin law, that they are not entitled to be indemnified. The arrangement under discussion with the insurer would provide that either CIB Marine or the insurer could terminate the funding arrangement under certain circumstances. In the event of termination, CIB Marine would be responsible for all of the reasonable costs of defense of CIB Marine and the individual defendants.

With respect to the Burchett and Fasano/Arundel cases, after CIB Marine exhausted retention under that policy, the insurer paid substantially all of the costs of defense of CIB Marine and the individuals through March 31, 2007, subject to its reservation of rights. On March 14, 2007, the insurer informed the insureds of its intention to terminate funding of all of the costs of defense in those actions on or after April 1, 2007 and proposed a funding arrangement

---

## **Table of Contents**

comparable to that discussed with respect to the Ruedi and Lewis cases. No agreement has been reached with respect to post-April 1, 2007 funding of defense costs in the Burchett and Fasano/Arundel cases. With respect to the individual defendants, the payment of these defense costs by CIB Marine is pursuant to the provision of its by-laws that mandates advancing defense costs of directors and officers under certain circumstances and a full reservation of rights under the policy by both parties. The advances to individuals are subject to repayment by the individual defendants if it is ultimately determined, as provided in the by-laws and applicable Wisconsin law, that they are not entitled to be indemnified.

It is not possible to estimate the amount or timing of the defense costs that will be paid by CIB Marine from and after February 17, 2006 in the Ruedi and Lewis cases or in the other cases described above. The following factors, among others, could cause actual results to differ from those described in the preceding forward-looking statement and affect the amount and timing of the expenses referred to with respect to the Ruedi and Lewis cases: (1) the federal court's decision on whether to vacate the existing stays of discovery and, if one or both stays are vacated, the scope of discovery that is allowed by the court and/or requested by the plaintiffs; (2) the extent, if any, to which the Lewis case is allowed to proceed and, if so, allowed to proceed as a class action; (3) the scope of discovery pursued by the plaintiffs (and the timing and substance of the court's rulings on any objections thereto by defendants) if and when discovery proceeds irrespective of the existing stays of discovery; (4) the extent to which CIB Marine and the individual defendants and their respective counsel are able to coordinate their defense of the action and in particular minimize duplication of activities in defense of the case; (5) if the funding arrangement is finally agreed to by CIB Marine, the individual defendants and the insurer, the insurer's determinations of what services and costs are reasonable and appropriate under the insurer's guidelines for paying the costs of defense; (6) CIB Marine's determination of what costs of defense are "reasonable" within the meaning of its by-laws and any claims made by individual defendants whose costs of defense may be rejected in whole or in part on that ground; (7) the occurrence of circumstances that would lead either CIB Marine or the insurer to terminate the funding arrangement described above if in fact an agreement is entered into; and (8) the extent to which any individual defendant whose costs of defense are advanced by CIB Marine is ultimately required to repay those costs and, if so, the ability of that person to make repayment.

In July 2007, Mark Swift and M.A. Swift & Associates Ltd., purported minority shareholders of a former loan customer of CIB Marine Capital, LLC ("CIB Capital"), filed a lawsuit in US District Court for the Northern District of Illinois, Eastern Division, against CIB Capital and CIB Marine. Subsequently, the Trustee for the bankruptcy estate of Mark Swift assumed the action as plaintiff. In September 2007, the plaintiff amended the complaint and dismissed CIB Marine and CIB Capital as defendants.

### **ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

CIB Marine did not submit any matters to a vote of its shareholders during the quarter ended December 31, 2006.

## **PART II**

### **ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

There is no established public trading market for CIB Marine's common stock. As of September 30, 2007, there were approximately 1,271 holders of record of CIB Marine's common stock.

CIB Marine has not paid cash dividends on its common stock. As a result of recent losses, CIB Marine does not currently have any intentions to pay a cash dividend. Further, CIB Marine is restricted by the regulators from paying cash dividends. Also, as a result of the agreement entered into with its regulator, CIB Marine has elected to defer all interest payments on its junior subordinated debentures subsequent to December 31, 2003. According to the terms of its junior subordinated debt agreements, during the deferral period, CIB Marine may not pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment on its stock. Restrictions on CIB Marine's ability to pay dividends and the ability of its subsidiaries to transfer funds to it for the payment of dividends are discussed under, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations and also Item 8, Note 14-Stockholders' Equity in Part II of this Form 10-K. CIB Marine will periodically evaluate its financial position to determine whether to pay cash dividends in the future.

## Table of Contents

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth CIB Marine's selected consolidated financial data. The following information should be read in conjunction with Item 8-Financial Statements and Supplementary Data and Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations presented in Part II of this Form 10-K. In the fourth quarter of 2005, CIB Marine sold the assets and operations of MICR and is in the process of winding down its remaining affairs. In the fourth quarter of 2004, CIB Marine sold Hillside Investors, including its banking subsidiary, CIB-Chicago which accounted for 46% of CIB Marine's consolidated assets at December 31, 2003. The assets and operations of MSI were sold in the third quarter of 2004 and Commercial Finance was sold in the second quarter of 2004. Discontinued operations for 2006 and 2005 includes the results of CIB Construction (including Canron), MSI and MICR. In all other years presented, discontinued operations includes CIB Construction (including Canron), MSI, MICR, CIB-Chicago, and Commercial Finance.

Capital ratios:

## Table of Contents

	At or for the Year Ended December 31,				
	2006	2005	2004	2003	2002
	(Dollars in thousands, except share and per share data)				
Total equity to total assets	7.18%	6.96%	6.70%	3.41%	6.78%
Total risk-based capital ratio	20.95	21.37	17.47	7.19	10.01
Tier 1 risk-based capital ratio	14.32	15.33	13.11	5.03	8.75
Leverage capital ratio	9.51	9.20	5.63	4.23	8.30
Other data:					
Number of employees (full-time equivalent)(8)	301	359	482	898	844
Number of banking facilities	30	37	41	57	52

- (1) Noninterest income includes pretax gains on investment securities of \$0.4 million and \$1.7 million for the years ended December 31, 2005 and 2002, respectively. There were no pretax gains on investment securities in 2006, 2004 and 2003.
- (2) Net interest margin is the ratio of net interest income, on a tax-equivalent basis, to average interest-earning assets. For the years 2003 and 2002 the effective tax rate used to calculate the tax-equivalent basis was 35%. In the future, CIB Marine does not expect to realize all the tax benefits associated with tax-exempt assets due to substantial losses and at December 31, 2006, 2005 and 2004 no U.S. federal or state loss carryback potential remains. Accordingly, the 2006, 2005 and 2004 interest income on tax-exempt earning assets has not been adjusted to reflect the tax-equivalent basis. If 2006, 2005 and 2004 had been shown on a tax-equivalent basis of 35%, the net interest margin would have been 2.34%, 2.13% and 2.28%, respectively.
- (3) Net interest rate spread is the yield on average interest-earning assets less the rate on average interest-bearing liabilities.
- (4) Noninterest income to average assets excludes gains and losses on securities.
- (5) The efficiency ratio is noninterest expense divided by the sum of net interest income, on a tax-equivalent basis, plus noninterest income, excluding gains and losses on securities.
- (6) Return (loss) on average assets is net income (loss) divided by average total assets.
- (7) Return (loss) on average equity is net income (loss) divided by average common equity.
- (8) Does not include the employees of Canron and MICR which are manufacturing companies held for disposal. These companies had full-time equivalent employees of 2 in 2006 and 2005, 37 in 2004, 49 in 2003 and 914 in 2002.
- (9) Ratio is calculated based on the total income/expense and average assets/liabilities for continuing and discontinued operations.

The following table sets forth CIB Marine's selected consolidated financial data excluding those companies included in discontinued operations.

- (7) Return (loss) on average equity is net income (loss) divided by average common equity.

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### CRITICAL ACCOUNTING POLICIES

The financial condition and results of operations presented in the consolidated financial statements, accompanying notes to the consolidated financial statements, selected financial data appearing elsewhere within this report, and management's discussion and analysis are dependent upon CIB Marine's accounting policies. The selection and application of these accounting policies involve judgments about matters that affect the amounts reported in the financial statements and accompanying notes.

Presented below are discussions of those accounting policies that management believes are the most important ("Critical Accounting Policies") to the portrayal and understanding of CIB Marine's financial condition and results of operations. These Critical Accounting Policies require management's most difficult, subjective and complex judgments about matters that are inherently uncertain. These estimates are based on information available as of the date of the financial statements; accordingly, as this information changes, the financial statements could reflect different estimates or judgments. Certain policies inherently have a greater reliance on the use of estimates and as such have a greater possibility of producing results that could be materially different than originally reported. See also Item 8, Note 1-Summary of Significant Accounting Policies In Part II of this Form 10-K.

### Allowance for Loan Losses

CIB Marine monitors and maintains an allowance for loan losses to absorb an estimate of probable losses inherent in the loan portfolio. CIB Marine maintains policies and procedures that address the systems of controls over the following areas of the allowance: the systematic methodology used to determine the appropriate level of the allowance to provide assurances they are maintained in accordance with generally accepted accounting principles ("GAAP"); the accounting policies for loan charge-offs and recoveries; the assessment and measurement of impairment in the loan portfolio; and the loan grading system.

CIB Marine evaluates certain commercial loans individually for impairment as required by Statement of Financial Accounting Standard ("SFAS") No. 114, *Accounting by Creditors for Impairment of a Loan*, and SFAS No. 118, *Accounting by Creditors for Impairment of a Loan-Income Recognition and Disclosures*. Loans evaluated individually for impairment include nonaccrual loans, loans past due 90 days or more and still accruing, restructured loans and other loans identified by management as being impaired. The evaluations are based upon discounted expected cash flows from the loan or collateral valuations and all other known relevant information. If the evaluation shows that a loan is individually impaired, then a specific reserve is established for the amount of impairment. Loans, including all residential real estate, home equity and consumer loans which are not evaluated individually are assessed for impairment under SFAS No. 5, *Accounting for Contingencies* ("SFAS 5") with groups of loans that have similar characteristics.

For loans which are not individually evaluated, CIB Marine makes estimates of losses for groups of loans as

---

## **Table of Contents**

required by SFAS 5. Loans are grouped by similar characteristics, including the type of loan, the assigned loan grade and the general collateral type. A loss rate reflecting the expected losses inherent in a group of loans is derived based upon estimates of expected default and loss rates for the group of loans in part based upon CIB Marine's loss history and related migration analysis. The resulting estimate of losses for groups of loans are adjusted for relevant environmental factors and other conditions, including: borrower and industry concentrations; levels and trends in delinquencies, charge-offs and recoveries; changes in underwriting standards and risk selection; level of experience and ability of lending management; national and local economic conditions; and off-balance sheet positions.

The amount of estimated impairment for individually evaluated loans and the estimate of losses for groups of loans is added together for a total estimate of loan losses. The estimate of losses for groups of loans includes an assessment of a range of likely loss outcomes and the most likely outcome is used. This total estimate of loan losses is compared to the allowance for loan losses of CIB Marine as of the evaluation date. If the estimate of losses is greater than the allowance, an additional provision to the allowance would be made. If the estimate of losses is less than the allowance, the allowance would be reduced. CIB Marine recognizes the inherent imprecision in estimates of losses due to various uncertainties and variability related to the factors used to estimate loan losses. If different assumptions or conditions were to prevail and it is determined that the allowance is not adequate to absorb the new estimate of probable losses, an additional provision for loan losses would be made, which amount may be material to the consolidated financial statements.

### **Other Investments**

Investments in limited partnerships and other equity investments which are not readily marketable are accounted for using the equity method when CIB Marine's ownership is at least 3% in a limited partnership and 20% in a corporation, but not more than 50%. Investments not accounted for under the equity method are accounted for using the cost method. All other investments are periodically evaluated for impairments. If an investment is impaired, a loss is recognized. To determine whether an investment is impaired, CIB Marine looks to various indicators including recent transactions, if any, and the investee's financial condition. During 2006, 2005, and 2004, CIB Marine recognized zero, \$0.1 million and \$0.7 million, respectively, of impairment losses on other investments. If different assumptions or conditions were to prevail, the carrying value of these investments may need to be further reduced and a loss recorded or previously recognized losses reversed and a gain recorded. At December 31, 2006 and 2005, other investments totaled \$2.8 million and \$3.6 million, respectively, all of which are illiquid. See the other asset discussion for further information.

### **Assets of Companies Held for Sale or Disposal**

Companies, and/or the operations of companies, which have met the accounting criteria of held for sale or disposal are carried at the lower of cost or fair market value less estimated selling costs. The valuations of such businesses are allocated to the assets and liabilities of the businesses. The asset groups are then periodically evaluated for impairment as required under Financial Accounting Standards Board ("FASB") Statement No. 144, based upon the estimated undiscounted cash flows of the asset group. If the estimated undiscounted cash flows of the asset group are not sufficient to recover the carrying value of the asset group, then the fair value of the asset group is determined using a discounted cash flow approach. If the fair value of the asset group is less than the carrying amount, a loss is recognized. Should future estimated cash flows be reduced or if applicable discount rates increase, then the carrying value of the asset groups may need to be reduced and a loss recorded. When these assets are acquired in full or partial satisfaction of a loan, any excess of the related loan balance over the fair value, less estimated selling cost, is charged as a loan loss against the allowance for loan losses. Net operating income or loss of the companies held for disposal and which meet the criteria as discontinued operations are included in gain or loss from discontinued operations. Once a decision is made to cease operations and liquidate the company, CIB Marine discontinues recording any future operating results of the company and records an impairment value, if any, based on the estimated liquidation value of the company's net assets less costs to sell. The impairment loss is recorded as loss from discontinued operations. At December 31, 2006 and 2005, CIB Marine had three companies classified as held for sale/disposal; CIB Construction, including Canron, MICR and MSI. MICR and Canron were acquired in full or partial satisfaction of loans. The remaining assets and liabilities of these companies were included in assets/liabilities of companies held for sale/disposal. During the fourth quarter of 2005, CIB Marine sold substantially all the assets and operations of MICR. During the fourth quarter of 2004, CIB Marine sold substantially all the assets and liabilities of MSI. CIB Marine is in the process of winding down the remaining affairs of these

---

## **Table of Contents**

companies. CIB Marine retained liability for repurchase obligations of MSI relative to certain mortgage loans as a result of external fraud and/or documentation issues. During the third quarter of 2003, the Boards of Directors of CIB Marine and of Canron authorized management to cease operating Canron and commence a wind down of its affairs and a voluntary liquidation of its assets. In August 2005, Canron authorized and began liquidation distributions to its shareholders. During 2005, 2006 and the first nine months of 2007, Canron paid \$4.3 million in total liquidation distributions to its parent CIB Construction and CIB Construction paid \$5.4 million in total dividends to CIB Marine.

### **Income Taxes**

CIB Marine recognizes expense for federal and state income taxes currently payable as well as for deferred federal and state taxes for estimated future tax effects of temporary differences between the tax basis of assets and liabilities and amounts reported in the consolidated balance sheets, as well as loss carryforwards and tax credit carryforwards. Realization of deferred tax assets is dependent upon CIB Marine generating sufficient taxable income in either the carryforward or carryback periods to cover net operating losses generated by the reversal of temporary differences. A valuation allowance is provided by way of a charge to income tax expense if it is determined that it is not more likely than not that some portion or all of the deferred tax asset will be realized. If different assumptions and conditions were to prevail, the valuation allowance may not be adequate to absorb unrealized deferred taxes and the amount of income taxes payable may need to be adjusted by way of a charge or credit to expense. Furthermore, income tax returns are subject to audit by the IRS, state taxing authorities, and foreign government taxing authorities. Income tax expense for current and prior periods is subject to adjustment based upon the outcome of such audits. CIB Marine believes it has adequately accrued for all probable income taxes payable and provided valuation allowances for deferred tax assets where it has been determined to be not more likely than not that such assets are realizable. Accrual of income taxes payable and valuation allowances against deferred tax assets are estimates subject to change based upon the outcome of future events.

CIB Marine has entered into tax allocation agreements with its subsidiary entities included in the consolidated U.S. federal and unitary and combined state income tax returns, including U.S. operations of companies held for sale or disposal. These agreements govern the timing and amount of income tax payments required by the various entities.

Due to the significant losses incurred in 2005 and 2006 and the expectation of additional losses in 2007, management has determined that it is not more likely than not that the entire net deferred tax asset of \$77.4 million at December 31, 2006, which includes the entire net deferred tax asset of companies held for sale or disposal of \$6.2 million, will be realized. Therefore, a valuation allowance for the entire amount has been established, including net deferred tax assets of companies held for sale or disposal.

### **INTRODUCTION**

The following is a discussion and analysis of CIB Marine's consolidated financial condition as of December 31, 2006 and 2005, and its changes in financial condition and results of operations for the three years ended December 31, 2006, 2005 and 2004. References in the discussion below to "CIB Marine" include CIB Marine's subsidiaries unless otherwise specified. This discussion and analysis should be read in conjunction with the consolidated financial statements and notes contained in Part II, Item 8 of this Form 10K.

### **OVERVIEW**

CIB Marine continued its focus on improving credit quality and financial condition during 2006. In addition, CIB Marine allocated increased resources to business development during 2006 as part of its strategic focus and sold or closed certain of its subsidiary bank branches. Net loss declined to \$9.3 million in 2006 compared to a net loss of \$11.7 million in 2005 and \$17.3 million in 2004. While assets declined from \$1.1 billion at December 2005 to \$1.0 billion at December 2006, the majority of the decline was in the securities available for sale, as CIB Marine reduced its security portfolio to fund the deposits of sold branches. At both December 31, 2006 and 2005, CIB Marine had three companies included in assets and liabilities of companies held for disposal; CIB Construction, including Canron, MICR and MSI. The majority of the assets and operations of MICR and MSI were sold in prior periods and during 2006 CIB Marine continued to wind down the remaining business affairs of these two companies. Canron, a

---

## **Table of Contents**

subsidiary of CIB Construction, continued to collect both on and off-balance sheet receivables and settle and resolve payables and claims through the voluntary liquidation process.

### **RESULTS OF OPERATIONS**

The following discussion relates to continuing operations unless otherwise noted.

#### ***Net Income***

CIB Marine's net loss was \$9.3 million in 2006 compared to a net loss of \$11.7 million in 2005. The decrease in net loss was primarily the result of a \$3.3 million decrease in net loss from continuing operations, partially offset by a \$0.9 million decline in the net income of discontinued operations. The decrease in discontinued operations was due to a \$3.2 million decrease in pretax income from discontinued operations as CIB Marine continued its wind down of nonbank subsidiaries, partially offset by a \$2.3 million decrease in income tax expense of discontinued operations primarily due to a change in the tax exposure reserves. Net loss from continuing operations was \$9.8 million in 2006 compared to \$13.1 million in 2005. The \$3.3 million decrease in net loss from continuing operations was mainly due to a \$5.2 million reduction in compensation and employee benefits as CIB Marine realized savings from its reduction in force program and the sale of certain branches, a \$2.7 million gain on the sale of the deposits and assets of certain branches, a \$0.5 million reduction in the net loss on securities and a \$1.9 million decrease in the write down and losses on assets. These amounts were partially offset by a \$4.3 million decrease in negative provision for credit losses during 2006 compared to 2005 and a \$1.8 million decline in net interest income and a \$1.1 million decrease in income tax benefit.

The \$0.5 million reduction in net loss on securities was mainly due to a \$1.1 million impairment loss recognized in 2006 compared to a \$2.0 million impairment loss in 2005. During the first quarter of 2007, CIB Marine decided to sell certain securities in its available for sale portfolio. As a result of this sale, CIB Marine determined the full value of these securities at December 31, 2006 and 2005 would not be fully recovered and accordingly, recognized an other-than-temporary impairment loss during both 2006 and 2005.

CIB Marine's net loss was \$11.7 million in 2005 compared to a net loss of \$17.3 million in 2004. The decrease in net loss was primarily the result of a \$15.4 million decrease in net loss from continuing operations, partially offset by a \$9.7 million decline in the net income of discontinued operations as CIB Marine continued its wind down of nonbank subsidiaries. Net loss from continuing operations was \$13.1 million in 2005 compared to \$28.5 million in 2004. The \$15.4 million decrease in net loss from continuing operations was mainly due to a \$26.1 million decrease in provision for credit losses due to an improvement in the overall quality of the credit portfolio as a result of actions taken by CIB Marine during 2004 and 2005. This amount was partially offset by a \$7.6 million decrease in net interest income and a \$4.0 million decrease in income tax benefit. The results from discontinued operations are comprised of impairment losses on assets held for disposal, net gains and losses on sales of assets held for disposal and the operating results of companies held for disposal. The \$9.7 million decrease in net income from discontinued operations during 2005 compared to 2004 was primarily due to a \$15.1 million net pretax gain on the sale of CIB-Chicago, Commercial Finance and MSI during 2004, partially offset by a \$2.0 million decrease in income tax expense of discontinued operations.

#### ***Net Interest Income***

Net interest income is the most significant component of CIB Marine's earnings. Net interest income is the difference between interest earned on interest-earning assets and interest paid on deposits and other borrowed funds. Net interest margin is this difference expressed as a percentage of average interest-earning assets. The amount of CIB Marine's net interest income is affected by several factors, including interest rates and the volume and relative mix of interest-earning assets and interest-bearing liabilities. Although CIB Marine can control certain of these factors, others, such as the general level of credit demand, fiscal policy and Federal Reserve Board monetary policy, are beyond CIB Marine's control.

The following table sets forth information regarding average balances, interest income, or interest expense, and the average rates earned or paid for each of CIB Marine's major asset, liability and stockholders' equity categories. Interest income on tax-exempt securities has not been adjusted to reflect the tax equivalent basis, since CIB Marine

## Table of Contents

does not expect to realize all of the tax benefits associated with these securities due to substantial losses incurred. There were no tax-exempt loans in 2006, 2005 or 2004. See Item 8, Note 21-Income Taxes in Part II of this Form 10-K for additional information.

### TOTAL COMPANY-CONTINUING AND DISCONTINUED OPERATIONS:

	Year Ended December 31,

- (1) In the future, CIB Marine may not realize all of the tax benefits associated with tax-exempt assets due to substantial losses, and at December 31, 2006, 2005 and 2004 no U.S. federal or state loss carryback potential remains. Accordingly, 2006, 2005 and 2004 are not presented on a tax-equivalent basis. If 2006, 2005 and 2004 had been shown on a tax-equivalent basis of 35%, the net interest margin would have been 2.34%, 2.13% and 2.28%, respectively.
- (2) Loan balance totals include nonaccrual loans.
- (3) Interest earned on loans includes amortized loan fees of \$0.6 million, \$0.9 million, and \$2.9 million for the years ended December 31, 2006, 2005 and 2004, respectively.
- (4) Interest rates and amounts include the effects of derivatives entered into for interest rate risk management and accounted for as fair value hedges.
- (5) Net interest rate spread is the difference between the average rates on interest-earning assets and interest-bearing liabilities.
- (6) Net interest margin is the ratio of net interest income to average interest-earning assets.

---

- (1) In the future, CIB Marine may not realize all of the tax benefits associated with tax-exempt assets due to substantial losses, and at December 31, 2006, 2005 and 2004 no U.S. federal or state loss carryback potential remains. Accordingly, 2006, 2005 and 2004 are not presented on a tax-equivalent basis. If 2006, 2005 and 2004 had been shown on a tax-equivalent basis of 35%, the net interest margin would have been 2.34% , 2.13% and 2.29%, respectively.
- (2) Loan balance totals include nonaccrual loans.
- (3) Interest earned on loans includes amortized loan fees of \$0.6 million, \$0.9 million, and \$1.5 million for the years ended December 31, 2006, 2005 and 2004, respectively.
- (4) Includes fixed assets and deposits of branches held for sale or sold during 2006.
- (5) Excludes average loans of \$1.6 million for 2004 held by CIB-Chicago, which on a consolidated basis are classified as receivables from sale of stock. See Item 8, Note 14-Stockholders' Equity in Part II of this Form 10-K for information on receivables from sale of stock.
- (6) Interest rates and amounts include the effects of derivatives entered into for interest rate risk management and accounted for as fair value hedges.
- (7) Net interest rate spread is the difference between the average rates on interest-earning assets and interest-bearing liabilities.
- (8) Net interest margin is the ratio of net interest income, on a tax-equivalent basis, to average interest-earning assets.

Net interest income decreased \$1.8 million, or 7.1%, from \$25.1 million in 2005 to \$23.3 million in 2006. The decrease was mainly volume driven as the average interest-earning assets, net of interest-bearing liabilities declined \$19.8 million during 2006 compared to 2005. The impact of the volume decline was partially offset by a 2 basis

## Table of Contents

point increase in the net interest spread. Net interest income decreased \$7.6 million, or 23.4%, from \$32.7 million in 2004 to \$25.1 million in 2005. The decrease was mainly due to a \$260.4 million decline in the average balance of interest-earning assets partially offset by an 18 basis point increase in the average yield on these assets.

The following table presents an analysis of changes in net interest income resulting from changes in average volumes of interest-earning assets and interest-bearing liabilities and average rates earned and paid.

- (1) In the future, CIB Marine may not realize all of the tax benefits associated with tax-exempt assets due to substantial losses, and at December 31, 2006, 2005 and 2004 no U.S. federal or state loss carryback potential remains. Accordingly, 2006, 2005 and 2004 are not presented on a tax-equivalent basis.
- (2) Variances which were not specifically attributable to volume or rate have been allocated proportionally between volume and rate using absolute values as a basis for the allocation. Nonaccruing loans were included in the average balances used in determining yields.

---

## **Table of Contents**

### ***Interest Income***

Total interest income increased \$1.7 million, or 2.8%, from \$59.9 million in 2005 to \$61.5 million in 2006. The increase was the result of a 114 basis point increase in the average yields earned on interest-earning assets, offset by a \$201.6 million decline in average balances on interest-earning assets. The increase in the average yield was primarily due to a rising rate environment. The volume decrease on interest-earning assets was driven by a \$69.6 million decrease in average loan balances, a \$76.7 million decrease in securities and a \$53.9 million decrease in federal funds sold. The overall decline in the volume of average interest-earning assets was primarily due to the decline in the average loan balances outstanding due to market conditions, limited lending personnel and collection efforts and a decline in securities and federal funds sold due to CIB Marine's asset liability management in response to the decline in average deposits.

Total interest income decreased \$10.1 million, or 14.5%, from \$70.0 million in 2004 to \$59.9 million in 2005. The decrease was primarily the result of a \$260.4 million decline in average balances partially offset by an 18 basis point increase in the average yields earned on interest-earning assets. The increase in the average yield was primarily due to a rising rate environment. The volume decrease on interest-earning assets was driven by a \$428.4 million decrease in average loan balances, mostly commercial and commercial real estate, as CIB Marine continued its focus of improving the overall quality of its credit portfolio. This decrease in loan volume was partially offset by a \$105.3 million increase in securities and a \$62.8 million increase in federal funds sold. The increase in securities and federal funds sold was the result of excess investment funds as loan volumes declined at a faster pace than deposits.

### ***Interest Expense***

Total interest expense increased \$3.4 million, or 9.9%, from \$34.8 million in 2005 to \$38.2 million in 2006. The increase was the result of a 112 basis point increase in the average rate paid on interest-bearing liabilities, partially offset by a \$181.8 million decrease in the average balances of interest-bearing liabilities. Interest expense on deposits, the largest component of interest-bearing liabilities, increased \$2.2 million, or 8.3%, from \$27.0 million in 2005 to \$29.2 million in 2006, due to a 96 basis point increase in average deposits yields, partially offset by a \$176.6 million reduction in average deposit balances. The decline in the average deposit volume was a result of CIB Marine's branch sales during 2006 and less competitive pricing in a rising rate environment. Interest expense on borrowed funds during 2006 increased by \$1.2 million during 2006 compared to 2005 primarily due to higher yields in a rising interest rate environment and the compounding effect of interest payment deferrals on junior subordinated debentures.

Total interest expense decreased \$2.5 million, or 6.7%, from \$37.3 million in 2004 to \$34.8 million in 2005. This reduction was driven by a \$278.1 million decrease in the average balances of interest-bearing liabilities, partially offset by a 52 basis point increase in the average rate paid on these liabilities. Interest expense on deposits, the largest component of interest-bearing liabilities, decreased \$2.7 million, or 9.2%, from \$29.7 million in 2004 to \$27.0 million in 2005, due to a \$268.9 million reduction in average deposit balances, partially offset by a 41 basis point increase in average deposits yields. The decline in the average deposit volume was a result of CIB Marine's liability and pricing management initiatives in response to reduced interest-earning assets. While CIB Marine offered less competitive market rates, the rising rate environment resulted in an overall increased yield on these deposits. The decline in interest expense on deposits was partially offset by a \$0.2 million increase in interest expense on borrowed funds driven primarily due to a higher yields in a rising interest rate environment and the compounding effect of interest payment deferrals on junior subordinated debentures.

### ***Net Interest Margin/Net Interest Spread***

CIB Marine's net interest margin, which is the ratio of net interest income to average interest-earning assets, increased by 23 basis points during 2006 compared to 2005 and its net interest spread, which is the difference between the rate earned on average interest-earning assets and the rate paid on average interest-bearing liabilities, increased by 2 basis points during the same period. The increase in the net interest margin and net interest spread were primarily due to rising yields in assets relative to rising yields in liabilities. The net interest margin widened more than the net interest spread due to the increase in yields of assets funded by noninterest-bearing liabilities. CIB Marine's net interest margin and net interest spread are adversely impacted by low loan volumes, high nonaccrual loans, low saving deposit balances and high junior subordinated debt relative to interest earning assets.

---

## **Table of Contents**

CIB Marine's net interest spread decreased by 34 basis points in 2005 compared to 2004. The decrease was primarily due to the change in the mix of average interest-earning assets as higher yielding loans which comprised 69.3% of total average interest-earning assets in 2004 decreased to 48.9% of average interest-earning assets in 2005. During 2005, the investment balances as a percentage of average interest-earning assets increased as loans declined faster than deposits. The net interest margin declined 15 basis points during the same period.

### ***Provision for Credit Losses***

The provision for credit losses represents charges made to earnings in order to maintain an adequate allowance for loan losses and losses on unfunded commitments and standby letters of credit. The provision for credit losses was a negative \$4.4 million during 2006, compared to a negative \$8.7 million during 2005. The negative provision in both years is mainly due to an improvement in the overall quality of the credit portfolio as a result of actions taken by CIB Marine beginning in 2004. The change in the amount of the provision during 2006 compared to 2005 is primarily due to higher net recoveries in 2005 than in 2006 and an increase in the amount of loans outstanding at December 31, 2006 compared to 2005. During 2006, CIB Marine had net recoveries of \$0.4 million compared to \$4.0 million during 2005, and nonaccrual loans for these companies decreased 29.0 % in 2006 compared to 2005.

The provision for credit losses was a negative \$8.7 million during 2005, compared to a \$17.4 million expense during 2004. The decrease in the provision is primarily due to a decline in the amount of loans outstanding and an improvement in the overall quality of the credit portfolio as a result of actions taken by CIB Marine in 2004 and 2005. During 2005, CIB Marine had net recoveries of \$4.0 million compared to \$41.5 million in net charge-offs during 2004, and nonaccrual loans for these companies decreased 46.4 % in 2005 compared to 2004.

### ***Noninterest Income***

Noninterest income increased \$1.5 million, or 52.9%, from \$2.9 million in 2005 to \$4.4 million in 2006. The increase was due to a \$2.7 million net gain on the sale of the deposits and assets of six branches during 2006 partially offset by a \$0.4 million gain on sale of securities during 2005 compared to none in 2006 and a \$0.4 decrease in other service fees. The decrease in other service fees is primarily due to fees collected by CIB Marine during the first quarter of 2005 for processing services it provided to CIB-Chicago subsequent to the sale of CIB-Chicago.

Noninterest income decreased \$0.8 million, or 21.3%, from \$3.7 million in 2004 to \$2.9 million in 2005. The decrease was primarily due to a \$0.9 million decrease in loan fees and a \$0.5 million decrease in deposit service charges resulting from lower loan and deposit volumes in 2005 compared to 2004. The decrease in loan and service fees was partially offset by a \$0.4 million gain on sale of securities during 2005 compared to none in 2004.

### ***Noninterest Expense***

Total noninterest expense decreased \$9.0 million, or 17.6%, from \$51.0 million in 2005, to \$42.0 million in 2006. The decrease was primarily the result of the following:

- Compensation and employee benefits expense is the largest component of noninterest expense and represented 48.8% of total noninterest expense for 2006 compared to 50.4% for 2005. Compensation and employee benefits expense decreased \$5.2 million or 20.3% from \$25.7 million in 2005 to \$20.5 million in 2006. The decrease is primarily due to an overall cost savings program initiated by CIB Marine in the second half of 2004. The cost savings program included a reduction in force program, restrictions on salaries and hiring, tight expense controls and some executive management salary reductions. Additionally, CIB Marine closed one branch and sold six branches during 2006 and closed three branches and sold one during 2005. The total number of full-time equivalent employees of companies included in continuing operations, decreased from 359 at December 31, 2005 to 301 at December 31, 2006.

On January 1, 2006, CIB Marine adopted Statement of Financial Accounting Standards No. 123 (revised 2004) ("SFAS No. 123 (R)"), "Share-Based Payments". A key provision of SFAS No. 123 (R) requires public companies to adopt Statement 123's fair-value method of accounting for stock options. Under this

---

## Table of Contents

method, the cost of employee services received in exchange for equity instruments is measured based on the grant-date fair value of these instruments. The cost is recognized over the requisite service period. SFAS No. 123 (R) applies to all awards granted after the required effective date and to awards modified, repurchased, or cancelled after that date. Pro forma disclosure for grants after 2005 is no longer an alternative. Prior to 2006, CIB Marine accounted for stock options in accordance with APB Opinion 25, as allowed under SFAS No. 123, and therefore, no compensation cost had been recognized in connection with stock options granted in any year prior to 2006. During 2006, CIB Marine adopted SFAS 123 (R) on a modified prospective basis and accordingly, recorded a \$0.1 million compensation expense in 2006 related to stock options.

- During 2006, CIB Marine recognized a net gain on the sale of assets of \$2.7 million which is included in noninterest income. During 2005, CIB Marine recognized \$1.9 million in write down and losses on assets. The \$1.9 million loss recognized during 2005 was mainly due to a \$1.7 million loss on the sale of a limited number of commercial real estate and commercial construction loans, a \$0.3 million impairment loss on fixed assets of closed facilities and a \$0.1 million impairment loss on its equity interest in a small business investment company. These losses were partially offset by a \$0.3 million gain on the sale of the fixed assets and deposits of its Sebring, Florida branch.
- During 2007, CIB Marine decided to sell certain of its available for sale securities. As a result of this decision, CIB Marine determined it would not be holding these certain securities for a period of time sufficient to recover the carrying value at December 31, 2006. Accordingly, CIB Marine realized a \$1.1 million other-than-temporary loss on these certain securities during 2006 compared to \$2.0 million during 2005. See the Securities discussion for further information.
- Other noninterest expense decreased \$0.2 million from \$9.4 million during 2005 to \$9.2 million during 2006. Included in noninterest expense is a \$1.8 million contingent liability expense related to the settlement of the John C. Hadley and Mary Lydia Hadley litigation in the first quarter of 2007. See Item 3-Legal Proceedings in Part II of this Form 10-K for further information on the settlement. Offsetting the 2006 settlement expense is a \$0.8 million decrease in advertising, supplies, shipping and handling due to management initiatives and closing/sale of branches; a \$0.5 million decrease in FDIC and state assessments; a \$0.2 million decrease in collection expense; and a \$0.4 million decrease in other noninterest expense.

Total noninterest expense decreased \$1.8 million, or 3.3%, from \$52.7 million in 2004, to \$51.0 million in 2005. The decrease was primarily the result of the following:

- Compensation and employee benefits expense is the largest component of noninterest expense and represented 50.4% of total noninterest expense for 2005 compared to 54.6% for 2004. Compensation and employee benefits expense decreased \$3.1 million or 10.7% from \$28.8 million in 2004 to \$25.7 million in 2005. The decrease in compensation and employee benefit expense is primarily due to an overall cost savings program initiated by CIB Marine in the second half of 2004. The cost savings program included a reduction in force program, restrictions on salaries and hiring, tight expense controls and some executive management salary reductions. Additionally, CIB Marine closed three branches and sold one branch during 2005. The total number of full-time equivalent employees of companies included in continuing operations, decreased from 482 at December 31, 2004 to 359 at December 31, 2005. These reductions were partially offset by \$0.8 million of severance expense in 2005 compared to \$0.1 million in 2004 and a \$0.3 million increase in CIB Marine's total contribution to its employee 401(k) plan. During the first quarter of 2004, CIB Marine suspended the matching contribution to the 401(k) plan. In 2005, CIB Marine reinstated and increased the matching contribution to the 401(k) plan.
- Professional services decreased \$2.1 million in 2005 compared to 2004. The decrease was primarily due to expenses incurred in 2004 related to the special investigation and strategic planning, partially offset by an increase in expenses during 2005 related to legal actions filed against CIB Marine. See Item 3-Legal Proceedings in Part II of this Form 10-K for further discussion of these legal actions. In October 2003, a Special Review Committee of the Board of Directors of CIB Marine was established to evaluate credit and other issues which had come to the attention of the Board of Directors. The committee engaged the assistance of outside advisors, including independent legal counsel and an external loan review firm, to conduct an independent investigation of these developments. The investigation was completed in the fourth quarter of 2004. Costs associated with this investigation were approximately \$2.1 million in 2004. Additionally, in early 2004, the Board of Directors also engaged a consulting firm to investigate various strategic alternatives to strengthen the capital position of the company. Professional services costs related to this process during 2004 were approximately \$0.9 million.

---

## **Table of Contents**

- During 2005, CIB Marine recognized \$1.9 million in write down and losses on assets compared to \$2.0 million in 2004. The \$1.9 million loss recognized during 2005 was mainly due to a \$1.7 million loss on the sale of a limited number of commercial real estate and commercial construction loans, a \$0.3 million impairment loss on fixed assets of closed facilities and a \$0.1 million impairment loss on its equity interest in a small business investment company. These losses were partially offset by a \$0.3 million gain on the sale of the fixed assets and deposits of its Sebring, Florida branch. The \$2.0 million loss in 2004 is primarily comprised of a \$0.6 million loss on loans sold by its mezzanine lending company, a \$0.6 million loss on foreclosed properties, and a \$0.7 million market value loss on its unconsolidated interests in two closely held businesses.
- During 2007, CIB Marine decided to sell certain of its available for sale securities. As a result of this decision, CIB Marine determined it would not be holding these certain securities for a period of time sufficient to recover the carrying value at December 31, 2005. Accordingly, CIB Marine realized a \$2.0 million other-than-temporary loss on these certain securities during the first quarter of 2005. See the Securities discussion for further information.

### ***Income Taxes***

CIB Marine provides for income taxes currently payable or currently refundable, and for income taxes payable or receivable in the future. Deferred taxes arise from temporary differences between financial statement and income tax reporting of assets and liabilities. The effective tax (benefit) expense rates from continuing operations for the years ended December 31, 2006, 2005 and 2004 were (1.0)%, (8.4)% and (15.5)%, respectively. The continuing operations income tax benefits for 2006 and 2005 consisted primarily of the allocation of taxes, in accordance with the tax sharing agreements from companies included in discontinued operations that would have been payable, had it not been for the losses from continuing operations included in the consolidated returns. The income tax benefit for 2004 resulted from the carryback of a portion of the 2004 net operating loss to collect all remaining recoverable income taxes paid in prior years and the apportionment of taxes between continuing and discontinued operations, similar to 2006 and 2005. A valuation allowance was provided in 2006 and 2005 to completely offset any net deferred tax benefits, including benefits related to net operating loss and tax credit carryforwards.

CIB Marine is currently under audit by the Illinois Department of Revenue (“IDR”) relative to its investment in an Illinois REIT. The REIT was formed as a subsidiary of a former Illinois subsidiary that was sold in 2004. Although CIB Marine believes it has both statutory authority and sound business purposes for establishing the REIT, the IDR audit has caused it to re-examine its Illinois tax exposure. Consequently CIB Marine charged its 2005 discontinued operations in the amount of \$1.9 million to recognize its exposure and that liability remains at December 31, 2006.

Additionally, in 2005 Canron, which is included in discontinued operations, had a net reduction in prior year exposure items of \$0.4 million related to certain individually insignificant items.

## **FINANCIAL CONDITION**

### **Overview**

During 2006, CIB Marine continued its focus on improving its credit quality and financial condition. In addition, CIB Marine also allocated increased resources to business development during 2006 as part of its strategic focus and sold or closed certain of its subsidiary bank branches. At December 31, 2006, CIB Marine had total assets of \$1.0 billion, a decrease of \$140.8 million, or 12.4% from \$1.1 billion at December 31, 2005. The majority of the asset decrease occurred in investment securities which decreased by \$147.8 million, mainly in response to the decline in overall deposits resulting from branch sales and a less aggressive deposit pricing strategy by CIB Marine.

### **Securities**

CIB Marine seeks to manage its investment portfolio in a manner that promotes the achievement of its liquidity goals, optimizes after-tax net income, provides collateral to secure borrowings, assists CIB Marine in meeting various regulatory requirements, and is consistent with its market risk policies. CIB Marine manages the maturity structure of the investment portfolio to provide a stream of cash flows to complement liquidity risk management,

## Table of Contents

market risk management and to promote long-term earnings.

The carrying value and yield of CIB Marine's securities are set forth in the following table.

	Year Ended December 31, (1)					
	2006		2005		2004	
	Amount	Yield to Maturity	Amount	Yield to Maturity	Amount	Yield to Maturity
	(Dollars in thousands)					
U.S. government agencies	\$101,321	4.83%	\$155,867	3.88%	\$194,164	2.17%
Obligations of states and political subdivisions	32,067	5.10	27,580	5.07	15,738	4.82
Other notes and bonds	350	6.66	350	6.73	350	6.73
Asset-backed securities	2,192	5.65	9,568	3.72	—	—
Corporate commercial paper	4,384	5.40	13,033	4.49	12,658	2.48
Mortgage-backed securities	194,854	4.93	263,727	4.36	143,005	3.56

Total securities available for sale	333,288		466,690		365,273	
Federal Home Loan Bank and Federal Reserve Bank stock at cost	12,314	3.30	26,719	3.07	13,751	5.93
<b>Total securities</b>	<b>\$345,602</b>		<b>\$493,409</b>		<b>\$379,024</b>	

(1) In the future, CIB Marine may not realize all of the tax benefits associated with tax-exempt assets due to substantial losses. Accordingly, 2006, 2005 and 2004 are not presented on a tax-equivalent basis.

Total securities outstanding at December 31, 2006, were \$345.6 million, a decrease of \$147.8 million, or 30.0%, from \$493.4 million at December 31, 2005. The majority of the decrease was in U.S. government agencies and mortgage-backed securities which decreased \$54.5 million and \$68.9 million, respectively. The decrease was due to CIB Marine's liquidity risk management strategies in response to reduced deposits resulting from branch sales and less competitive pricing by CIB Marine. The ratio of total securities to total assets was 34.6% and 43.3% at December 31, 2006 and 2005, respectively.

At December 31, 2006, 29.2% of the portfolio consisted of U.S. government agency securities, compared to 31.4% at December 31, 2005, and 56.1% of the portfolio consisted of mortgage-backed securities compared to 52.9% at those same periods. Obligations of states and political subdivisions represented 9.2% of the portfolio at December 31, 2006, compared to 5.6% at December 31, 2005. Most of these obligations were general obligations of states or political subdivisions of states in which CIB Marine's subsidiaries are located. Commercial paper accounted for 1.3% of the portfolio at December 31, 2006 and 2.6% of the portfolio in 2005.

Securities classified as available for sale are those that CIB Marine has not classified as held to maturity or as trading securities. CIB Marine has not maintained any securities for trading purposes or classified any securities as held for maturity. CIB Marine may sell securities classified as available for sale if it believes the sale is necessary for liquidity, asset/liability management or other reasons. Securities available for sale are reported at fair value, with unrealized gains and losses, net of taxes, included as a separate component of "accumulated other comprehensive income" in equity.

As members of the Federal Reserve System and the Federal Home Loan Bank, certain of CIB Marine's subsidiary banks are required to maintain minimum amounts of Federal Reserve stock and Federal Home Loan Bank stock as required by those institutions. These securities are "restricted" in that they are not publicly traded and can only be owned by members of the institutions. In 2005, the FHLB Chicago Board disclosed its decision to discontinue redemption of excess, or voluntary, capital stock. Voluntary stock is stock held by members beyond the amount required as a condition of membership or to support advance borrowing. In April 2006, the FHLB Chicago announced plans to facilitate limited stock redemption requests from its members by issuing bonds. During 2006, the FHLB Chicago issued a limited amount of bonds to facilitate voluntary capital stock redemptions and CIB Marine sold back \$14.3 million or 55% of its holdings. This represented approximately 58.7% of the stock CIB Marine requested to be redeemed at that time. In September, 2007, the FHLB Chicago notified its members that it

## Table of Contents

had received a draft consent cease and desist order from its regulator which could impact CIB Marine's ability to sell its remaining voluntary stock investment in FHLB Chicago. The draft cease and desist order the FHLB Chicago received includes a prohibition of capital stock repurchase and redemptions by the FHLB-Chicago from its members unless otherwise approved by its regulators. See the subsequent events discussion for further information on the draft of the consent cease and desist order the FHLB Chicago received. As of December 31, 2006, CIB Marine had \$11.5 million in FHLB Chicago stock, of which \$0.6 million was categorized as required.

During the first quarter of 2007, CIB Marine decided to sell certain securities in its available for sale portfolio. The sale of these securities in 2007 supports CIB Marine's asset-liability strategy of selling lower yielding assets and purchasing higher yielding assets. A portion of the proceeds were also used to pay down certain short-term liabilities incurred as a result of the sale of branches and the purchase of a pool of home equity loans in 2007. As a result of the 2007 sale of securities, CIB Marine determined the full value of these securities at December 31, 2006 would not be fully recovered and, accordingly, recognized an other-than-temporary impairment loss of \$1.1 million and \$2.0 million on these securities during 2006 and 2005, respectively. Based on its evaluation of the other individual securities in its available for sale portfolio at December 31, 2006, which were not subsequently sold, CIB Marine has determined that it has no other securities in its portfolio which are other-than-temporarily impaired.

The following table presents the maturities and weighted average yields of securities as of December 31, 2006.

	December 31, 2006									
	1 Year and Less		1 to 5 Years		5 to 10 Years		Over 10 Years		Total

## Loans

**General.** CIB Marine offers a broad range of loan products, including commercial loans, commercial real estate loans, commercial and residential real estate construction loans, residential real estate loans, and various types of consumer loans. CIB Marine's underwriting standards, as contained within its loan policy, are based on the general assumption that the primary source of repayment should be the regular operating cash flows and the secondary source should be the liquidation and disposition of collateral. Under the current policies of CIB Marine, exceptions to this policy are permitted with the approval of the Executive Loan Committee, the Chief Credit Officer or certain credit administration officers to the level of credit authority. Exceptions to the policy have, in the past, been approved by the loan committees of individual banks.

Loans, net of the allowance for loan losses, were \$501.7 million at December 31, 2006, an increase of \$11.1 million, or 2.3%, from \$490.7 million at December 31, 2005, and represented 50.3% and 43.1% of CIB Marine's total assets at December 31, 2006 and December 31, 2005, respectively. The majority of the increase was in home equity loans and commercial real estate construction loans which increased \$45.4 million and \$21.7 million, respectively. The increase in the home equity portfolio was due to the purchase of a \$47.8 million pool of fixed rate second lien home equity loans from Residential Funding Corporation, a division of General Motors Acceptance

## Table of Contents

Corporation. Commercial and commercial real estate declined by a total of \$60.4 million. Additionally, the allowance for loan losses decreased by \$4.0 million due to the improved credit quality of the portfolio as a result of actions taken by CIB Marine.

The following table sets forth a summary of CIB Marine's loan portfolio by category for each of the periods indicated. The data for each category is presented in terms of total dollars outstanding and as a percentage of the total loans outstanding.

**Commercial Loans.** At December 31, 2006, commercial loans totaled \$49.8 million, a decrease of \$19.3 million, or 27.9%, from the prior year-end and represented 9.5% of gross loans. Commercial loans consist of loans to small and medium-sized businesses in a wide variety of industries, including wholesalers, manufacturers and business service companies. CIB Marine provides a broad range of commercial loans, including lines of credit for working capital purposes, accounts receivable and inventory financing, and term notes for the acquisition of equipment and for other purposes. In general, commercial loans are collateralized by inventory, accounts receivable, equipment, real estate and other commercial assets, and may be supported by other credit enhancements, such as personal and corporate guarantees on these borrowings. When warranted by the overall financial condition of the borrower, loans may also be made on an unsecured basis. Commercial loans generally have floating interest rates.

**Commercial Real Estate Loans.** At December 31, 2006, commercial real estate loans decreased \$41.2 million, or 12.7%, from the prior

year end and represented 54.0% of gross loans. Commercial real estate loans are made to finance commercial properties such as office buildings, multi-family residences, motels, strip malls, warehouses and other commercial properties for which CIB Marine primarily holds real property as collateral. CIB Marine may also require other credit enhancements, such as personal and corporate guarantees, on these borrowings. Commercial real estate loans are made at both fixed and variable interest rates. CIB Marine's underwriting standards generally require that a commercial real estate loan not exceed 80% of the appraised value of the property securing the loan.

**Commercial Real Estate Construction Loans.** At December 31, 2006, commercial real estate construction loans totaled \$111.0 million, an increase of \$21.7 million, or 24.3%, over the prior year end and represented 21.3%

---

## Table of Contents

of gross loans. Commercial real estate construction loans include loans for the construction of office buildings, multi-family residences, motels, strip malls, warehouses, and other commercial real estate projects. Prior to approving construction financing CIB Marine generally requires that permanent financing for the project has been approved by CIB Marine or a nonaffiliated third party or there is a significant number of pre-sold units or pre-leased units (depending on project type) to evidence the economic viability of the project. These loans are typically secured by the real estate on which the project is being constructed, and generally require that the principal amount of the loan be no more than the lesser of 80% of the projects appraised value upon completion or 100% of the estimated construction costs. CIB Marine may also require other credit enhancements, such as personal and corporate guarantees, on these borrowings. Generally, site inspections and various affidavits and statements are required before a draw on the loan is disbursed. Real estate construction loans are made at both fixed and variable rates.

**Residential Real Estate Loans.** At December 31, 2006, residential mortgage loans, which are not held for sale totaled \$19.1 million and represented 3.7% of gross loans, compared to \$19.9 million and 3.9%, respectively, at December 31, 2005.

**Home Equity and Consumer Loans.** CIB Marine also offers a variety of other types of consumer loans, including installment, home equity, and credit card loans. These consumer loans totaled \$60.4 million at December 31, 2006 and represented 11.5% of gross loans, compared to \$14.8 million and 2.8%, respectively, at December 31, 2005. During 2006, CIB Marine purchased a \$47.8 million pool of fixed rate second lien home equity loans from Residential Funding Corporation, a division of General Motors Acceptance Corporation. The purchased pool consisted of 989 loans with a weighted average yield of 9.5%, term to maturity of 17.3 years, loan-to-value ratio of 91%, borrower debt service-to-income ratios of 39% and FICO score of 713. See the subsequent events discussion for information on a second pool purchased in 2007.

**Leveraged Financing.** CIB Marine has also provided leveraged financing, including mezzanine loans, to certain of its borrowers through CIB Marine Capital. Typically, the collateral coverage on these loans is insufficient to secure a senior debt position. These loans are generally commercial, commercial real estate or commercial construction loans. Mezzanine loans are, by their nature, inherently riskier than senior debt position loans. These loans are typically secured by a junior position on some or all of the assets of the borrower. CIB Marine may have also required other credit enhancements, such as personal and corporate guarantees, on these borrowings. The additional inherent risk on these loans is taken into consideration in establishing the allowance for loan losses relative to these loans. During the fourth quarter of 2003, CIB Marine Capital ceased to offer new loans and began the winding down of its affairs, including the sale and collection of outstanding loans. CIB Marine does not expect the mezzanine loan portfolio will represent a significant portion of the total loan portfolio in the future. At both December 31, 2006 and 2005, CIB Marine Capital had \$0.8 million in gross mezzanine loans outstanding which are included in the applicable loan categories. At December 31, 2006, a specific reserve for the full amount of the outstanding loan balance was allocated to these loans, and at December 31, 2005 the specific reserve was \$0.3 million.

**Receivables from Sale of Stock.** CIB Marine's subsidiary banks have made loans to borrowers to purchase CIB Marine stock in private placement offerings from CIB Marine, or from other shareholders. Loans originated by CIB Marine's subsidiary banks to purchase CIB Marine stock that are not sufficiently collateralized by assets other than CIB Marine stock are accounted for as a reduction of stockholders' equity unless the loan has been repaid prior to the issuance of the financial statements. Such loans are recorded as receivables from sale of stock (a contra-equity account) and totaled \$0.2 million at both December 31, 2006 and December 31, 2005. Interest earned on these loans was \$0.01 million in 2006, \$0.03 million in 2005, and \$0.2 million in 2004, and is included in "interest and dividend income-loans" and "discontinued operations" as appropriate.

**Loan Maturities.** The following table sets forth the maturity distribution and interest rate sensitivity of selected loan categories as of December 31, 2006. Maturities are based upon contractual terms of the underlying loans.

## Credit Concentrations

At December 31, 2006 CIB Marine had one secured borrowing relationship (loans to one borrower or a related group of borrowers) that exceeded 25% of stockholders' equity. At December 31, 2006, the total outstanding commitments on the borrowing relationship exceeding 25% of stockholders' equity, including lines of credit not fully drawn, was 25.8% of equity and 3.5% of total loans, and the principal drawn and outstanding on loans in this one borrowing relationship was \$3.1 million. As of December 31, 2006 all loans within this borrowing relationship were current. At December 31, 2005, CIB Marine also had one borrowing relationship that exceeded 25% of stockholders' equity. At December 31, 2005, the total outstanding commitments on this borrowing relationship to a commercial general contractor, including lines of credit not fully drawn, were 25.1% of equity and 3.9% of total loans, and the principal drawn and outstanding was \$12.6 million.

At December 31, 2006, CIB Marine also had credit relationships within six industries or industry groups with loans outstanding in that industry or industry group that exceeded 25% of its stockholders' equity:

<u>INDUSTRY</u>	<u>Outstanding Balance</u>	<u>% of Loans</u>	<u>% of Stockholders' Equity</u>
	(Dollars in millions)		
Commercial Real Estate Developers	\$143.2	27%	200%
Residential Real Estate Developers	112.3	22	157
Motel and Hotel	40.1	8	56
Nursing/Convalescent Homes	28.7	6	40
Retail Trade	22.6	4	32
Health Care Facilities	20.9	4	29

## Credit Procedures and Review

In order to manage credit risk and the growth of the loan portfolio, CIB Marine developed, implemented and periodically updates various policies and procedures, including a comprehensive loan policy, and established a signature approval and committee structure. The loan policy establishes underwriting standards, a loan approval process, loan officer lending limits, loan pricing guidelines, a credit rating system, delinquency monitoring procedures, and credit collection procedures. The loan underwriting, approval and review processes are designed to protect asset quality by assuring that credit requests are independently reviewed on at least two different levels, and to promote uniform lending standards among CIB Marine and its subsidiaries.

**Loan Underwriting.** The underwriting standards contained within CIB Marine's loan policy address various aspects of the lending function, including an analysis of a borrower's ability to repay, collateral requirements, loan-to-value ratios, appraisals and personal guarantees. CIB Marine's underwriting standards are based on the assumption that the principal source of repayment should be the regular operating cash flows of the borrower and the secondary source should be the liquidation and disposition of collateral. The extent to which collateral is required for a loan is determined by the loan policy and management's assessment of the creditworthiness of the

---

## Table of Contents

borrower. The amount and type of collateral required varies, but may include real estate, marketable securities, deposits held in financial institutions, accounts receivable, equipment and inventory. CIB Marine may also require personal and corporate guarantees when deemed necessary. Collateral values are monitored on a regular basis to ensure that they are maintained at an adequate level. CIB Marine obtains and updates appraisals on collateral when management believes they are necessary and as required by applicable laws or regulations.

**Loan Approval.** The approval process for a loan depends upon the size of the borrowing relationship. Depending on the size, new loans and modifications or renewals of existing loans are approved either under a signature authority matrix or by the Executive Loan Committee, as created by the Board of Directors. In general, loans are approved under a sponsor/approver system (signature matrix) under which the Executive Loan Committee has granted pre-approved limits for individual lenders and credit department staff. The line personnel sponsor the credit and the credit department personnel approve the credit up to their assigned authority. The Executive Loan Committee reviews and approves all loans, renewals or modifications of existing loans to a borrower, or a related group of borrowers, which are individually or in the aggregate, including existing credits to such a borrower, or related group of borrowers, \$2.5 million or greater. Since 2004 the Board has affirmed its commitment to limiting credit relationships. In 2006, the company further determined to target a lower exposure of \$15.0 million per relationship except under certain circumstances. In 2006, CIB Marine's President and CEO and the Chief Credit Officer of CIB Marine continued to hold veto authority over any loan. CIB Marine believes that these procedures have strengthened its underwriting process and provide additional controls to monitor and evaluate credit concentrations.

**Loan Review.** CIB Marine's loan review function is responsible for assessing the credit quality of the loan portfolio, establishing and monitoring adherence to underwriting standards and promptly identifying loans with potential credit exposure. Loan reviews are conducted on a regular basis at least annually or more frequently if warranted and included a comprehensive assessment of collateral and debt service ability. These analyses also include an evaluation of geographic, industry and other credit risks. In general all loans over \$0.25 million are reviewed on an annual basis or more frequently when management believes additional reviews are necessary. CIB Marine has engaged outside vendors to perform the loan reviews.

Loans with identified weaknesses are monitored on an on-going basis by management and the applicable subsidiary's Board of Directors. CIB Marine has in place a loan grade certification program requiring a periodic assessment and certification by individual lenders of portfolio risk ratings.

### **Allowance for Loan Losses**

CIB Marine monitors and maintains an allowance for loan losses to absorb an estimate of probable losses inherent in the loan portfolio. The allowance is increased by the amount of provision for loan losses and recoveries of previously charged-off loans, and is decreased by the amount of loans charged-off and negative provisions. At December 31, 2006, the allowance for loan losses was \$20.9 million or 4.0% of total loans compared to \$24.9 million, or 4.8% of total loans at December 31, 2005. Total charge-offs for 2006 were \$0.6 million, while recoveries were \$1.0 million. This compares to loan charge offs of \$3.9 million and recoveries of \$7.9 million in 2005. The decrease in the allowance was primarily due to the improved credit quality of the portfolio and the change in the mix of the portfolio. Although CIB Marine believes that the allowance for loan losses is adequate to absorb probable losses on existing loans that may become uncollectible, there can be no assurance that the allowance will prove sufficient to cover actual loan losses in the future. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the quality of loans and the adequacy of the allowance for loan losses and may require CIB Marine to make additional provisions to the allowance based upon their judgments about information available to them at the time of their examinations. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters in Part II of this Form 10-K.

The following table summarizes changes in the allowance for loan losses for each of the periods indicated.

### Nonperforming Assets and Loans 90 Days or More Past Due and Still Accruing

The level of nonperforming assets is an important element in assessing CIB Marine's asset quality and the associated risk in its loan portfolio. Nonperforming assets include nonaccrual loans, restructured loans and foreclosed property. Loans are placed on nonaccrual status when CIB Marine determines that it is probable that principal and interest amounts will not be collected according to the terms of the loan agreement. A loan is classified as restructured when a concession is granted to a borrower for economic or legal reasons related to the borrower's financial difficulties that would not otherwise be considered. CIB Marine may restructure the loan by modifying the terms to reduce or defer cash payments required by the borrower, reduce the interest rate below current market rates for new debt with similar risk, reduce the face amount of the debt, or reduce the accrued interest. Foreclosed property represents properties acquired by CIB Marine as a result of loan defaults by customers.

The following table summarizes the composition of CIB Marine's nonperforming assets, loans 90 days or more past due and still accruing, and related asset quality ratios as of the dates indicated.

(1) For comparative purposes, all periods presented exclude the assets of all companies held for disposal at December 31, 2006 and companies that were sold during prior periods.

Nonaccrual loans decreased \$8.4 million, or 29.0%, from \$29.1 million at December 31, 2005 to \$20.7 million at December 31, 2006 mainly due to payments, and the ratio of nonaccrual loans to total loans decreased from 5.65% at December 31, 2005 to 3.95% at December 31, 2006. Foregone interest on nonaccrual loans reduced interest income by \$2.0 million in 2006, \$2.7 million in 2005 and \$8.9 million in 2004.

At December 31, 2006 CIB Marine had six borrowing relationships (loans to one borrower or a group of borrowers) that accounted for \$17.1 million, or 82.7% of total nonaccrual loans as of December 31, 2006 and consisted of the following:

- Commercial real estate loans to a borrower totaling \$10.6 million secured by first mortgages on two commercial properties. During the fourth quarter of 2006, CIB Marine charged off \$0.3 million, and at December 31, 2006, specific reserves of \$5.0 million were allocated to this borrowing relationship. During the first nine months of 2007, the loans were paid down by \$0.2 million, and as of September 30, 2007, \$10.4 million remained on nonaccrual, with specific reserves of \$5.7 million allocated to this relationship.
- Commercial and commercial real estate loans totaling \$2.0 million to related borrowers secured by business assets and first mortgages on three commercial properties. At December 31, 2006 specific reserves of \$0.9 million were allocated to this relationship and CIB Marine has charged off a total of \$0.04 million. During 2007, CIB Marine foreclosed on the underlying properties and reduced the loan by the \$1.1 million estimated market value of the foreclosed properties. The \$0.9 million remaining balance of the loan was charged off.
- Commercial real estate loans totaling \$1.9 million secured by first mortgages on three commercial warehouse properties. During 2007 these loans were paid down by \$0.3 million and as of September 30, 2007 loans totaling \$1.6 million to this borrower were classified as nonaccrual. No specific reserves were allocated to these loans at either December 31, 2006 or September 30, 2007, and as of

September 30, 2007, CIB Marine has charged off a total of \$0.9 million.

---

## **Table of Contents**

- Commercial and commercial real estate loans totaling \$1.0 million to a borrower secured by all business assets and a first mortgage on two commercial real estate properties. No specific reserves were allocated to these loans at December 31, 2006 and CIB Marine has total net charge-offs of \$4.5 million. As of September 30, 2007, \$1.0 million remained on nonaccrual with no specific reserves allocated to this relationship.
- Commercial real estate loan in the total amount of \$0.9 million to a borrower secured by first mortgage on commercial property and an assignment of business assets. No specific reserves were allocated to this loan at December 31, 2006. In the second quarter of 2007, the \$0.9 million loan was paid in full.
- Commercial loan in the amount of \$0.8 million to a borrower secured by a junior mortgage on residential property. At December 31, 2006 Specific reserves in the amount of \$0.8 million were allocated to this loan. In the first quarter of 2007, the balance was fully charged off.

While CIB Marine believes that the value of the collateral securing the above nonaccrual loans approximates the net book value of the loans, CIB Marine cannot provide assurances that the value will be maintained or that there will be no further losses with respect to these loans.

Foreclosed properties were \$0.1 million at December 31, 2006 and consisted of one residential property and one commercial property. At December 31, 2005, foreclosed properties were \$2.9 million and consisted of five commercial properties. All foreclosed properties were held for sale. During 2006, CIB Marine acquired one property with a book value of \$0.1 million at time of acquisition and sold four commercial properties which had a \$2.8 million carrying value at December 31, 2005. The net loss on write down and sales of foreclosed properties during 2006 was \$0.4 million. This loss was offset by a \$0.4 million recovery during the first quarter of 2006 resulting from settlement of litigation on a property sold in 2003.

There were no restructured loans at December 31, 2006. At December 31, 2005, there was one restructured commercial real estate loan with a balance of \$1.5 million. This loan matured in 2006 and at December 31, 2006, it was classified as 90 days or more past due and still accruing interest.

Loans 90 days or more past due and still accruing interest are loans which are delinquent with respect to the contractual payment terms of principal and/or interest, but which management believes all contractual principal and interest amounts due will be collected. CIB Marine had \$1.5 million in loans that were 90 days or more past due and still accruing at December 31, 2006 compared to \$11.5 million at December 31, 2005. The decrease in loans classified as 90 days or more past due and still accruing at December 31, 2006 compared to December 31, 2005 was primarily due to payoffs and loans being brought current. One loan within this category accounted for \$1.4 million or 93.3% of the total loans 90 days or more past due and still accruing at December 31, 2006. The loan was secured by an assignment of a first mortgage on a commercial building and assignment of business assets. Accrued interest on loans 90 days or more past due and still accruing was \$0.01 million and \$0.1 million at December 31, 2006 and 2005, respectively.

## **Regulatory Matters**

In May 2004, Central Illinois Bank, Marine-Wisconsin and CIB-Indiana entered into Cease and Desist Orders with banking regulators. CIB Marine merged CIB-Indiana into Marine-Wisconsin in 2006. During the period in which the Orders were in effect, the banks agreed to maintain a Tier 1 capital level equal to or exceeding 8% of the bank's total average assets as calculated in accordance with 12 C.F.R. Part 325 of the FDIC rules and regulations ("Part 325"). Also, unless prior written consent was received from the regulators, the bank agreed to restrict its asset and loan growth to no more than 2% during any consecutive three-month period and suspend the declaration or payment of dividends without regulatory approval. In May 2004, CIB Marine entered into a Written Agreement with the Federal Reserve Bank of Chicago. The Orders and Agreements imposed certain restrictions and reporting requirements on CIB Marine and such subsidiary banks and required various actions to be taken. The items included, among others:

- Maintenance of minimum capital levels;
- Restrictions on dividend payments and redemption of shares of CIB Marine without regulatory approval;
- Limitations on asset and loan growth;
- Adoption of a comprehensive plan to improve earnings;

---

## **Table of Contents**

- Development of a plan to reduce concentrations of credit and loan relationships classified as substandard or doubtful;
- Development of a system to correct loan administration deficiencies; and
- Development of a plan to correct and prevent violations of banking laws and regulations related to affiliate transactions.

In August 2004, Citrus Bank entered into a Written Agreement with the OCC, the provisions of which are similar to the Cease and Desist Orders.

In April 2005, the Cease and Desist Orders at Marine-Wisconsin and CIB-Indiana were terminated and replaced with Memoranda of Understanding, which were entered into in March 2005, as a result of improvements at the banks. The terms of the Memoranda provided that the banks agree to maintain minimum capital levels, correct loan administration deficiencies, reduce credit concentrations in problem credits and restricted the payment of cash dividends without prior regulatory approval. In September 2006, the Written Agreement entered into by Citrus Bank with the Office of the Comptroller of the Currency in August 2004 was terminated as a result of improvements at that bank. In January 2007, the Cease and Desist Order at Central Illinois Bank was terminated and replaced with a Memorandum of Understanding. The Memorandum provided that Central Illinois Bank will (a) develop a plan to lower the bank's risk position in loans classified as "substandard"; (b) develop and implement a plan to improve earnings; (c) maintain minimum Tier 1 capital level of 8%; and (d) obtain regulatory approval prior to purchasing any loan pools in excess of \$3 million.

In April 2005, Central Illinois Bank, Marine-Wisconsin and CIB-Indiana each entered into a Memorandum of Understanding with the FDIC and its applicable state banking regulators as a result of deficiencies in internal controls in the area of information technology. The banks agreed to take certain actions to document and fully implement an information security program, exercise appropriate diligence in overseeing arrangements with service providers and assess, develop and implement certain security standards and procedures. These Memoranda were terminated in January 2006.

### **Companies Held For Disposal**

At both December 31, 2006 and 2005, assets held for disposal include the remaining assets of MSI, MICR, Canron and a \$1.9 million tax liability exposure relating to a subsidiary sold in 2004. MICR and Canron were acquired in full or partial satisfaction of loans. Net income of these companies is included in income from discontinued operations for all periods presented.

#### ***CIB Construction (includes Canron)***

During 2006, Canron continued to collect both on and off-balance sheet receivables and settle and resolve payables and claims through the voluntary liquidation process. In August 2005, Canron authorized and began liquidation distributions to its shareholders. During 2006 and 2005, Canron paid \$1.0 million and \$2.1 million, respectively, in capital distributions to its parent, CIB Construction, and CIB Construction paid dividends totaling \$1.6 million and \$2.6 million, respectively, to CIB Marine which CIB Marine recorded as a reduction of its investment in CIB Construction. During 2006 and 2005, CIB Marine recognized a \$0.4 million and \$2.7 million recovery of impairment losses recognized in prior periods. CIB Construction's net income, including the impairment losses, for 2006, 2005 and 2004 was \$0.3 million, \$1.9 million and \$3.9 million.

The following table summarizes the composition of CIB Construction's consolidated balance sheets. The balance sheets reflect current expectations of liquidation values:

## Table of Contents

	December 31,	
	2006	2005
(Dollars in thousands)		
<b>Assets:</b>		
Cash on deposit at CIB Marine	\$ 50	\$ 626
Accounts receivable	551	1,572
Other assets	2,649	2,967
<b>Total assets</b>	<b>\$ 3,250</b>	<b>\$ 5,165</b>
<b>Liabilities and Stockholder's Equity:</b>		
Income tax payable	\$ 3,082	\$ 3,106

<b>Total liabilities</b>	<b>4,559</b>	<b>5,161</b>
Stockholder's equity	(1,309)	4
<b>Total liabilities and stockholder's equity</b>	<b>\$ 3,250</b>	<b>\$ 5,165</b>

### MICR

During 2006, CIB Marine continued to wind down the business affairs of MICR. The operations and substantially all the assets of MICR were sold in the fourth quarter of 2005 resulting in a pretax gain of \$0.2 million, and the company's name was changed to Everett Tech, Inc. Prior to the sale of its operations, MICR had \$1.5 million in net income during 2005 and a \$1.0 million net loss in 2004, including a \$1.9 million impairment loss.

The following table summarizes the composition of MICR's balance sheet:

	December 31, 2006	December 31, 2005
	(Dollars in thousands)	
<b>Assets:</b>		
Cash on deposit at non-affiliates	\$ —	\$ 273
Income tax receivable	127	122
Other assets	—	200
<b>Total assets</b>	<b>\$ 127</b>	<b>\$ 595</b>
<b>Liabilities and stockholder's equity:</b>

Stockholder's equity	(170)	104
<b>Total liabilities and stockholder's equity</b>	<b>\$ 127</b>	<b>\$ 595</b>

### MSI

During 2006, CIB Marine continued to wind down the remaining affairs of MSI. MSI's operations and substantially all its assets were sold in the third quarter of 2004, resulting in a pretax loss of \$0.7 million. MSI has incurred certain liabilities including repurchase obligations relative to certain mortgage loans as a result of external fraud and/or documentation issues and certain reporting penalties. During 2006, 2005 and 2004, MSI had net income (loss) of \$0.3 million, \$0.04 million and \$(4.2) million, including a \$1.0 million impairment loss, respectively.

The following table summarizes the composition of MSI's balance sheets which reflect expected liquidation values net of selling costs.

	December 31,	
	2006	2005
(Dollars in thousands)		
<b>Assets:</b>		
Cash on deposit at CIB Marine	\$ 14	\$ 24

<b>Total liabilities</b>	<b>656</b>	<b>1,901</b>
Stockholder's equity	144	(1,095)
<b>Total liabilities and stockholder's equity</b>	<b>\$ 800</b>	<b>\$ 806</b>

## Table of Contents

### Other Assets

The following table summarizes the composition of CIB Marine's other assets:

	December 31,	
	2006	2005
	(Dollars in thousands)	
Prepaid expenses	\$ 1,067	\$ 1,113
Accounts receivable	1,508	638
Trust preferred securities underwriting fee, net of amortization	1,335	1,390
Investment in trust common securities	2,838	2,654
Other investments	2,821	3,562
Income tax receivable	3,492	3,391
Other	116	101
	<u>\$ 13,177</u>	<u>\$ 12,849</u>

The major components of other investments are as follows:

- Investments in limited partnership interests in various affordable housing partnerships. The carrying value of these investments was \$1.4 million and \$1.8 million, respectively, at December 31, 2006 and 2005. Equity loss on these limited partnerships, included in noninterest expense, was \$0.4 million in 2006, \$0.3 million in 2005 and \$1.0 million in 2004, including \$0.6 million in discontinued operations. CIB Marine has engaged in these transactions to provide additional qualified investments under the Community Reinvestment Act and to receive related income tax credits. The partnerships provide affordable housing to low-income residents within CIB Marine's markets and other locations.
- Investment in the common and preferred capital of a limited liability corporation engaged in the development of owner-occupied housing in qualified low-income communities. CIB Marine committed to a \$1.0 million investment in this company. The carrying value of this investment was \$0.8 million at both December 31, 2006 and 2005.
- Investment in the common stock of a publicly traded company. The carrying value of this investment was \$0.4 million at December 31, 2006. During 2006, CIB Marine exercised stock warrants it had received as payment for credit services. The carrying value of the warrants at December 31, 2005 was \$0.3 million and during both 2006 and 2005, CIB Marine recognized a \$0.1 million market value gain on these warrants. The market value gains are included in net gain on assets.
- Interest in a company operating as a small business investment company under the Small Business Investment Act of 1958, as amended. CIB Marine committed to a \$0.5 million investment in this company and as of December 31, 2006 has invested \$0.4 million. During 2006, CIB Marine received a capital distribution of \$0.1 million on its investment in this company. During 2005, CIB Marine recognized a \$0.1 million impairment loss on this investment due to a reduction in CIB Marine's interest in the equity value of this investment. The impairment loss is included in write down and losses on assets. At December 31, 2006 and 2005, CIB Marine's carrying value of this investment was \$0.2 and \$0.3, respectively.
- During 2006, CIB Marine sold its interest in a company operating as a small business investment company under the Small Business Investment Act of 1958, as amended. No gain or loss was recognized on the sale. CIB Marine's carrying value of this investment at December 31, 2005 was \$0.4 million.

### Deposits

Average total deposits decreased \$197.4 million, or 18.7%, from \$1.1 billion in 2005 to \$0.9 billion in 2006. The ratio of total average deposits to average earning assets was 84.5% in 2006, 86.7% in 2005 and 90.4% in 2004. The decrease in average deposits was due to branch sales during 2005 and 2006, transfer of deposits to deposits held for sale at December 31, 2006, less competitive rate setting practices adopted by CIB Marine for interest-bearing deposits, and a decline in deposit relationships associated with the decrease in commercial loans. The combined deposits of branches sold during 2006 or held for sale at December 31, 2006 approximated \$120.8 million at December 31, 2005. Additionally, during the third quarter of 2005, CIB Marine sold its branch in Sebring Florida

## Table of Contents

which had total deposits of approximately \$5.6 million prior to the sale. See the deposits and assets held for sale discussion for further information on deposits sold or held for sale.

The following tables set forth the average amount of, and average rate paid on, deposit categories for the periods indicated.

Other savings	21,839	2.55	1.00	35,382	3.35	1.16	40,611	3.04	1.23
Time deposits	507,013	59.11	4.12	641,274	60.77	3.24	814,691	60.99	2.96
Total interest-bearing deposits	766,143	89.31	3.82	942,786	89.34	2.86	1,211,637	90.71	2.45
Noninterest-bearing	91,668	10.69	—	112,470	10.66	—	124,108	9.29	—
Total deposits	<u>\$857,811</u>	<u>100.00%</u>	<u>3.41%</u>	<u>\$1,055,256</u>	<u>100.00%</u>	<u>2.56%</u>	<u>\$1,335,745</u>	<u>100.00%</u>	<u>2.22%</u>

Average interest-bearing deposits as a percentage of average total deposits were 89.3% in 2006, 89.3% in 2005, and 90.7% in 2004. Time deposits represent the largest component of interest-bearing deposit liabilities. The percentage of average time deposits to average total interest-bearing deposits was 66.2% in 2006, 68.0% in 2005, and 67.2% in 2004. These percentages reflect CIB Marine's significant reliance on time deposits as a source of funding. Average interest-bearing demand deposits decreased \$12.8 million or 22.9% in 2006 compared to 2005, and other savings accounts decreased \$13.5 million or 38.3%, while average time deposits, declined \$134.3 million, or 20.9%, and average money market accounts decreased \$16.1 million or 7.6%. Average noninterest-bearing demand deposits also decreased by \$20.8 million, or 18.5%, in 2006.

Total time deposits of \$100,000 or more, excluding deposits of branches held for sale, were \$126.1 million, or 28.8% of time deposits at December 31, 2006 and \$122.5 million or 24.6% of total time deposits at December 31, 2005. Brokered time deposits, excluding deposits of branches held for sale, were \$39.2 million or 9.0% of total time deposits at December 31, 2006 and \$37.3 million or 7.5% of total time deposits at December 31, 2005. CIB Marine issues brokered time deposits periodically to meet short-term funding needs and/or when their related costs are at or below those being offered on other deposits.

The following table provides information on the maturity distribution of time deposits of \$100,000 or more.

	December 31, 2006 (Dollars in thousands)
<b>Maturity</b>	
3 months or less	\$ 39,225
Over 3 through 6 months	27,700
Over 6 through 12 months	35,323
Over 12 months	<u>33,155</u>

Liabilities held for sale	135,403
	(9,302)
	<u>\$ 126,101</u>

## Table of Contents

### Deposits and assets of branches held for sale

At December 31, 2006, CIB Marine had for sale the deposits and certain assets of two of its branches located in Wisconsin. The combined deposits and assets of these two branches at December 31, 2006 was \$55.4 million and \$0.4 million, respectively, and are included in deposits and assets of branches held for sale as of that date. Both branches were sold during the first half of 2007. See the subsequent events discussion in this section for further information on the sales of these two branches. At December 31, 2005, CIB Marine had five branches held for sale with total deposits of \$67.0 million and assets of \$0.7 million as of that date. Three of the five branches were located in Illinois, one in Wisconsin and one in Nebraska. The deposits and assets of these five branches and of a branch located in Illinois were sold during 2006. CIB Marine recognized a combined net gain of \$2.7 million on the sales of these branches.

### Borrowings

CIB Marine also uses various types of borrowings to meet liquidity needs and/or fund asset growth, when the pricing on these borrowings is more favorable than deposits.

During 2006 and 2005, some of the borrowing sources customarily utilized by CIB Marine were restricted or unavailable due to noncompliance with certain asset quality, earnings, and capital maintenance debt agreements and the inability to provide audited consolidated financial statements. Federal funds borrowings by certain of CIB Marine's subsidiary banks were contingent on subsidiary bank pledges of fixed income investment securities and the FHLB of Chicago restricted lending terms. The subsidiary banks were restricted from daylight overdraft and other activity at their respective Federal Reserve Banks, and were required to pledge securities in order to have access to the federal reserve discount window. These restrictions were removed from one of the subsidiary banks during 2005 and at another subsidiary bank during 2006. At December 31, 2006, only one of the subsidiary banks was required to pledge securities in order to have access to the federal reserve discount window. Additionally, pursuant to a Written Agreement between CIB Marine and the Federal Reserve Bank, CIB Marine must obtain Federal Reserve Bank approval before incurring additional borrowings or debt.

The following tables set forth information regarding selected categories of borrowings as of the dates indicated.

	As of December 31,								
	2006			2005			2004		
	Balance	Average Rate	% of Total Borrowings	Balance	Average Rate	% of Total Borrowings	Balance	Average Rate	% of Total Borrowings
	(Dollars in thousands)								
<b>Short-Term Borrowings</b>									
Fed funds purchased	\$ 2,057	5.31%	2.25%	\$ 297	4.13%	0.32%	\$ —	—%	—%
Securities sold under repurchase agreements	21,567	4.74	23.57	20,684	3.46	21.98	13,269	1.67	15.09
Treasury, tax and loan note	4,028	5.04	4.40	4,020	4.06	4.27	5,540	2.03	6.30
Total short-term borrowings	27,653	4.83	30.22	25,001	3.56	26.57	18,809	1.78	21.39
<b>Long-Term Borrowings</b>									
Federal Home Loan Bank-long-term	2,000	5.09	2.19	7,250	4.99	7.70	7,250	4.99	8.25
Junior subordinated debentures	61,857	9.94	67.59	61,857	9.49	65.73	61,857	9.00	70.36
Total long-term borrowings	63,857	9.78	69.78	69,107	9.01	73.43	69,107	8.58	78.61
<b>Total borrowings</b>	<b>\$91,510</b>	<b>8.29%</b>	<b>100.00%</b>	<b>\$94,108</b>	<b>7.57%</b>	<b>100.00%</b>	<b>\$87,916</b>	<b>7.12%</b>	<b>100.00%</b>

Total borrowings decreased \$2.6 million in 2006 to \$91.5 million at December 31, 2006 from \$94.1 million at December 31, 2005, representing 9.5% and 8.6% of earning assets, respectively.

### Junior Subordinated Debentures and Guaranteed Trust Preferred Securities

CIB Marine formed four statutory business trusts ("Trusts") for the purpose of issuing trust preferred securities and investing the proceeds thereof in junior subordinated debentures of CIB Marine. The trust preferred securities are fully and unconditionally guaranteed by CIB Marine. The Trusts used the proceeds from issuing trust preferred securities and the issuance of its common securities to CIB Marine to purchase the junior subordinated debentures. Interest on the junior subordinated debentures and distributions on the trust preferred securities are payable either quarterly or semi-annually in arrears. Pursuant to its 2004 Written Agreement with the Federal Reserve Bank, CIB Marine is not permitted to pay any interest on the trust preferred securities without prior approval of the Federal Reserve Board. See Regulatory Matters

for further discussion. CIB Marine has the right, at any time, as long as there

---

## Table of Contents

are no continuing events of default, to defer payments of interest on the junior subordinated debentures for consecutive periods not exceeding 20 consecutive quarters, but not beyond the stated maturity of the junior subordinated debentures. CIB Marine has elected to defer all interest payments starting in 2004. Throughout the deferral period, interest on the debentures continues to accrue. In addition, interest also accrues on all interest that was not paid when due, compounded quarterly or semi-annually. During the deferral period, CIB Marine may not pay any dividends or distributions on, or redeem, purchase, or acquire or make liquidation payment on its stock, or make any payment on principal, interest or premium, or redeem any similar debt securities of CIB Marine, subject to limitations. CIB Marine deferred interest payments on its \$61.9 million junior subordinated debentures and as a result the Trusts deferred distributions on \$60.0 million preferred securities. CIB Marine had accrued interest payable on its junior subordinated debentures of \$21.8 million and \$28.0 million at December 31, 2006 and September 30, 2007, respectively. The trust preferred securities are subject to mandatory redemption, in whole or in part, upon repayment of the junior subordinated debentures at maturity or their earlier redemption. The \$61.9 million junior subordinated debt, net of CIB Marine's \$1.9 million initial investment in the Trusts, qualify as regulatory capital for CIB Marine subject to regulatory limitations. At December 31, 2006, approximately \$23.9 million of the \$60.0 million qualified as Tier 1 capital and the remaining \$36.1 million qualified as Tier 2 capital. In connection with the sale of CIB-Chicago, CIB Marine pledged the stock of Central Illinois Bank to the purchaser to secure certain indemnification obligations with respect to CIB Marine's trust preferred securities. No claims were made by the purchaser related to this indemnification obligation. The obligation to pledge the stock of Central Illinois Bank terminated on November 30, 2006.

In September 2002, CIB Marine issued \$20.0 million in guaranteed trust preferred securities at a variable rate of interest based upon the three-month LIBOR plus 3.40%. The interest rate was 8.76% at December 31, 2006. The securities are mandatorily redeemable upon their maturity on September 27, 2032 and are callable by the issuer beginning September 30, 2007 at par value. Issuance costs of \$0.5 million were incurred in connection with these securities. These costs were deferred and are being amortized over thirty years. CIB Marine used the net proceeds of \$19.5 million for general corporate purposes.

In February 2001, CIB Marine issued \$15.0 million in guaranteed trust preferred securities at a fixed rate of 10.20% per annum. The securities are mandatorily redeemable upon their maturity on February 22, 2031, and are callable by the issuer beginning February 22, 2011, at a premium, which declines ratably to par by February 22, 2021. Issuance costs of \$0.5 million were incurred in connection with these securities. These costs were deferred and are being amortized over thirty years. CIB Marine used the net proceeds of \$14.5 million for general corporate purposes.

In September 2000, CIB Marine issued \$15.0 million in guaranteed trust preferred securities at a fixed rate of 10.60% per annum. The securities are mandatorily redeemable upon their maturity on September 7, 2030, and are callable by the issuer beginning September 7, 2010, at a premium, which declines ratably to par by September 7, 2020. Issuance costs of \$0.5 million were incurred in connection with these securities. These costs were deferred and are being amortized over thirty years. CIB Marine used the net proceeds of \$14.5 million for general corporate purposes.

In March 2000, CIB Marine issued \$10.0 million in guaranteed trust preferred securities at a fixed rate of 10.88% per annum. The securities are mandatorily redeemable upon their maturity on March 8, 2030, and are callable by the issuer beginning March 8, 2010, at a premium, which declines ratably to par by March 8, 2020. Issuance costs of \$0.3 million were incurred in connection with these securities. These costs were deferred and are being amortized over thirty years. CIB Marine used the net proceeds of \$9.7 million for general corporate purposes.

## Table of Contents

### Other Liabilities

	December 31,	
	2006	2005
	(Dollars in thousands)	
Accounts payable	\$ 1,408	\$ 459
Accrual for unfunded commitments and standby letters of credit	725	725
Accrued real estate taxes	159	201
Accrued compensation and employee benefits	973	913
Accrued professional fees	1,070	1,476
Accrued other expenses	2,645	997
Fair value of derivatives	29	37
Other liabilities	360	427
	<u>\$ 7,369</u>	<u>\$ 5,235</u>

Other liabilities increased \$2.1 million from \$5.2 million at December 31, 2005 to \$7.4 million at December 31, 2006. The increase was primarily due to a \$1.8 million contingent liability recorded in the first quarter of 2006. The contingent liability related to the settlement of the John C. Hadley and Mary Lydia Hadley litigation in the first quarter of 2007. See Item 3-Legal Proceedings in Part I of this Form 10-K for further information regarding this litigation.

### Off-Balance Sheet Arrangements

During the ordinary course of business, CIB Marine engages in financial transactions that are not recorded on its consolidated balance sheets, are recorded in amounts that are different than their full principal or notional amount, or are subsidiaries of CIB Marine that are presented on an equity basis rather than consolidated. Such transactions serve a variety of purposes including management of CIB Marine's interest rate risk, liquidity and credit concentration risks, optimization of capital utilization, and meeting the needs of its customers.

#### *Commitments:*

As a financial services provider, CIB Marine routinely enters into commitments to extend credit, including loan commitments, lines of credit, and standby and commercial letters of credit. While these contractual obligations may represent future cash requirements of CIB Marine, some of these commitments to extend credit may expire without being drawn upon. Such commitments are subject to the same credit policies and approval process as other loans made by CIB Marine. See Item 8, Note 17-Financial Instruments with Off-Balance Sheet Risk in Part II of this Form 10-K for additional information.

#### *Derivative Financial Instruments:*

CIB Marine utilizes derivatives primarily in its asset/liability management activities to modify the existing market risk characteristics of certain assets and liabilities. During 2006, CIB Marine's derivatives were predominately interest rate swaps. An interest rate swap agreement involves the exchange of fixed and floating rate interest payment obligations based on the underlying notional principal amounts. The amounts subject to market and credit risks are the streams of interest payments under the agreements and not the notional principal amounts, which are used only to express the volume of the transactions. The fair value of each derivative instrument, however, is recorded on the balance sheet as an asset or liability. CIB Marine's credit risk on a swap agreement is limited to nonperformance of the counterparty's obligations under the terms of the swap agreement. CIB Marine deals exclusively with counterparties that have high credit ratings, and based on management's assessments, all counterparties were expected to meet any outstanding obligations as of December 31, 2006. For additional information regarding CIB Marine's interest rate swaps at December 31, 2006, including the off-balance sheet notional amount and fair value which is the carrying value, see Item 8, Note 17-Financial Instruments with Off-Balance Sheet Risks and Note 22-Fair Value of Financial Instruments in Part II of this Form 10-K.

#### *Trust Preferred Securities:*

At December 31, 2006, CIB Marine had a \$1.9 million investment in the common securities of the Trusts. CIB

## Table of Contents

Marine has also issued \$61.9 million in junior subordinated debentures to the Trusts and which are outstanding at December 31, 2006. The Trusts have a total of \$60.0 million in preferred securities outstanding which were issued to non-affiliated investors. See Item 7-Junior Subordinated Debentures and Guaranteed Trust Preferred Securities discussion and Item 8, Note 12-Long-Term Borrowings in Part II of this Form 10-K for further information.

### Capital Calls:

At December 31, 2006, CIB Marine had a \$0.2 million investment in Small Business Investment Companies (SBICs) and had committed to make an additional \$0.1 million investment. In addition, at December 31, 2006, CIB Marine has a \$0.7 million investment in a community oriented real estate development limited company and has committed to make an additional \$0.3 million investment.

### Residential Mortgage Recourse Obligations:

CIB Marine has contracted with residential mortgage loan investors to repurchase or make the investor whole on losses incurred on residential mortgage loans purchased from CIB Marine and which were not in compliance or otherwise represented a material breach of agreement between CIB Marine and the investor. The amount of unsettled repurchase and make whole obligations as of December 2006 is \$0.8 million. At December 31, 2006, liabilities of companies held for sale included a \$0.3 million contingent liability related to these obligations. See Item 8, Note 7-Companies Held For Disposal and Discontinued Operations-MSI in Part II of this Form 10-K for additional information.

### Contractual obligations

The following table summarizes the Company's more significant contractual obligations at December 31, 2006. Excluded from the following table are a number of obligations to be settled in cash. These excluded items are reflected in the Company's consolidated balance sheet and include deposits with no stated maturity, trade payables, accrued interest payable and derivative payables that do not require physical delivery of the underlying instrument. The table does not include interest.

	<u>Total</u>	<u>Included in assets or liabilities held for sale</u>	<u>Less than 1 year</u>	<u>1-2 years</u>	<u>2-3 years</u>	<u>3-4 years</u>	<u>4-5 years</u>	<u>More than 5 years</u>

### Liquidity

The objective of liquidity risk management is to ensure that CIB Marine has adequate funding capacity to fund commitments to extend credit, deposit account withdrawals, maturities of borrowings, and other obligations in a timely manner. CIB Marine actively manages its liquidity position by estimating, measuring, and monitoring its sources and uses of funds. CIB Marine's sources of funding and liquidity include both asset and liability components. CIB Marine's funding requirements are primarily met by the inflow of funds from deposits, loan repayments and investment maturities. CIB Marine also makes use of noncore funding sources in a manner consistent with its liquidity, funding and market risk policies. Noncore funding sources are used to meet funding needs and/or when the pricing and continued availability of these sources presents lower cost funding opportunities. Short-term noncore funding sources utilized by CIB Marine include federal funds purchased, securities sold under agreements to repurchase, short-term borrowings from the Federal Home Loan Bank, and short-term brokered and negotiable time deposits. CIB Marine also has established borrowing lines with the Federal Reserve Bank and nonaffiliated banks. Long-term funding sources, other than core deposits, include long-term brokered and negotiable time deposits and long-term borrowings from the Federal Home Loan Bank. Additional sources of liquidity include cash and cash equivalents, federal funds sold, sales of loans held for sale, and the sale of securities.

---

## **Table of Contents**

During 2006 and 2005, some of the borrowing sources customarily utilized by CIB Marine were restricted or unavailable due to noncompliance with certain asset quality, earnings, and capital maintenance debt agreements and the inability to provide audited consolidated financial statements. Federal funds borrowings by certain of CIB Marine's subsidiary banks were contingent on subsidiary bank pledges of fixed income investment securities, the FHLB of Chicago restricted lending terms, and derivative counterparties increased collateral requirements. Brokered deposits were restricted by FDIC rules and regulations at subsidiary banks which were defined as less than well capitalized due to either low levels of capital, the issuance of Cease and Desist Orders, or formal written agreements by regulatory agencies. Where eligible, the FDIC granted permissible waivers at the subsidiary banks, making the banks eligible to accept, renew or rollover brokered deposits. During 2004, the credit status of all of CIB Marine's subsidiary banks was reduced. The subsidiary banks were restricted from daylight overdraft and other activity at their respective Federal Reserve Banks, and were required to pledge securities in order to have access to the federal reserve discount window. These restrictions were removed from one of the subsidiary banks during 2005 and at another subsidiary bank during 2006. At December 31, 2006, only one of the subsidiary banks was required to pledge securities in order to have access to the federal reserve discount window. This restriction was removed during the first quarter of 2007. Additionally, pursuant to a Written Agreement between CIB Marine and the Federal Reserve Bank, CIB Marine must obtain Federal Reserve Bank approval before incurring additional borrowings or debt. Pursuant to regulatory agreements consented to by certain of CIB Marine's bank subsidiaries, the subsidiaries must obtain regulatory approval before paying cash dividends. These restrictions could potentially impact liquidity.

The following discussion should be read in conjunction with the consolidated statements of cash flows for 2006, 2005 and 2004 contained in Part II, Item 8 of this Form 10-K.

CIB Marine's primary source of funds for 2006 resulted from investing activities as a result of a \$148.9 million net decrease in investment securities. Other sources of funds resulted from \$3.6 million net cash received from the sale of branches, \$2.5 million in proceeds from the sale of foreclosed properties, \$2.7 million net increase in short-term borrowings, \$1.0 million in investing activities of discontinued operations and \$0.8 million decrease in other investments.

CIB Marine's primary use of funds for 2006 was a net decrease in deposits of \$63.7 million and \$64.3 million of deposits sold. Other uses of funds were a \$11.6 million decrease in deposits held for sale, a \$6.0 million increase in the loan portfolio, \$5.3 million repayment of long-term borrowings, \$0.6 million to purchase property and equipment and \$5.8 million of cash used in operating activities.

The Company had liquid assets from continuing operations of \$115.1 million and \$112.9 million at December 31, 2006 and 2005, respectively.

CIB Marine was able to meet its liquidity needs during 2006 and 2005. Beginning in 2004, CIB Marine deferred interest payments on its \$61.9 million of junior subordinated debentures and as a result the Trusts deferred distributions on \$60.0 million of preferred securities. The deferral period may last as long as 5 years. During 2007, it is expected that CIB Marine will continue to defer interest payments on its junior subordinated debentures and will have adequate funding capacity to meet its other obligations. The primary sources of funding are expected to be cash on hand, operating cash flows from the sale of services to subsidiary banks and the sale of other assets owned by CIB Marine. CIB Marine's subsidiary banks have high levels of liquid assets to meet potentially high liquidity needs at the banks.

### **Capital**

CIB Marine and its subsidiary banks are subject to various regulatory capital guidelines. In general, these guidelines define the various components of core capital and assign risk weights to various categories of assets. The risk-based capital guidelines require financial institutions to maintain minimum levels of capital as a percentage of risk weighted assets. The risk-based capital information for CIB Marine is contained in the following table:

## Table of Contents

	December 31,		
	2006	2005	2004

Tier 1 leverage to average assets	123,501	5.63	87,793	4.00

(1) Average assets as calculated in accordance with 12 C.F.R. Part 325 of the FDIC rules and regulations which requires a quarter to date average and allows for current period adjustments of goodwill and other intangible assets.

At December 31, 2006 and 2005, CIB Marine was subject to a Written Agreement (“Agreement”) it entered into with the Federal Reserve Bank in the second quarter of 2004; Central Illinois Bank was subject to a Cease and Desist Order (“Order”) it consented to with its banking regulatory authorities in the second quarter of 2004; and Marine-Wisconsin was subject to a Memorandum of Understanding (“Memorandum”) with its banking regulators. Additionally, at December 31, 2005, Citrus Bank was subject to a Written Agreement (“Citrus Agreement”) it entered into with the Office of the Comptroller of the Currency in the third quarter of 2004 and CIB-Indiana was subject to a Memorandum of Understanding. The Citrus Agreement was terminated in September 2006 and CIB-Indiana was merged into Marine-Wisconsin in August 2006. Among other items, the Agreement, Order and Memorandum restrict the payment of cash dividends without prior written consent from the regulators and require the banks to maintain a Tier 1 leverage capital level equal to or exceeding 8% of the bank’s total average assets. The Citrus Agreement, in addition to such dividend restriction and capital requirement, also required Citrus Bank to maintain total capital to risk weighted assets of not less than 14%. Failure to comply with the Agreement, Order or Memorandum could have a material adverse effect on CIB Marine and its operations. In January 2007, the Cease and Desist at Central Illinois Bank was terminated and replaced with a Memorandum of Understanding. The Memorandum provided that Central Illinois Bank will (a) develop a plan to lower the bank’s risk position in loans classified as “substandard”; (b) develop and implement a plan to improve earnings; (c) maintain minimum Tier 1 capital level of 8%; and (d) obtain regulatory approval prior to purchasing any loan pools in excess of \$3 million. As

---

## **Table of Contents**

of December 31, 2006, the capital level of CIB Marine and each of its subsidiary banks exceeded the minimum levels required by the Agreement, Order and Memorandum.

CIB Marine's stockholders' equity was \$71.6 million or 7.2% of total assets at December 31, 2006 compared to \$79.2 million or 7.0% of total assets at December 31, 2005. The decrease during 2006 was primarily due to a net loss of \$9.3 million offset by a \$1.6 million reduction in accumulated other comprehensive loss resulting from a net decrease in unrealized losses on securities available for sale.

CIB Marine has junior subordinated debentures issued prior to 2003 which, subject to limitations, qualify as Tier 1 equity capital for regulatory capital purposes. See the Junior Subordinated Debentures and Guaranteed Trust Preferred Securities discussion for further information on these borrowings. The Federal Reserve Board adopted a rule limiting the restricted core capital elements, including junior subordinated debentures, net of investment in the trusts, to 25% of all core capital elements, net of goodwill less any associated deferred tax liability.

### **New Accounting Pronouncements**

#### ***Derivatives***

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155, *Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No 133 and 140* (“SFAS 155”). SFAS 155 requires entities to evaluate and identify whether interests in securitized financial assets are freestanding derivatives, hybrid financial instruments that contain embedded derivatives that require bifurcation, or hybrid financial instruments that contain embedded derivatives that do not require bifurcation. SFAS 155 also permits fair value measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation. This statement will be effective for all financial instruments acquired or issued on or after January 1, 2007. Adoption of this standard did not materially affect CIB Marine's consolidated financial statements.

#### ***Servicing of Financial Assets***

In March 2006, the FASB issued Statement of Financial Accounting Standards No 156, *Accounting for Servicing of Financial Assets—an amendment of FASB Statement No 140* (“SFAS 156”). SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations. SFAS 156 requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. The statement permits subsequent measurement of servicing assets and servicing liabilities using either a fair value method or an amortization method. This statement is effective for fiscal years beginning after September 15, 2006. Adoption of this standard did not materially affect CIB Marine's consolidated financial statements.

#### ***Income Taxes***

In June 2006, the FASB issued Statement of Interpretation No. 48 to clarify the accounting for uncertainty in income taxes recognized in the financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. The Interpretation prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The effect of a tax position is recognized in the financial statements if it is determined that it is more likely than not the position will be sustained upon examination by taxing authorities, including resolution of any related appeals or litigation processes, based on its technical merits. The effect is measured at the largest amount of benefit that is greater than 50 percent likely to be realized upon ultimate settlement. The Interpretation is effective for fiscal years beginning after December 15, 2006, although earlier application is encouraged. CIB Marine is still assessing the impact of adoption of the Interpretation on its consolidated financial statements, and does not expect it to have a material impact on CIB Marine's financial statements.

#### ***Fair Value Measurements***

In September 2006 the FASB issued SFAS No. 157, *Fair Value Measurements* (“SFAS 157”). SFAS 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing

---

## **Table of Contents**

an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS 157 also expands disclosures about the use of fair value to measure assets and liabilities in interim and annual reports subsequent to initial recognition. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. CIB Marine is still assessing the impact of adoption of SFAS 157 on its consolidated financial statements.

In February 2007 the FASB issued Statement of Financial Accounting Standard No 159, *The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115* (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items generally on an instrument-by-instrument basis at fair value that are not currently required to be measured at fair value. SFAS 159 is intended to provide entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. CIB Marine is still assessing the provisions of SFAS 159.

### ***Consideration of the Effects of Prior Year Misstatements on Current Year Financial Statements***

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (“SAB 108”). SAB 108 provides guidance on how to evaluate prior period financial statement misstatements for purposes of assessing their materiality in the current period. If the prior period effect is material to the current period, then the prior period is required to be corrected. Correcting prior year financial statements would not require an amendment of prior year financial statements, but such corrections would be made the next time the company files the prior year financial statements. Upon adoption, SAB 108 allows a one-time transitional cumulative effect adjustment to retained earnings for corrections of prior period misstatements required under this statement. SAB 108 is effective for fiscal years ending after November 15, 2006. The adoption of SAB 108 did not materially affect CIB Marine’s consolidated financial statements.

### **Impact of Inflation and Changing Prices**

CIB Marine’s consolidated financial statements and notes contained in Part II, Item 8 of this Form 10-K have been prepared in accordance with GAAP, which requires the measurement of financial position and operating results in terms of historical dollars without considering the changes in the relative purchasing power of money over time due to inflation. The impact of inflation is reflected in the increased cost of CIB Marine’s operations. Unlike most industrial companies, nearly all of CIB Marine’s assets and liabilities are monetary in nature. As a result, interest rates and changes therein have a greater impact on CIB Marine’s performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

## **SUBSEQUENT EVENTS**

### **CIB Construction/Canron**

Canron is continuing to collect both on and off-balance sheet receivables and settle and resolve payables and claims through the voluntary liquidation process. In the first nine months of 2007, Canron paid \$1.2 million in dividends to CIB Construction and CIB Construction paid \$1.2 million in dividends to CIB Marine.

### **Regulatory Orders and Agreements**

In January 2007, the Cease and Desist Order at Central Illinois Bank was terminated and replaced with a Memorandum of Understanding. Among other items, the Memorandum requires Central Illinois Bank to maintain a minimum Tier 1 capital of 8% of total assets as calculated in accordance with Part 325 of the FDIC Rules and Regulations and to obtain regulatory approval prior to the purchase of any loan pools in excess of \$3.0 million.

---

## **Table of Contents**

### **Management Changes**

In March 2007, Mr. Stanley J. Calderon was elected Chairman of the Board of CIB Marine, replacing Mr. W. Scott Blake, who remains a director. In March 2007, Mr. Calderon also resigned as President and CEO of CIB Marine and was replaced by Mr. John P. Hickey Jr. In May 2007, Mr. Hickey was also appointed to CIB Marine's Board of Directors. Mr. Calderon's employment agreement with CIB Marine terminated upon his resignation as President and CEO. In November 2007, Mr. Steven Klitzing announced his resignation as CFO of CIB Marine, effective November 14, 2007.

### **Liquidity**

During 2007, some of the borrowing sources customarily utilized by CIB Marine continued to be contingent on subsidiary bank pledges of fixed income investment securities, including availability of federal funds purchased with correspondent banks and short-term borrowing availability from the Federal Home Loan Bank of Chicago. In the first quarter of 2007, the restriction requiring one of the subsidiary banks to pledge securities in order to have access to the federal reserve discount window was removed.

In the first quarter of 2007, CIB Marine decided to sell certain securities in its available for sale portfolio. The sale of these securities in 2007 supports CIB Marine's asset-liability strategy of selling lower yielding assets and purchasing higher yielding assets. A portion of the proceeds were used to pay down certain short-term liabilities incurred as a result of the sale of branches and the purchase of a pool of home equity loans in 2007. As a result of the 2007 sale of securities, CIB Marine determined the full value of those certain securities would not be fully recovered and, accordingly, recognized an other-than-temporary impairment loss of \$2.0 million and \$1.1 million on these securities during 2005 and 2006, respectively.

### **FHLB Stock Investment**

In September, 2007, the FHLB Chicago filed a Form 8-K with the SEC regarding the receipt of a draft consent cease and desist order from its regulator, the Federal Housing Finance Board ("Finance Board"). The draft order includes a prohibition, unless otherwise approved by the Director of the Office of Supervision of the Finance Board ("OS Director"), of capital stock repurchase and redemptions by the FHLB from its members, including redemptions upon membership withdrawal or termination. The FHLB states that the draft order contemplates that the OS Director may approve proposed redemptions, provided that allowing the redemption would be consistent with maintaining the capital adequacy of the FHLB. The draft order also proposes that dividend declarations would be subject to the prior written approval of the OS Director. As of September 30, 2007, CIB Marine had \$11.5 million in FHLB Chicago stock, of which \$1.7 million was categorized as required.

### **Loan Pool Purchase**

In February 2007, CIB Marine purchased a closed end pool of fixed rate second lien home equity loans from Residential Funding Corporation, a division of General Motors Acceptance Corporation, in the amount of \$48.2 million. The purchase was funded with cash on hand and \$15.0 million in FHLB Chicago borrowings. The purchased pool included 965 loans with a weighted average yield of 9.98%, term to maturity of 17.5 years, loan-to-value ratio of 94%, borrower debt service-to-income ratios of 40% and FICO score of 709. The majority of the loans in the purchased pools are not considered to be loans to subprime borrowers. CIB Marine hired an outside consulting firm with experience in home equity loan pool purchases to assist it in selecting the selling company and in the due diligence process performed on a sample of the purchased loans. CIB Marine continues to look at alternative investments including possible further loan purchases in an effort to increase both the balances of loans outstanding and the yield on its interest-earning assets.

In the third quarter of 2007 CIB Marine increased the loss provision rates on the two home equity pools it purchased during 2006 and 2007 primarily due to the general deterioration in the condition of the housing markets and the housing finance markets.

---

## **Table of Contents**

### **Branch Activities**

CIB Marine had 30 branches as of December 31, 2006 holding \$0.8 billion in deposits.

During the first nine months of 2007, Marine-Wisconsin sold its Cedarburg and Brookfield, Wisconsin branches, resulting in a total net gain on the sales of \$1.1 million. The branches had \$49.7 million in deposits at the time of sales. Additionally, CIB Marine closed the Henderson, Nevada; Sun City, Arizona; and Indianapolis (Fox Road), Indiana branches and received regulatory approval to close the Milwaukee, Wisconsin branch. At December 31, 2006, these four branches had total deposits of \$46.7 million. Deposits of closed branches are transferred to other CIB Marine branches.

### **Goodwill**

The balance of CIB Marine's goodwill at December 31, 2006 is a result of prior branch acquisitions and related to a branch that was sold in the first quarter of 2007. As a result of the branch sale during the first quarter of 2007, CIB Marine had no goodwill at September 30, 2007.

### **FDIC Deposit Insurance Premiums**

In October 2006, the FDIC Board of Directors approved a One-Time Assessment Credit. This credit, totaling \$0.6 million for CIB Marine's subsidiary banks, will be recorded as a credit against regular FDIC insurance premium expense beginning in January 2007 and continue until the credit is exhausted. Of the \$0.6 million, an estimated \$0.2 million will be used to offset the FDIC insurance premium during 2007.

### **Stock Options**

As a result of the reduction in force program, resignations and other management and Board of Directors changes during 2007, 102,632 shares of previously granted stock options lapsed and/or were surrendered and became available for future grants under CIB Marine's 1999 Stock Option and Incentive Plan. In May 2007, 74,000 options were granted at an exercise price of \$4.10 per share. As of September 30, 2007, there were 1,146,689 options outstanding with a weighted average exercise price of \$7.89.

### **Late Filing of Tax Returns**

CIB Marine did not file all required federal and state tax returns for calendar years 2004, 2005 and 2006 by the required due dates. The 2004 federal return was subsequently filed in February 2007 and the state returns were filed during the second quarter of 2007. CIB Marine is in the process of completing the 2005 tax returns. Upon conclusion of the audit of the financial statements for 2006 and the filing of the related Form 10-K and Form 10-Q's with the SEC, CIB Marine intends to complete and file the 2006 tax returns. Although CIB Marine does not anticipate taxable income during these periods, penalties and interest may still be assessed by the Internal Revenue Service and/or applicable state departments of revenue.

## **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

CIB Marine's primary market risk exposure is from interest rate risk. Net interest income and the estimated market value of CIB Marine's assets and liabilities are vulnerable to changes in interest rates. Other market risks exist to a lesser degree, including foreign currency exchange rate risk and equity price risk. Commodity price risk does not normally arise in the course of CIB Marine's business.

CIB Marine's Board of Directors has overall responsibility for its interest rate risk management policies. CIB Marine sets policy limits for interest rate risk to be assumed in the normal course of business. CIB Marine's market risk policy has the general objective of maintaining a low level of earnings volatility due to interest rate risk and to protect CIB Marine from the impact that changes in interest rates have on net interest income. CIB Marine uses gap analysis and earnings simulations to measure interest rate risk.

## Table of Contents

CIB Marine's Asset-Liability Management Committee monitors, at least quarterly, the interest rate risk measurements for compliance with policy limits. If the derived interest rate risk measurements are outside of the policy limits, management may implement a variety of strategies to reduce the risk. CIB Marine strives to use the most effective instruments for implementing its interest rate risk management strategies, considering the costs, liquidity impact and capital requirements of the various alternatives. The implementation strategies usually involve altering the market risk characteristics of new funding liabilities, and may also include the use of derivative instruments and the altering of the market risk characteristics of groups of interest rate sensitive assets such as the repositioning of marketable securities.

The gap analysis as of December 31, 2006, is shown in the following table and represents the contractual reprice risk positions of CIB Marine. The gap analysis does not represent basis, yield curve or option risk. The table shows interest rate sensitive assets and liabilities and the difference between them within each time interval. In this analysis the contractual repricing interest rate sensitivity position is balanced when an equal amount of interest-earning assets and interest-bearing liabilities reprice during a given time interval. Excess interest rate sensitive assets or liabilities repricing in a given time period results in the interest sensitivity gap shown in the table. A positive or asset-sensitive gap indicates that more interest-earning assets than interest-bearing liabilities will reprice in a given time period, while a negative or liability-sensitive gap indicates that more interest-bearing liabilities than interest-earning assets will reprice in a given time period.

### Repricing Interest Rate Sensitivity Analysis

	December 31, 2006						Total
	0-3 Months	4-6 Months	7-12 Months	2-5 Years (Dollars in thousands)	Over 5 Years	Held for sale/disposal	
<b>Interest-earning assets:</b>

Junior subordinated debentures	20,619	—	—	41,238	—	—	61,857
<b>Total interest-bearing liabilities</b>	<b>408,705</b>	<b>100,712</b>	<b>123,471</b>	<b>166,615</b>	<b>4,708</b>	<b>(54,658)</b>	<b>749,553</b>
Interest sensitivity gap (by period)	\$ (39,088)	\$ (57,192)	\$ (17,475)	\$ 204,015	\$ 64,623	\$ 54,558	\$ 209,441
Interest sensitivity gap (cumulative)	(39,088)	(96,280)	(113,755)	90,260	154,803	209,361	209,441
<b>Adjusted for derivatives</b>							
Derivatives (notional, by period)	(4,225)	—	—	5,000	(775)	—	—
Derivatives (notional, cumulative)	(4,225)	(4,225)	(4,225)	775	—	—	—
Interest sensitivity gap (by period)	(43,313)	(57,192)	(17,475)	209,015	63,848	54,558	209,441
Interest sensitivity gap (cumulative)	(43,313)	(100,505)	(117,980)	91,035	154,803	209,441	209,441
<b>Cumulative gap as a % of total assets</b>	<b>(4.34)%</b>	<b>(10.07)%</b>	<b>(11.83)%</b>	<b>9.13%</b>	<b>15.52%</b>	<b>21.00%</b>	

The financial instruments are shown to reprice at the earlier of their principal repayment date due to maturity, amortization, or prepayment in a stable rate environment or their next contractual reprice. In the gap analysis, nonmaturing interest-earning assets and interest-bearing liabilities are shown to reprice at the next contractual reprice date and the Collateralized Mortgage Obligations and the Real Estate Mortgage Investment Conduits that are a part of the investment securities are shown to reprice in those periods in which they are expected to repay.

The table indicates that CIB Marine has a negative cumulative gap at one year and a positive cumulative gap in time periods exceeding one year. With a positive gap, an increase in interest rates will generally have a positive effect on the net interest income, and a decrease in interest rates will generally have a negative effect on net interest income. With a negative gap, a decrease in interest rates will generally have a positive effect on the net interest income, and an increase in interest rates will generally have a negative effect on net interest income.

While this repricing interest rate sensitivity analysis is a widely used measure of interest rate risk and may be used as an indication of interest margin direction, it does not fully reflect the effects given to interest rate risks other than repricing risk, such as option, basis and yield curve risks. For these reasons, CIB Marine also performs interest rate sensitivity analyses using earnings simulation models. These analyses measure the estimated percentage change

## Table of Contents

in net interest income due to changes in interest rates. CIB Marine derives results for selected hypothetical changes in interest rates over a selected period of time, usually one year.

The following table illustrates the expected percentage change in net interest income over a one year period due to an immediate change in the short-term U.S. prime rate of interest as of December 31, 2006 and 2005.

Net interest income change over one year	Basis Point Changes			
	+200	+100	-100	-200
December 31, 2006	(5.78)%	(4.31)%	2.23%	0.67%
December 31, 2005	1.48%	(1.14)%	(1.32)%	(5.27)%

The analysis reveals a liability sensitive interest rate risk position for the one year horizon at December 31, 2006 and an asset sensitive position at December 31, 2005. CIB Marine has increased the average life of its assets and decreased the average life of its certificates of deposit to change the interest rate risk position over the prior year.

CIB Marine monitors the models on an ongoing basis to ensure the assumptions most accurately reflect the current conditions. The balance sheet financial instruments included in the gap and simulation models include loans, investment securities, federal funds sold, time deposits, saving deposits, interest-bearing demand deposits, federal funds purchased, securities sold under agreements to repurchase and other borrowings. Some of the options accounted for in the simulation analysis include call options in U.S. Government Sponsored Enterprise issued investment securities, embedded call options in U.S. Government Sponsored Enterprise issued Collateralized Mortgage Obligations, Real Estate Mortgage Investment Conduits, fixed rate loans, loans with rate floors and put options in various borrowings.

In addition, the interest rate sensitivity analyses include derivative financial instruments, such as interest rate swaps and forward sale agreements. At December 31, 2006, the notional value of receive fixed/pay floating interest rate swaps was \$10.0 million and the notional value of pay fixed/receive floating interest rate swaps was \$5.7 million. The majority of CIB Marine's interest rate swaps are used to hedge the fair market value of various deposits and loans. These interest rate swaps effectively convert the fixed rates on the financial instruments to floating rates.

Some of the features of the financial instruments included in the model that are not reflected fully in the quantitative market risk disclosure information include call options in municipal bonds and U.S. Government Sponsored Enterprise issued structured notes.

The following assumptions were used in the earnings simulation model:

- The balance sheet size was assumed to remain constant;
- All maturing assets and liabilities were invested or deposited into similar financial or derivative instruments;
- Spreads to the benchmark interest rates for pricing new volume to replace maturing or paying older volumes were similar to spreads currently inherent in those financial instruments, except for marketable securities which reflects current market spreads;
- The interest rates of financial instruments with like terms were assumed to change by the same number of basis points except that the timing, magnitude, and direction of change of interest rates paid on nonmaturing savings and interest-bearing demand deposits were assumed to change in a way similar to that experienced in the past, which is less than perfectly correlated with the other interest rate changes. Current anticipated pricing strategies for nonmaturing deposits were also utilized.

The simulations of earnings do not incorporate any management actions that might change the response of net interest income to interest rate changes. Therefore, they may not reflect actual results.

Equity price risk exists as the result of various holdings of equity securities whose market value changes with changes in the market. Equity holdings include those traded on various exchanges and those that are not, the latter of which have limited liquidity. CIB Marine does not actively hedge its equity positions with derivatives to mitigate the risk of price movements in equity securities. Total equity security holdings of CIB Marine at December 31, 2006

---

## **Table of Contents**

includes \$1.4 million of private and public nonaffiliated firms, \$1.4 million in low income housing tax credit limited partnerships, \$0.6 million of Federal Reserve Bank stock, \$11.8 million of FHLB Chicago stock.

Foreign currency exchange rate risk arises through the sale of foreign currency forward contracts to customers of CIB Marine. CIB Marine hedges all such activity. At December 31, 2006 there were no contracts outstanding. Foreign currency exchange risk also arises through transactions denominated in foreign currencies at Cannon. CIB Marine does not hedge this activity.

---

**ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

**Report of Independent Registered Public Accounting Firm**

The Board of Directors  
CIB Marine Bancshares, Inc.:

We have audited the accompanying consolidated balance sheets of CIB Marine Bancshares, Inc. and its subsidiaries (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2006. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CIB Marine Bancshares, Inc. and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2006, in conformity with U. S. generally accepted accounting principles.

## **Table of Contents**

### **Notes to Consolidated Financial Statements**

#### **Note 1-Summary of Significant Accounting Policies**

##### **Nature of Operations**

CIB Marine Bancshares, Inc. (“CIB Marine”) is a bank holding company. References to “CIB Marine” include CIB Marine’s subsidiaries unless otherwise specified. The primary sources of revenue are providing loans to small and middle-market business customers and the investment in securities. CIB Marine also offers a competitive range of deposit and other financial products to its customers. Its offices and, generally, customers are located in the central Illinois, Milwaukee, Indianapolis, Phoenix, Las Vegas and southeast Florida markets. During the fourth quarter of 2004, CIB Marine sold CIB Bank (“CIB-Chicago”) which had banking facilities throughout the Chicago metropolitan area and had approximately \$1.2 billion in assets at the time of sale. Canron Corporation (“Canron”), an 84% owned subsidiary of CIB Construction, was a steel fabrication and erection company, which was acquired in 2002 as a result of collection activities. Since the third quarter of 2003, Canron has been in the process of voluntary liquidation.

The accounting and reporting policies of CIB Marine conform to U.S. generally accepted accounting principles.

##### **Consolidation**

The consolidated financial statements include the accounts of CIB Marine and its wholly-owned and majority-owned subsidiaries, including companies which are held for disposal. All significant intercompany balances and transactions have been eliminated. Minority interest in Canron is immaterial to the consolidated financial statements and is included in liabilities of companies held for disposal.

##### **Use of Estimates in the Preparation of Financial Statements**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates used in the preparation of the consolidated financial statements are based on various factors, including the current interest rate environment and the general strength of the local economy. Changes in these factors can significantly affect CIB Marine’s net interest income and the value of its recorded assets and liabilities.

##### **Cash Flows**

For purposes of presentation in the statements of cash flows, cash and cash equivalents are defined as those amounts included in the consolidated balance sheet captions “Cash and Due from Banks” and “Federal Funds Sold”, all of which mature within ninety days.

##### **Other Investments**

Investments in limited partnerships and other equity investments which are not readily marketable are accounted for using the equity method when CIB Marine’s ownership is at least 3% in a limited partnership and 20% in a corporation, but not more than 50%. Investments not accounted for under the equity method are accounted for using the cost method. All other investments are periodically evaluated for impairments. If an investment is impaired, a loss is recognized. To determine whether an investment is impaired CIB Marine looks to various indicators including recent transactions, if any, and the investee’s financial condition. During 2006, 2005, and 2004, CIB Marine recognized none, \$0.1 million and \$0.7 million, respectively, of impairment losses on other investments. If different assumptions or conditions were to prevail, the carrying value of these investments may need to be further reduced and a loss recorded or previously recognized losses reversed and a gain recorded. At December 31, 2006 and 2005, other investments totaled \$2.8 million and \$3.6 million, respectively, all of which are illiquid.

---

## **Table of Contents**

The equity method of accounting requires CIB Marine to record its proportionate share of income or loss as an increase or decrease in its investment and a corresponding gain or loss in noninterest income. Cash dividends or other distributions received by CIB Marine are recorded as reductions in the carrying amount of the investment.

### **Loans Held for Sale**

Loans held for sale are carried at the lower of cost or market value, determined on an individual basis. When a loan is sold or transferred to held for sale, the loan's carrying value is compared to its fair value and any shortfall in value that is determined to be credit related is recorded as a charge-off, reducing the allowance for loan losses. Any shortfall in fair value other than credit related is recorded as a charge to noninterest expense. All subsequent net declines in market value of loans held for sale are also recorded to noninterest expense.

### **Securities Available for Sale**

Available for sale securities consist of equity securities, bonds, notes and other debt securities not classified as held to maturity securities or trading securities. Available for sale securities are carried at fair value with unrealized net gains and losses reported in other comprehensive income in stockholders' equity. Realized gains and losses on the sale of available for sale securities and declines in value which are judged to be other-than-temporary are recorded in noninterest income or expense as appropriate. The cost of securities sold is based on the specific identification method.

The amortized cost of securities is adjusted for amortization of premiums and accretion of discounts over the estimated remaining life of the security. Such amortization is calculated using the level-yield method, adjusted for prepayments, and is included in interest income from investments.

### **Loans, Allowance for Loan Losses and Provision for Credit Losses**

Loans that management has the intent and ability to hold to maturity for the foreseeable future are carried at the amount of unpaid principal, increased by costs to originate loans and premiums paid on purchased loans and reduced by net deferred fees and an allowance for loan losses. The accrual of interest on loans is generally discontinued when a loan becomes ninety days or more delinquent in accordance with the loan's contractual terms unless the credit is well secured and in process of collection. Loans are placed on nonaccrual or charged-off at an earlier date if collection of principal or interest is considered by management to be doubtful. Unpaid interest that has previously been recorded as income is written off against interest income when a loan is placed on nonaccrual. Interest on loans is calculated by using the simple interest method on daily balances of the principal amount outstanding. Interest payments received on loans which are on nonaccrual are generally applied to reduce the loan principal. Loans are returned to accrual status once a borrower has demonstrated repayment performance on the contractual schedule for a period of six consecutive months and the expectation is that contractual payments will continue to be made during the remaining term of the loan.

The allowance for loan losses is established through a provision for loan losses charged to expense. Loans are charged against the allowance when management believes that the collectibility of the principal amount is unlikely and where loans are sold at less than their outstanding principal balances. Recoveries of amounts previously charged-off are credited to the allowance.

The provision for loan losses is included in the provision for credit losses in the statements of operations. Also included in the provision for credit losses is the expense for probable losses on unfunded loan commitments and standby letters of credit. Estimated losses on unfunded loan commitments and standby letters of credit are accrued and included in other liabilities.

Management periodically reviews the loan portfolio in order to establish an allowance for loan losses that are probable at the reporting date. The allowance for loan losses is based on management's evaluation of individual loans and the entire loan portfolio, including such factors as the volume and character of loans outstanding, the relationship of the allowance for loan losses to outstanding loans, past loan loss experience, the expected loan repayments, estimated value of any underlying collateral on individual loans and general economic conditions.

---

## **Table of Contents**

Management believes that the allowance for loan losses contained in these financial statements was adequate at December 31, 2006 and 2005. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in the loan portfolio and/or in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review CIB Marine's allowance for loan losses. Such agencies may require CIB Marine to recognize additions to the allowance based on their judgments about information available to them at the time of their examination.

A loan is considered impaired when, based on current information and events, it is probable that CIB Marine will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment records and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent. Cash collections on impaired loans which are individually evaluated are credited to the loan receivable balance and no interest income is recognized on those loans until the loan is no longer considered impaired.

Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, CIB Marine does not separately identify individual consumer and residential loans for impairment.

Loan origination fees are deferred and certain direct origination costs are capitalized. The amounts deferred and capitalized as well as premiums on purchased loans are included in the carrying amount of the loans and amortized over the estimated life of the loans as an adjustment of the yield of the related loan. Amortization of deferred loan fees and costs ceases when a loan is placed on nonaccrual. Fees for loans sold and other loan fees are included in the net gain or loss recognized on the sale.

### **Goodwill**

Goodwill resulted from the acquisition of companies or assets. Fair values have been determined by examining stock prices of publicly traded financial institutions with similar performance characteristics as the reporting units and discounted cash flow models. Where market prices are not available and the reporting unit is held for disposal, third party valuations or anticipated offer values are used. Goodwill is not amortized, but is evaluated for impairment annually, or more frequently if events or changes in circumstances indicate that the asset may be impaired. Prior to 2002, goodwill was amortized on a straight-line basis over 15 years. As a result of a branch sale in the first quarter of 2007, CIB Marine has no goodwill at September 30, 2007. See the subsequent events note for further information.

### **Premises and Equipment**

Land is carried at cost. Premises and equipment are carried at cost less accumulated depreciation computed primarily using the straight-line method. Maintenance and repairs are charged to expense as incurred, while renewals and betterments are capitalized. Estimated useful lives of the assets are 39 years for buildings and 3 to 10 years for furniture and equipment. Leasehold improvements included in premises and equipment are amortized over the shorter of the useful life of the improvements or the term of the lease. Rent expense on noncancellable leases is accrued on the straight-line basis over the term of the lease based upon minimum rents.

### **Foreclosed Properties**

Foreclosed properties include other real estate ("ORE") assets that have been received in satisfaction of debt. ORE is initially recorded and subsequently carried at the lower of cost or fair value less estimated selling costs. Any valuation adjustments required at the date of transfer to ORE are charged to the allowance for loan losses. Subsequently, operating results from ORE, reductions in value of the foreclosed property and realized gains and losses on sale are recorded in noninterest income or noninterest expense as appropriate.

## Table of Contents

### **Assets of Companies Held For Disposal**

Assets held for disposal include the remaining assets of Mortgage Services, Inc. (“MSI”), MICR and Cannon. MICR and Cannon were acquired in full or partial satisfaction of loans. These assets are carried at the lower of cost or current fair value, less estimated selling costs. Thereafter, the aggregate assets and liabilities are shown as separate categories on the consolidated balance sheets. When these assets are acquired in full or partial satisfaction of a loan, any excess of the related loan balance over the fair value, less estimated selling cost, is charged as a loan loss against the allowance for loan losses. Net operating income or loss of the companies held for disposal and which meet the criteria as discontinued operations are included in gain or loss from discontinued operations. Once a decision is made to cease operations and liquidate the company, CIB Marine discontinues recording any future operating results of the company and records an impairment value, if any, based on the estimated liquidation value of the company’s net assets less costs to sell. The impairment loss is recorded as loss from discontinued operations.

### **Litigation Contingency**

Pursuant to FASB Statement of Financial Accounting Standards No. 5, “Accounting for Contingencies” CIB Marine accrues for loss contingencies associated with outstanding litigation for which management has determined that a loss contingency exists and the amount of such loss can be reasonably estimated. Noninterest expense for 2006 included a \$1.8 million loss contingency. There were no provisions for loss contingencies in 2005 or 2004. Legal fees incurred in the defense of the litigation are recognized as incurred.

### **Stock-Based Compensation**

In December 2004, FASB issued Statement of Financial Accounting Standards No. 123 (revised 2004) (“SFAS No. 123 (R)”), “Share-Based Payments,” which is a revision of SFAS No. 123, “Accounting for Stock-Based Compensation.” SFAS No. 123 (R) supersedes APB Opinion No. 25, “Accounting for Stock Issued to Employees,” and amends SFAS No. 95, “Statement of Cash Flows.” A key provision of SFAS No. 123 (R) requires public companies to adopt Statement 123’s fair-value method of accounting for stock options. Under this method, the cost of employee services received in exchange for equity instruments is measured based on the grant-date fair value of these instruments. The cost is recognized over the requisite service period. SFAS No. 123 (R) applies to all awards granted after the required effective date and to awards modified, repurchased, or cancelled after that date. Pro forma disclosure for grants after 2005 is no longer an alternative. Prior to January 1, 2006, CIB Marine accounted for stock options using the intrinsic value method. Under the intrinsic value method compensation expense for employee stock options was generally not recognized if the exercise price of the option equaled or exceeded the fair market value of the stock on the date of grant. Therefore, no compensation expense was recognized in the consolidated statements of income for the years ended December 31, 2005 and 2004. On January 1, 2006, CIB Marine adopted SFAS No 123(R) using the modified-prospective method for grants issued subsequent to CIB Marine meeting the definition of a public entity as defined in SFAS No 123(R) and the prospective method for grants issued prior to CIB Marine meeting that definition. For those grants accounted for under the prospective method, SFAS 123(R) must only be applied to the extent that those awards are subsequently modified, repurchased or cancelled. For those grants accounted for under the modified prospective method, compensation cost recognized during 2006 includes compensation cost for these stock options granted prior to but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all stock options granted subsequent to January 1, 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). Results for prior periods have not been restated. Fair value has been estimated using the Black-Scholes model as defined in SFAS 123.

The following assumptions were used in estimating the fair value for options granted in 2006 and 2005:

	December 31,		
	2006	2005	2004
Dividend yield	—	—	NA
Risk free interest rate	4.63%	4.25%	NA
Expected volatility	40%	48%	NA
Weighted average expected life	6.5 years	6.5 years	NA
Weighted average per share fair value of options	\$ 0.76	\$ 1.47	NA

The adoption of SFAS No. 123 (R)’s fair value method resulted in \$0.1 million of compensation expense for 2006. In accordance with SFAS No. 123 (R), CIB Marine is required to estimate potential forfeitures of stock grants and adjust compensation expense recorded accordingly. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized in the period of change and will also impact the amount of stock compensation expense to be recorded in future periods. At December 31, 2006, CIB Marine had \$0.6 million of total unrecognized compensation cost related to nonvested stock options. That cost is expected to be recognized over a weighted-average period of 4.3 years.

SFAS No. 123 (R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow rather than an operating cash flow as required under previous literature. There were no such tax benefits in 2006.

For 2005, had compensation expense for these plans been determined based on the fair value method at the grant dates for awards under those plans consistent with the methodology in SFAS 123, CIB Marine's net loss and loss per share would have been the pro forma amounts indicated below:

## Table of Contents

		<u>December 31,</u> <u>2005</u>
		<u>(Dollars in thousands,</u> <u>except share data)</u>
Net loss	As reported	\$ (11,661)
	Assumed compensation cost	(35)
	Pro forma	<u>\$ (11,696)</u>
Basic loss per share	As reported	\$ (0.64)
	Pro forma	(0.64)
Diluted loss per share	As reported	\$ (0.64)
	Pro forma	(0.64)

CIB Marine records amounts received upon the exercise of options by crediting common stock and capital surplus. Income tax benefits from the exercise of stock options result in a decrease in current income taxes payable and, to the extent not previously recognized as a reduction in income tax expense, result in an additional increase in capital surplus.

### Advertising Expense

Advertising costs are charged to expense as incurred. Advertising expenses of continuing operations, included in noninterest expense, totaled \$0.7 million, \$1.1 million and \$0.7 million for the years ended December 31, 2006, 2005 and 2004, respectively.

### Receivables from Sale of Stock

Loans originated by CIB Marine's subsidiary banks to purchase CIB Marine stock are accounted for as a reduction in stockholders' equity and are reported in a contra-equity account titled "Receivables From Sale of Stock," unless the loan has been repaid prior to the issuance of the financial statements or the loan has been adequately collateralized, exclusive of the value of CIB Marine stock pledged as collateral, if any.

### Income Taxes

Deferred income taxes are provided for temporary differences between the amounts reported for assets and liabilities for financial statement purposes and their tax basis. Deferred tax assets are recognized for temporary differences that are expected to be deductible in future years' tax returns and for operating loss and tax credit carryforwards. Deferred tax assets are reduced by a valuation allowance through a charge to income tax expense when, in the opinion of management, it is deemed more likely than not that some or all of the deferred tax assets will not be realized. Deferred tax liabilities are recognized for temporary differences that will be taxable in future years' tax returns.

CIB Marine and its subsidiaries file unitary, combined and separate state tax returns where required. Canon files its own Canadian and provincial income tax returns. Canon's Canadian, U.S. federal, state and provincial income taxes are included in discontinued operations. CIB Marine has entered into tax allocation agreements with its subsidiary entities included in the consolidated U.S. federal and unitary or combined state income tax returns, including U.S. operations of companies held for sale or disposal. These agreements govern the timing and amount of income tax payments required by the various entities.

Deferred tax assets and liabilities are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through income tax expense (benefit).

---

## **Table of Contents**

### **Business Segments**

An operating segment is defined as a component of an enterprise that engages in business activities that generate revenue and incur expense. A segment is further defined as a component whose operating results are reviewed by the chief operating decision maker in the determination of resource allocation and performance, and for which discrete financial information is available.

At December 31, 2006, CIB Marine determined it had one reportable continuing business segment. CIB Marine, through the bank branch network of its subsidiaries, provides a broad range of financial services to companies and individuals in Illinois, Wisconsin, Indiana, Florida, Arizona, and Nevada. These services include commercial and retail lending and accepting deposits. While CIB Marine's chief operating decision maker monitors the revenue streams of the various products and services, operations in all areas are managed, and financial performance is evaluated, on a corporate-wide basis.

### **Earnings Per Common Share**

Basic earnings per common share is computed by dividing net income or loss by the weighted average number of shares outstanding during the periods. Diluted earnings per common share is computed by dividing net income or loss by the weighted average number of common shares adjusted for the dilutive effect of outstanding stock options. The dilutive effect of outstanding stock options, if any, is computed using the treasury stock method. Stock options deemed antidilutive are not included in the earnings per share calculation.

### **Foreign Currency Translation**

Canron had operations in the United States, Canada and Mexico at the time of acquisition. As of December 31, 2006, operations in the United States, Canada and Mexico had been sold. The remaining assets and liabilities in the United States and Canada are in the process of liquidation. See Note 7-Companies Held for Disposal and Discontinued Operations for further information.

Canron uses the local currency, primarily Canadian Dollars, as their functional currency. Assets and liabilities are translated at exchange rates in effect at the balance sheet date. Net exchange gains or losses resulting from the translation of financial statements of foreign operations are recorded as a separate component of accumulated other comprehensive income within stockholders' equity. The effect of foreign currency remeasurement and changes in exchange rates are recorded in the cost of contract revenue as it is expensed against the contract as incurred.

### **Derivative and Hedging Activities**

CIB Marine uses certain derivative financial instruments to help manage its risk or exposure to changes in interest rates and in conjunction with its mortgage banking operations. Effective January 1, 2001, CIB Marine adopted SFAS 133, as amended by SFAS 138 and SFAS 149, which established new rules for the recognition and measurement of derivatives and hedging activities.

Under SFAS 133, all derivatives are recognized on the balance sheet at their fair value. On the date a derivative contract is entered into, CIB Marine designates the derivative as either (1) a hedge of the fair value of a recognized asset or liability or of an unrecognized firm commitment ("Fair-Value Hedge"), (2) a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability ("Cash-Flow Hedge"), (3) a foreign currency, fair value or cash-flow hedge ("Foreign-Currency Hedge"), (4) a hedge of a net investment in a foreign operation, or (5) held for trading ("Trading Instruments"). Changes in the fair value of a derivative that is highly effective as, and that is designated and qualifies as, a Fair-Value Hedge, along with the loss or gain on the corresponding hedged asset or liability (including losses or gains on firm commitments), are recorded in current period earnings. Changes in the fair value of a derivative that is highly effective as, and that is designated and qualifies as, a Cash-Flow Hedge are recorded in other comprehensive income until earnings are affected by the variability of cash flows (e.g., when periodic settlements on a variable rate asset or liability are recorded in earnings). Changes in the fair value of derivatives that are highly effective as, and that are designated and qualify as, Foreign-Currency Hedges are recorded in either current period earnings or other comprehensive income, depending

---

## Table of Contents

on whether the hedge transaction meets the criteria for a Fair-Value Hedge or a Cash-Flow Hedge. If, however, a derivative is used as a hedge of a net investment in a foreign operation, its changes in fair value, to the extent effective as a hedge, is recorded in the cumulative translation adjustment account within equity. Changes in the fair value of derivative trading instruments are reported in current period earnings.

At the time the hedging instrument is entered into, CIB Marine formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as Fair-Value Hedges, Cash-Flow Hedges, or Foreign-Currency Hedges to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. CIB Marine formally assesses, for all hedges, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions will be or have been highly effective in offsetting changes in fair values or cash flows of hedged items and whether they are expected to continue to be highly effective in the future. When it is determined that a derivative is not highly effective as a hedge or that it has ceased to be a highly effective hedge, CIB Marine discontinues hedge accounting prospectively.

CIB Marine discontinues hedge accounting prospectively when (1) it is determined that the derivative is no longer effective in offsetting changes in the fair value or cash flows of a hedged item (including firm commitments or forecasted transactions); (2) the derivative expires or is sold, terminated, or exercised; (3) the derivative is designated as a hedge instrument because it is unlikely that a forecasted transaction will occur; (4) a hedged firm commitment no longer meets the definition of a firm commitment; or (5) management determines that designation of the derivative as a hedge instrument is no longer appropriate.

When hedge accounting is discontinued because it is determined that the derivative no longer qualifies as an effective Fair-Value Hedge, the derivative will continue to be carried on the balance sheet at its fair value, and the hedged asset or liability will no longer be adjusted for changes in fair value. When hedge accounting is discontinued because the hedged item no longer meets the definition of a firm commitment, the derivative will continue to be carried on the balance sheet at its fair value, and any asset or liability that was recorded pursuant to recognition of the firm commitment will be removed from the balance sheet and recognized as a gain or loss in current period earnings. When hedge accounting is discontinued because it is probable that a forecasted transaction will not occur, the derivative will continue to be carried on the balance sheet at its fair value, and gains and losses that were accumulated in other comprehensive income will be recognized immediately in earnings. In all other situations in which it is determined that a derivative is not highly effective as a hedge or when hedge accounting is discontinued, the derivative will be carried at its fair value on the balance sheet, with changes in its fair value recognized in current period earnings and the adjustment to the hedged asset or liability will be amortized to earnings over the remaining life of the hedged asset or liability.

CIB Marine uses interest rate swaps to hedge changes in the fair value of certain fixed rate deposits and certain loans attributable to changes in market interest rates. CIB Marine primarily engages in interest rate swaps that effectively convert the fixed rate financial instrument into a floating rate financial instrument. CIB Marine enters into these transactions to provide a floating rate asset or liability whose rate is highly correlated with the index rate off which the floating rate is paid in the interest rate swap. CIB Marine generally enters into swap agreements with nationally recognized securities firms and monitors the credit status of counterparties and the level of collateral for such swaps.

CIB Marine's mortgage banking activities include the issuance of rate lock commitments for residential mortgage loans. When the loan is originated or purchased it is recorded as a residential mortgage loan held for sale. The interest rate lock commitments and the residential mortgage loans held for sale are hedged with either conditional forward contracts or best efforts contracts and forward settling to-be-announced mortgage securities contracts. A hedging relationship is established between the interest rate lock commitments and the residential mortgage loans held for sale and a Fair-Value Hedge is designated under SFAS 133. CIB Marine is in a short position with respect to the forward contracts, whereby CIB Marine agrees to sell residential mortgage loans held for sale at a pre-established price at some future date, and in a long position with the residential mortgage loans held for sale. The hedging relationship is highly effective as it minimizes the effect of changes in the fair value of the residential mortgage loans held for sale due to interest rate changes. The notional amount of forward contracts outstanding varies and is a function of the current balance of residential mortgage loans held for sale and commitments to extend mortgage loans to be held for sale. CIB Marine generally enters into various mortgage

## Table of Contents

forward contracts with nationally recognized banks and securities firms and monitors the credit status of counterparties and the level of collateral for such swaps.

In addition, CIB Marine has various agreements arising out of certain credit relationships under which it may earn other forms of contingent loan fees in addition to interest. The contingent loan fee is typically based upon, or determined by, the financial performance of the borrower or as payment for credit services.

### Note 2-Cash and Due from Banks

Reserves in the form of deposits with the Federal Reserve Bank and vault cash totaling \$8.8 million and \$10.9 million were maintained to satisfy federal regulatory requirements as of December 31, 2006 and 2005, respectively. These amounts are included in cash and due from banks in the consolidated balance sheets.

### Note 3-Securities

The amortized cost, gross unrealized gains and losses, and approximate fair values of securities at December 31, 2006 and 2005 are as follows:

	<u>Amortized Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
	(Dollars in thousands)			
<b>December 31, 2006</b>

Total securities	<u>\$496,844</u>	<u>\$ 437</u>	<u>\$ 3,872</u>	<u>\$493,409</u>

As members of the Federal Reserve System and the Federal Home Loan Bank, certain of CIB Marine's subsidiary banks are required to maintain minimum amounts of Federal Reserve stock and Federal Home Loan Bank stock as required by those institutions. These securities are "restricted" in that they are not publicly traded, can only be owned by members of the institutions and can only be sold back to the institutions. Sales, if any, of these securities would result in no gain or loss. In 2005, the FHLB Chicago Board disclosed its decision to discontinue redemption of excess, or voluntary capital stock. Voluntary stock is stock held by members beyond the amount required as a condition of membership or to support advance borrowings. In April 2006, the FHLB Chicago announced plans to facilitate limited stock redemption requests from its members by issuing bonds. During 2006, CIB Marine sold back \$14.3 million or 55.6% of its holdings. As of December 31, 2006, CIB Marine had \$11.5 million in FHLB Chicago stock, of which \$0.6 million was categorized as required. In September 2007, the FHLB-Chicago notified its members it had received a draft consent cease and desist order from its regulator, the Federal Housing Finance Board. The draft order includes a prohibition, unless otherwise approved by its regulators of capital stock repurchase and redemptions by the FHLB Chicago from its members. See Note 25-Subsequent Events for further information.

## Table of Contents

Securities available for sale with a carrying value of \$140.9 million and \$161.5 million at December 31, 2006 and 2005, respectively, were pledged to secure public deposits, Federal Home Loan Bank advances, repurchase agreements and for other purposes as required or permitted by law.

The amortized cost and fair value of securities as of December 31, 2006, by contractual maturity, are shown below. Certain securities, other than mortgage-backed securities, may be called earlier than their maturity date. Expected maturities may differ from contractual maturities in mortgage-backed securities, because certain mortgages may be prepaid without penalties. Therefore, mortgage-backed securities are not included in the maturity categories in the following contractual maturity schedule.

	Amortized Cost	Fair Value
	(Dollars in thousands)	
Due in one year or less	\$ 38,061	\$ 37,749
Due after one year through five years	69,836	69,805
Due after five years through ten years	11,957	11,715
Due after ten years	18,268	18,112
	138,122	137,381
Mortgage-backed securities	194,854	193,710
Asset-backed securities	2,192	2,197
Total securities available for sale	335,168	333,288
Federal Home Loan Bank and Federal Reserve Bank stock at cost	12,314	12,314
	<u>\$347,482</u>	<u>\$345,602</u>

The following tables represent gross unrealized losses and the related fair value of securities aggregated by investment category and length of time individual securities have been in a continuous unrealized loss position at December 31, 2006 and December 31, 2005:

	At December 31, 2006					
	Less than 12 months in an unrealized loss position		12 months or longer in an unrealized loss position		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses

Securities without unrealized losses					102,539	
Total securities					<u>\$493,409</u>	

## Table of Contents

As of December 31, 2006, management has concluded that the unrealized losses above are temporary in nature since they are primarily related to market interest rates and are not related to the underlying credit quality of the issuers of securities in our investment portfolio. Additionally, CIB Marine has the intent and ability to hold these investments for the time necessary to recover the amortized cost. As of December 31, 2006, CIB Marine had 186 securities in an unrealized loss position.

During the first quarter of 2007, CIB Marine decided to sell certain securities in its available for sale portfolio. The sale of these securities in 2007 supports CIB Marine's asset-liability strategy of selling lower yielding assets and purchasing higher yielding assets. A portion of the proceeds were also used to pay down certain short-term liabilities incurred as a result of the sale of branches and the purchase of a pool of home equity loans in 2007. As a result of the 2007 sale of securities, CIB Marine determined the full value of those certain securities would not be fully recovered and, accordingly, recognized an other-than-temporary impairment loss of \$1.1 million and \$2.0 million on these securities during 2006 and 2005, respectively. This impairment loss is included in impairment loss on investment securities on the consolidated statements of operations and is reflected in the carrying value of these loss securities on the consolidated balance sheets for 2006 and 2005.

There were no sales of securities during 2006 or 2004. Proceeds from the sale of securities during 2005 were \$21.0 million, and net realized gain on the sale of these securities was \$0.4 million.

### Note 4-Loans and Allowance for Loan Losses

#### Loans

The components of loans were as follows:

	December 31,			
	2006		2005	
	Amount	% of Total	Amount	% of Total
	(Dollars in thousands)			
Commercial	\$ 49,777	9.5%	\$ 69,048	13.4%
Commercial real estate	282,233	54.0	323,384	62.6
Commercial real estate construction	111,040	21.3	89,313	17.3
Residential real estate	19,125	3.7	19,925	3.9
Home equity loans	57,990	11.1	12,603	2.4
Consumer loans	2,363	0.4	2,179	0.4
Receivables from sale of CIB Marine stock	(151)	(0.0)	(202)	(0.0)
Gross loans	522,377	100.0%	516,250	100.0%
Deferred loan fees	247		(706)	
Loans	522,624		515,544	
Allowance for loan losses	(20,906)		(24,882)	
Loans, net	<u>\$501,718</u>		<u>\$490,662</u>	

During 2005 and 2004, CIB Marine transferred to loans held for sale, and subsequently sold, a limited amount of portfolio loans as part of its loan work-out and restructuring strategy. The loans sold in 2005 were commercial real estate and commercial construction loans and the loans sold in 2004 were loans held by its mezzanine lending company, CIB Marine Capital. At the time of sale, the carrying values of the loans sold were \$24.6 million, and \$3.7 million in 2005 and 2004, respectively. A loss of \$1.7 million and \$0.6 million was recognized on the sales of these loans during 2005 and 2004, respectively, and is included in write down and losses on assets in the statement of operations. There were no portfolio loans transferred to loans held for sale during 2006.

The following table lists information on nonperforming and certain past due loans:

## Table of Contents

	December 31,	
	2006	2005
	(Dollars in thousands)	
Nonaccrual loans	\$20,669	\$29,105
Restructured loans	—	1,486
Loans 90 days or more past due and still accruing	1,485	11,542

Information on impaired loans is as follows:

	December 31,	
	2006	2005
	(Dollars in thousands)	
Impaired loans without a specific allowance	\$ 5,543	\$ 10,511
Impaired loans with a specific allowance	14,380	18,349
Total impaired loans	<u>\$ 19,923</u>	<u>\$ 28,860</u>
Specific allowance related to impaired loans	\$ 7,451	\$ 8,562
Average balance of impaired loans	22,310	31,375
Cash basis interest on impaired loans	\$ 379	\$ 461

During 2006, 2005 and 2004, respectively, CIB Marine recognized net losses on the sale and impairment of foreclosed property of \$0.2 thousand, \$0.1 million and \$2.0 million. Of these amounts, \$0.2 thousand, \$0.04 million and \$0.6 million, respectively is included in write down and losses on assets and none, \$0.06 million and \$1.4 million is included in loss from discontinued operations.

During the second quarter of 2006, CIB Marine purchased a \$47.8 million pool of fixed rate second lien home equity loans from Residential Funding Corporation, a division of General Motors Acceptance Corporation. The purchased pool consisted of 989 loans with a weighted average yield of 9.5%, term to maturity of 17.3 years, loan-to-value ratio of 91%, borrower debt service-to-income ratios of 39% and FICO score of 713.

Mortgage loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of mortgage loans serviced for others were \$2.2 million and \$2.8 million as of December 31, 2006 and 2005, respectively.

At December 31, 2006 and 2005, CIB Marine had \$1.7 million and \$1.9 million, respectively in outstanding principal balances on loans secured, or partially secured, by CIB Marine stock. Specific reserves on these loans were \$0.01 million at both December 31, 2006 and 2005. Loans made specifically to enable the borrower to purchase CIB Marine stock and which are not adequately secured by collateral other than the stock have been classified as receivables from sale of stock and recorded as contra-equity and are not included in this balance.

### Credit Concentrations

At December 31, 2006, CIB Marine had one secured borrowing relationship (loans to one borrower or a related group of borrowers) that exceeded 25% of stockholders' equity. At December 31, 2006, the total outstanding commitments on this borrowing relationship, including lines of credit not fully drawn, was equal to 25.8% of equity and 3.5% of total loans, and the principal drawn and outstanding was \$3.1 million. As of December 31, 2006 all loans within this borrowing relationship are current. At December 31, 2005, CIB Marine also had one borrowing relationship that exceeded 25% of stockholders' equity. At December 31, 2005, the total outstanding commitments on this borrowing relationship to a commercial general contractor, including lines of credit not fully drawn, were equal to 25.1% of equity and 3.9% of total loans, and the principal drawn and outstanding was \$12.6 million.

At December 31, 2006, CIB Marine also had credit relationships within six industries or industry groups with loans outstanding in excess of 25% of stockholders' equity:

## Table of Contents

INDUSTRY	Outstanding Balance (Dollars in millions)	% of Loans	% of Stockholders' Equity
Commercial Real Estate Developers	\$143.2	27%	200%
Residential Real Estate Developers	112.3	22	157
Motel and Hotel	40.1	8	56
Nursing/Convalescent Homes	28.7	6	40
Retail Trade	22.6	4	32
Health Care Facilities	20.9	4	29

### Allowance for Loan Losses

Changes in the allowance for loan losses were as follows:

	For the Years Ended December 31,		
	2006	2005	2004
	(Dollars in thousands)		
Balance at beginning of year	\$24,882	\$29,551	\$109,872
Charge-offs	(622)	(3,911)	(79,979)
Recoveries	1,030	7,911	8,554
Net loan (charge-offs) recoveries	408	4,000	(71,425)
Allowance for loans sold	—	—	(38,842)
Transfer from accrual for unfunded standby letters of credit for funded standby letters of credit	—	—	5,000
Provision for loan losses-discontinued operations	—	—	8,239
Provision for loan losses-continuing operations	(4,384)	(8,669)	16,707
Balance at end of year	<u>\$20,906</u>	<u>\$24,882</u>	<u>\$ 29,551</u>
Allowance for loan losses as a percentage of loans	<u>4.00%</u>	<u>4.83%</u>	<u>3.96%</u>

### Director and Officer Loans

Certain directors and principal officers of CIB Marine and its subsidiaries, and companies with which they are affiliated, are customers of and have banking transactions with the subsidiary banks in the ordinary course of business. This indebtedness has been incurred on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons. The activity in these loans during 2006 and 2005 is as follows:

	December 31,	
	2006	2005
	(Dollars in thousands)	
Balance at beginning of year	\$ 9,476	\$ 9,940
New loans	4,136	1,834
Repayments	(6,587)	(2,298)
Balance at end of year	<u>\$ 7,025</u>	<u>\$ 9,476</u>

### Note 5-Premises and Equipment, net

The major classes of premises and equipment and accumulated depreciation are summarized as follows:

	December 31,	
	2006	2005
	(Dollars in thousands)	
Land	\$ 1,845	\$ 2,281
Buildings	7,126	8,038
Leasehold improvements	1,672	1,951
Furniture and equipment	21,023	22,805
	31,666	35,075
Less: accumulated depreciation	(20,336)	(21,438)
	<u>\$ 11,330</u>	<u>\$ 13,637</u>
Assets of branches held for sale	(418)	(723)

## Table of Contents

Depreciation expense for 2006, 2005 and 2004 was \$2.2 million, \$2.5 million and \$2.7 million, respectively for continuing operations and none, \$0.02 million, and \$0.9 million, respectively for discontinued operations. Total rental expense for 2006, 2005 and 2004 was \$1.6 million, \$2.0 million and \$1.6 million, respectively, for continuing operations and none, \$0.02 million and \$0.7 million, respectively for discontinued operations.

CIB Marine leases certain premises and equipment under noncancellable operating leases, which expire at various dates through 2013. Such noncancellable operating leases also include options to renew. The following is a schedule by years of annual future minimum rental commitments required under operating leases that have initial or remaining noncancellable lease terms in excess of one year as of December 31, 2006.

	<u>Amount</u>
	<u>(Dollars in thousands)</u>
2007	\$ 1,451
2008	1,140
2009	873
2010	484
2011	252
Thereafter	203
	<u>\$ 4,403</u>

### Note 6-Goodwill

The changes in the carrying amount of goodwill for the years ended December 31, 2006 and 2005 are as follows:

	<u>Goodwill</u>
Balance, December 31, 2004 and 2005 (1)	\$ 982
Reduction of goodwill due to sale of branch (2)	(236)
Balance, December 31, 2006	<u>\$ 746</u>

(1) There was no activity during 2005.

(2) During 2006, CIB Marine sold the fixed assets and deposits of its branch located in Grafton, Wisconsin. Goodwill of \$0.2 million was allocated to this branch.

CIB Marine did not have any amortization expense for the years ended December 31, 2006 and 2005. CIB Marine's aggregate amortization expense was \$0.3 million for the year ended December 31, 2004. The amortization expense for 2004 related to companies held for disposal and is included in discontinued operations on the consolidated statements of operations.

As a result of its annual impairment analysis, CIB Marine determined that certain goodwill and other intangible assets became impaired in 2004. There were no impairment losses in 2006 or 2005. Impairment losses totaling \$2.7 million were recorded in 2004 and related to companies held for disposal. During 2004, goodwill of \$1.9 million associated with the acquisition of MICR and \$0.8 million of customer base intangibles associated with the acquisition of MSI were considered impaired based upon disposition plans of those subsidiaries. These amounts are included in discontinued operations on the consolidated statements of operations.

### Note 7-Companies Held For Disposal and Discontinued Operations

Assets and liabilities of companies held for disposal as shown on the consolidated balance sheets are comprised of the following:

## Table of Contents

	December 31,	
	2006	2005
(Dollars in thousands)		
<b>Assets of companies held for disposal</b>		
CIB Construction (1)	\$ 3,250	\$ 5,165
MICR (1)	127	595
MSI	800	806
Other (2)	(65)	(653)
<b>Total assets of companies held for disposal</b>	<b>\$ 4,112</b>	<b>\$ 5,913</b>
<b>Liabilities of companies held for disposal</b>		
CIB Construction (1)	\$ 4,559	\$ 5,161
MICR (1)	297	491
MSI	656	1,901
Other (2)	1,491	763
<b>Total liabilities of companies held for disposal</b>	<b>\$ 7,003</b>	<b>\$ 8,316</b>

- (1) Banking regulations limit the holding period to five years, unless extended, for assets not considered to be permissible banking activities and which have been acquired in satisfaction of debt previously contracted. Both MICR and CIB Construction are subject to this restriction.
- (2) Includes mortgage banking assets/liabilities held by affiliates, tax liability of subsidiary sold in 2004 and elimination of intercompany transactions between subsidiaries and affiliates.

Loss or income from discontinued operations, as shown on the consolidated statements of operations is comprised of the following:

	Pretax income(loss) before gain(loss) on sale of assets and other income	Gain (loss) on sale of discontinued operations	Income tax expense (benefit)	Other Income (1)	Net income (loss) Net of intercompany transactions
(Dollars in thousands)					
<b>2006</b>					
CIB Construction	\$ 418	\$ —	\$ 156	\$ —	\$ 262
MSI	209	—	(52)	33	294
Other (2)	—	—	(5)	—	5
<b>Total</b>	<b>\$ 627</b>	<b>\$ —</b>	<b>\$ 99</b>	<b>\$ 33</b>	<b>\$ 561</b>
<b>2005</b>					
CIB Construction	\$ 2,716	\$ —	\$ 840	\$ —	\$ 1,876
MICR	1,037	200	(233)	—	1,470
MSI	(304)	—	(140)	201	37
Other (3)	—	—	1,900	—	(1,900)
<b>Total</b>	<b>\$ 3,449</b>	<b>\$ 200</b>	<b>\$ 2,367</b>	<b>\$ 201</b>	<b>\$ 1,483</b>
<b>2004</b>					
CIB Construction	\$ 3,646	\$ —	\$ 676	\$ 957	\$ 3,927
MICR	(598)	—	400	—	(998)
MSI	(4,775)	(738)	(412)	871	(4,230)

Commercial Finance	(221)	237	—	142	158
<b>Total</b>	<b>\$ (6,419)</b>	<b>\$ 15,126</b>	<b>\$ 4,414</b>	<b>\$ 6,911</b>	<b>\$ 11,204</b>

- (1) Includes impairment losses recorded by the parent, mortgage banking income/expense recognized by affiliates and elimination of intercompany transactions.
- (2) Relates to MICR.
- (3) Relates to subsidiary sold in 2004.

***CIB Construction (includes Canron)***

CIB Construction, a wholly-owned subsidiary of CIB Marine, acquired 84% of the outstanding stock of Canron through loan collection activities in 2002. At the time Canron was acquired it was CIB Marine's intention to operate the business with long-range plans to sell the business within the five year holding period permitted by regulators.

## Table of Contents

During the third quarter of 2003, the Boards of Directors of CIB Marine and of Cannon authorized management to cease operating Cannon and commence a wind down of its affairs and a voluntary liquidation of its assets. The gross consolidated assets and liabilities of CIB Construction are reported separately on the consolidated balance sheets at their estimated liquidation values less costs to sell.

During 2006, Cannon continued to collect both on and off-balance sheet receivables and settle and resolve payables and claims through the voluntary liquidation process. In August 2005, Cannon authorized and began liquidation distributions to its shareholders. During 2006 and 2005, Cannon paid \$1.0 million and \$2.1 million, respectively, in capital distributions to its parent, CIB Construction, and CIB Construction paid dividends totaling \$1.6 million and \$2.6 million, respectively, to CIB Marine which CIB Marine recorded as a reduction of its investment in CIB Construction. During 2006 and 2005, CIB Marine recognized a \$0.4 million and \$2.7 million recovery of impairment losses recognized in prior periods. The recoveries are included in discontinued operations on the consolidated statement of operations.

The following table summarizes the composition of CIB Construction's balance sheets which reflect expected liquidation values net of selling costs.

	December 31,	
	2006	2005
(Dollars in thousands)		
<b>Assets:</b>		
Cash on deposit at CIB Marine	\$ 50	\$ 626
Accounts receivable	551	1,572
Other assets	2,649	2,967
Total assets	<u>\$ 3,250</u>	<u>\$ 5,165</u>
<b>Liabilities and stockholder's equity:</b>		
Income tax payable	\$ 3,082	\$ 3,106
Other liabilities	1,477	2,055
Total liabilities	4,559	5,161
Stockholder's equity	(1,309)	4
Total liabilities and stockholder's equity	<u>\$ 3,250</u>	<u>\$ 5,165</u>

The amounts reported in the consolidated balance sheets for assets and liabilities of companies held for disposal for CIB Construction reflect the elimination of intercompany loan and deposit balances.

### MICR

During the fourth quarter of 2005, CIB Marine sold to unrelated parties substantially all of the assets and operations of MICR and changed the company's name to Everett Tech, Inc. The sale resulted in a pretax gain of \$0.2 million and is included in income (loss) from discontinued operations on the consolidated statement of operations. CIB Marine is in the process of winding down the remaining affairs of this company. During 2004, impairment losses of \$1.9 million related to goodwill on MICR, was recognized and included within discontinued operations. There were no impairment losses in 2006 or 2005.

The following table summarizes the composition of MICR's balance sheet:

	December 31,	December 31,
	2006	2005
(Dollars in thousands)		
<b>Assets:</b>		
Cash on deposit at non-affiliates	\$ —	\$ 273
Income tax receivable	127	122
Other assets	—	200
Total assets	<u>\$ 127</u>	<u>\$ 595</u>
<b>Liabilities and stockholder's equity:</b>		
Other liabilities	\$ 297	\$ 491
Stockholder's equity	(170)	104
Total liabilities and stockholder's equity	<u>\$ 127</u>	<u>\$ 595</u>

## Table of Contents

### MSI

During the third quarter of 2004, CIB Marine sold to unrelated parties substantially all of the assets and operations of MSI, a mortgage origination and mortgage brokerage services company. The sale of the operations was accomplished through two separate transactions and resulted in a combined net pretax loss of \$0.7 million on the sales. CIB Marine is in the process of winding down the remaining affairs of this company and has incurred certain liabilities with respect to the operations of the mortgage company. These liabilities include repurchase obligations relative to certain mortgage loans as a result of external fraud and/or documentation issues, and certain reporting penalties.

The following table summarizes the composition of MSI's balance sheets which reflect expected liquidation values net of selling costs.

	December 31,	
	2006	2005
	(Dollars in thousands)	
<b>Assets:</b>		
Cash on deposit at CIB Marine	\$ 14	\$ 24
Net Loans	100	105
Income tax receivable	685	633
Other assets	1	44
Total assets	<u>\$ 800</u>	<u>\$ 806</u>
<b>Liabilities and stockholder's equity:</b>		
Loans payable to CIB Marine	\$ 103	\$ 829
Other liabilities	553	1,072
Total liabilities	656	1,901
Stockholder's equity	144	(1,095)
Total liabilities and stockholder's equity	<u>\$ 800</u>	<u>\$ 806</u>

During the first quarter of 2004, based on the expected fair value of this subsidiary, CIB Marine recognized a \$1.0 million impairment loss related to the value of customer base intangibles and additional contingent consideration due under the original purchase agreement. The \$1.0 million impairment loss and the \$0.7 million loss on the sale of substantially all its assets and operations are presented as discontinued operations on CIB Marine's consolidated statement of operations. There were no impairment losses recognized during 2006 or 2005.

### Hillside Investors (includes CIB-Chicago)

In November 2004, CIB Marine sold CIB-Chicago to an unrelated banking organization. The sale price was \$67.4 million in cash, of which \$5.4 million was used by CIB Marine to repay a short-term loan from the purchaser. The purpose of the loan was to fund the purchase by CIB Marine of CIB-Chicago's interest in MICR, CIB Construction, including Canron, and the loans and related claims against the borrowers in a Chicago condominium development loan. In connection with the sale, CIB Marine agreed to indemnify the purchaser for any losses arising out of a breach of certain customary representations and warranties. No claims have been made by the purchaser related to this indemnification obligation. At the time of sale, CIB-Chicago operated 16 banking facilities in the Chicago metropolitan area and had approximately \$1.2 billion in assets and \$1.1 billion in deposits. The sale of CIB-Chicago reduced consolidated loan totals by \$682.8 million, nonaccrual loans by \$60.3 million and the allowance for loan losses by \$38.1 million.

CIB Marine used \$23.6 million of the proceeds from the sale of CIB-Chicago to repay all indebtedness under CIB Marine's revolving line of credit and injected \$15.0 million of new capital into Central Illinois Bank. The balance of the proceeds is being utilized to help fund ongoing operations. The sale resulted in a pretax gain for financial statement purposes of approximately \$15.6 million and is included in income (loss) from discontinued operations on the consolidated statements of operations. The Grand Cayman Islands branch banking facility of CIB-Chicago, which was established to accept Eurodollar deposits, was closed in conjunction with the sale of the bank.

## Table of Contents

### Commercial Finance

In June 2004, CIB-Chicago sold substantially all of the business assets and the business of its factoring subsidiary, Commercial Finance to an unrelated party. The pretax gain on the sale of this operation was \$0.2 million and is included in discontinued operations in the consolidated statements of operations.

### Note 8-Assets and Deposits of Branches Held For Sale

At December 31, 2006, one of CIB Marine's subsidiary banks had for sale the deposits and property and equipment of two of its branches located in Wisconsin. At December 31, 2006, the total deposits of these two branches was \$55.4 million and the total property and equipment net of accumulated depreciation was \$0.4 million. These assets and liabilities are included in assets and deposits held for sale as of December 31, 2006.

During 2006, certain of CIB Marine's subsidiary banks sold the deposits and certain assets of six of their branches and recognized a total net pretax gain of \$2.7 million. The gain on the sales of the branches is included in net gain on sale of assets and deposits. Four of the sold branches were located in Illinois, one in Wisconsin and one in Nebraska. At the date of the sales, the collective deposits and net property and equipment of these sold branches was \$64.3 million and \$0.7 million respectively. Goodwill of \$0.2 million was allocated to the Wisconsin branch. Additionally, during the third quarter of 2006, CIB Marine sold a former branch building located in Bloomington, Illinois at no gain or loss. The property, equipment and deposits of five of the six branches sold in 2006 comprised the balances of assets and deposits held for sale at December 31, 2005.

During the first quarter of 2005, CIB Marine recognized a \$0.2 million impairment loss on the Bloomington building based on its market value, and in the fourth quarter of 2005, CIB Marine sold the deposits, property and equipment of its branch located in Sebring Florida and recognized a pretax gain of \$0.3 million. The net gain on the sale of the Sebring branch deposits, property and equipment and the impairment loss on the Bloomington building are included in other noninterest expense on the consolidated statements of operations.

### Note 9-Other Assets

The following table summarizes the composition of CIB Marine's other assets:

	December 31,	
	2006	2005
	(Dollars in thousands)	
Prepaid expenses	\$ 1,067	\$ 1,113
Accounts receivable	1,508	638
Trust preferred securities underwriting fee, net of amortization	1,335	1,390
Investment in trust common securities	2,838	2,654
Other investments	2,821	3,562
Income tax receivable	3,492	3,391
Other	116	101
	<u>\$ 13,177</u>	<u>\$ 12,849</u>

The major components of other investments are as follows:

- Investments in limited partnership interests in various affordable housing partnerships. The carrying value of these investments was \$1.4 million and \$1.8 million, respectively, at December 31, 2006 and 2005. Equity loss on these limited partnerships, included in noninterest expense, was \$0.4 million in 2006, \$0.3 million in 2005 and \$0.1 million in 2004, including \$0.6 million in discontinued operations. CIB Marine has engaged in these transactions to provide additional qualified investments under the Community Reinvestment Act and to receive related income tax credits. The partnerships provide affordable housing to low-income residents within CIB Marine's markets and other locations.
- Investment in the common and preferred capital of a limited liability corporation engaged in the development of owner-occupied housing in qualified low-income communities. CIB Marine committed to a \$1.0 million investment in this company. The carrying value of this investment was \$0.8 million at both December 31, 2006 and 2005.

## Table of Contents

- Investment in the common stock of a publicly traded company. The carrying value of this investment was \$0.4 million at December 31, 2006. During 2006, CIB Marine exercised stock warrants it had received as payment for credit services. The carrying value of the warrants at December 31, 2005 was \$0.3 million and during both 2006 and 2005, CIB Marine recognized a \$0.1 million market value gain on these warrants. The market value gains are included in net gain on assets.
- Interest in a company operating as a small business investment company under the Small Business Investment Act of 1958, as amended. CIB Marine committed to a \$0.5 million investment in this company and as of December 31, 2006 has invested \$0.4 million. During 2006, CIB Marine received a capital distribution of \$0.1 million on its investment in this company. During 2005, CIB Marine recognized a \$0.1 million impairment loss on this investment due to a reduction in CIB Marine's interest in the equity value of this investment. The impairment loss is included in write down and losses on assets. At December 31, 2006 and 2005, CIB Marine's carrying value of this investment was \$0.2 and \$0.3, respectively.
- During 2006, CIB Marine sold its interest in a company operating as a small business investment company under the Small Business Investment Act of 1958, as amended. No gain or loss was recognized on the sale. CIB Marine's carrying value of this investment at December 31, 2005 was \$0.4 million.

### Note 10-Deposits

The aggregate amount of time deposits of \$100,000 or more at December 31, 2006 and 2005 were \$135.4 million and \$132.2 million, respectively. Included in time deposits are brokered deposits of \$39.2 million at December 31, 2006 and \$45.0 million at December 31, 2005.

At December 31, 2006, the scheduled maturities of time deposits are as follows:

	<u>December 31, 2005</u> (Dollars in thousands)
2007	\$ 347,674
2008	73,196
2009	36,847
2010	9,601
2011	8,991
Thereafter	4,981
Deposits of branches held for sale (1)	(43,078)
	<u>\$ 438,212</u>

(1) Deposits held by branches classified as held for sale at December 31, 2006.

### Note 11-Short-Term Borrowings

Borrowings with original maturities of one year or less are classified as short-term. Federal funds purchased generally represent one-day borrowings. Securities sold under repurchase agreements represent borrowings maturing within one year that are collateralized by U.S. Treasury and Government Agency Securities.

The following is a summary of short-term borrowings for each of the two years ended December 31:

	<u>At Year end</u>		<u>For the Year</u>		
	<u>Balance</u>	<u>Weighted-Average Rate</u>	<u>Daily Average Balances</u>	<u>Weighted-Average Rate</u>	<u>Highest Balances at Month End</u>
	(Dollars in thousands)				
<b>2006</b>					
Federal funds purchased and securities sold under repurchase agreements	\$23,625	4.79%	\$19,109	4.21%	\$ 23,624
Federal Home Loan Bank Notes	—	—	3,088	5.57	12,000
Treasury, tax and loan note	4,028	5.04	718	4.47	4,028
Total short-term borrowings	<u>\$27,653</u>	4.83%	<u>\$22,915</u>	4.40%	
<b>2005</b>					
Federal funds purchased and securities sold under repurchase agreements	\$20,981	3.50%	\$24,728	3.00%	\$ 25,367
Treasury, tax and loan note	4,020	4.06	905	5.93	4,028
Total short-term borrowings	<u>\$25,001</u>	3.56%	<u>\$25,633</u>	3.10%	

## Table of Contents

At December 31, 2006 and 2005, CIB Marine was not in compliance with certain asset quality, earnings and capital maintenance debt covenants of certain financial standby letters of credit it participated in with other banks. CIB Marine pledged securities to collateralize its obligation for these participated standby letters of credit and entered into forbearance agreements. The total value of securities pledged to other parties related to these participated standby letters of credit was \$4.9 million at both December 31, 2006 and 2005.

During 2006 and 2005, some of the borrowing sources customarily utilized by CIB Marine were restricted or unavailable due to noncompliance with certain asset quality, earnings, and capital maintenance debt agreements and the inability to provide audited consolidated financial statements. Federal funds borrowings by certain of CIB Marine's subsidiary banks were contingent on subsidiary bank pledges of fixed income investment securities, the FHLB of Chicago restricted lending terms, and derivative counterparties increased collateral requirements. Brokered deposits were restricted by FDIC rules and regulations at subsidiary banks which were defined as less than well capitalized due to either low levels of capital, the issuance of Cease and Desist Orders, or formal written agreements by regulatory agencies. Where eligible, the FDIC granted permissible waivers at the subsidiary banks, making the banks eligible to accept, renew or rollover brokered deposits. During 2004, the credit status of all of CIB Marine's subsidiary banks was reduced. The subsidiary banks were restricted from daylight overdraft and other activity at their respective Federal Reserve Banks, and were required to pledge securities in order to have access to the federal reserve discount window. These restrictions were removed from one of the subsidiary banks during 2005 and at another subsidiary bank during 2006. At December 31, 2006, only Central Illinois Bank was required to pledge securities in order to have access to the federal reserve discount window. At December 31, 2006, CIB Marine had securities with a carrying and market value of \$11.3 million pledged for access to the federal reserve discount window. Additionally, pursuant to a Written Agreement between CIB Marine and the Federal Reserve Bank, CIB Marine must obtain Federal Reserve Bank approval before incurring additional borrowings or debt. Pursuant to regulatory agreements consented to by certain of CIB Marine's bank subsidiaries, the subsidiaries must obtain regulatory approval before paying cash dividends.

### Note 12-Long-Term Borrowings

Long-term borrowings consist of borrowings having an original maturity of greater than one year.

#### FHLB

The following table presents information regarding amounts payable to the FHLB of Chicago. All of the borrowings shown in the following table are fixed rate borrowings.

		December 31,		Scheduled	Callable Quarterly
2006		2005		Maturity	@ Par After
Balance	Rate	Balance	Rate		
(Dollars in thousands)					
\$ —	—%	\$ 3,250	4.95%	01/16/08	01/16/01
—	—	2,000	4.95	01/16/08	01/16/01
2,000	5.09	2,000	5.09	02/20/08	02/20/01
<u>\$ 2,000</u>	5.09%	<u>\$ 7,250</u>	4.99%		

CIB Marine is required to maintain qualifying collateral as security for both the short-term and long-term FHLB notes. The debt to collateral ratio is dependent upon the type of collateral pledged and ranges from a 60% loan to value for 1-4 Family Loans (held for sale) to 95% on U.S. Treasury and Agency Obligation securities. As part of a collateral arrangement with the FHLB, CIB Marine had assets pledged with a collateral value of \$17.9 million and \$11.5 million at December 31, 2006 and 2005, respectively. These assets consisted of securities with a market value of \$19.9 million and \$12.6 million at December 31, 2006 and 2005, respectively.

#### Junior Subordinated Debentures

CIB Marine had the following junior subordinated debentures outstanding at December 31, 2006 and 2005:

## Table of Contents

	December 31,		Issue Date	Interest Rate	Maturity Date	Callable After
	2006	2005				
	(Dollars in thousands)

CIB Statutory Trust III	15,464	15,464	09/07/00	10.60	09/07/30	09/07/10
CIB Statutory Trust IV	15,464	15,464	02/22/01	10.20	02/22/31	02/22/11
CIB Statutory Trust V	20,619	20,619	09/27/02	Variable (1)	09/27/32	09/30/07
Total junior subordinated debentures	<u>\$61,857</u>	<u>\$61,857</u>				

(1) Three-month LIBOR + 3.40% adjusted quarterly.

CIB Marine has formed four statutory business trusts (“Trusts”) for the purpose of issuing trust preferred securities and investing the proceeds thereof in junior subordinated debentures of CIB Marine. The trust preferred securities are fully and unconditionally guaranteed by CIB Marine. The Trusts used the proceeds from issuing trust preferred securities and the issuance of its common securities to CIB Marine to purchase the junior subordinated debentures. Interest on the debentures and distributions on the trust preferred securities are payable either quarterly or semi-annually in arrears. CIB Marine has the right, at any time, as long as there are no continuing events of default, to defer payments of interest on the debentures for consecutive periods not exceeding five years; but not beyond the stated maturity of the debentures. As a result of the agreement entered into with its regulator, CIB Marine has elected to defer all such interest payments, and as a result the Trusts deferred distributions on its trust preferred securities. At December 31, 2006 and 2005 CIB Marine had accrued interest payable on its \$61.9 million junior subordinated debentures of \$21.8 million and \$14.1 million, respectively. These amounts are included in accrued interest payable on the consolidated balance sheets. Throughout the deferral period, interest on the debentures continues to accrue. In addition, interest also accrues on all interest that was not paid when due, compounded quarterly or semi-annually. During the deferral period, CIB Marine may not pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment on its stock, or make any payment of principal, interest or premium, or redeem any similar debt securities of CIB Marine, subject to certain limitations. The trust preferred securities are subject to mandatory redemption, in whole or in part, upon repayment of the debentures at maturity or their earlier redemption. The trust preferred securities qualify as regulatory capital, subject to regulatory limitations.

The Federal Reserve Board adopted a rule limiting the inclusion of junior subordinated debentures in the Tier 1 equity capital. The ruling limited the total restricted Tier 1 capital elements, including junior subordinated debentures, net of investment in trust, to 25% of total Tier 1 capital elements, net of goodwill less any associated deferred tax liability. At December 31, 2006, CIB Marine included approximately \$23.9 million of its junior subordinated debentures in total Tier 1 capital.

### Note 13-Other Liabilities

	December 31,	
	2006	2005
	(Dollars in thousands)	
Accounts payable	\$ 1,408	\$ 459
Accrual for unfunded commitments and standby letters of credit	725	725
Accrued real estate taxes	159	201
Accrued compensation and employee benefits	973	913
Accrued professional fees	1,070	1,476
Accrued other expenses	2,645	997
Fair value of derivatives	29	37
Other liabilities	360	427
	<u>\$ 7,369</u>	<u>\$ 5,235</u>

Accrued other expenses includes \$1.8 million contingent liability related to the settlement of the John C. Hadley and Mary Lydia Hadley litigation in the first quarter of 2007. See Note 18-Commitments and Contingencies for further information regarding this litigation.

Provision for losses on unfunded commitments and standby letters of credit:			
Continuing Operations	—	—	725
Discontinued Operations	—	—	(1,900)
Reduction of accrual for unfunded loan commitments and standby letters of credit losses due to sale of CIB-Chicago	—	—	(2,592)
Balance at end of year	<u>\$ 725</u>	<u>\$ 725</u>	<u>\$ 725</u>

### Note 14-Stockholders' Equity

#### *Receivables from Sale of Stock*

Loans not sufficiently collateralized by assets other than CIB Marine stock and made by CIB Marine's subsidiary banks to borrowers who used the proceeds to acquire CIB Marine stock are classified as receivables from sale of stock and are accounted for as a reduction of stockholders' equity and recorded as receivables from sale of stock, unless the loan had been repaid prior to the issuance of the financial statements. The balances of loans classified as receivables from sale of stock totaled \$0.2 million at both December 31, 2006 and 2005. Interest earned on these loans was \$0.01 million in 2006, \$0.04 million in 2005 and \$0.2 million in 2004 and is included in interest and dividend income-loans and discontinued operations as appropriate.

#### *Treasury Stock*

Certain of CIB Marine's subsidiary banks have acquired CIB Marine stock through collection efforts when the borrowers defaulted on their loans. These shares are included in treasury stock at the lower of the loan balance or the estimated fair market value of CIB Marine's stock at time of acquisition. Any loan balance in excess of the estimated fair market value of the stock and other collateral received was charged to the allowance for loan losses. CIB Marine did not acquire or sell any shares during 2006 or 2005. During 2004, CIB Marine acquired 137,002 shares at a cost of \$0.6 million. In conjunction with the sale of CIB-Chicago in November 2004, CIB Marine sold 210,950 shares of treasury stock which were previously acquired and held by CIB-Chicago, and which had a book value of \$2.6 million, and recorded a \$1.8 million reduction in its retained earnings. Treasury Stock was \$0.2 million at both December 31, 2006 and 2005.

#### *Regulatory Capital*

CIB Marine and its subsidiary banks are subject to various regulatory capital requirements administered by the federal banking agencies. Pursuant to federal holding company and bank regulations, CIB Marine and each bank subsidiary is assigned to a capital category. The assigned capital category is largely determined by three ratios that are calculated in accordance with specific instructions included in the regulations: total risk adjusted capital, Tier 1 capital, and Tier 1 leverage ratios. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the bank subsidiaries must meet specific capital guidelines that involve quantitative measures of the bank's assets and certain off-balance sheet items as calculated under regulatory accounting practices. The banks' capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. To be categorized as well capitalized, the bank subsidiaries must maintain total risk adjusted capital, Tier 1 capital, and Tier 1 leverage ratios of 10.0%, 6.0% and 5.0%, respectively.

There are five capital categories defined in the regulations: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized. Classification of a subsidiary bank in any of the undercapitalized categories can result in certain mandatory and possible additional discretionary actions by regulators that could have a direct material effect on the consolidated financial statements.

---

## Table of Contents

At December 31, 2006, pursuant to FDIC regulations in 12 C.F.R. Part 325, Marine-Wisconsin and Citrus Bank were each classified as well capitalized and Central Illinois Bank was categorized as adequately capitalized. At December 31, 2005, Marine FSB, Marine-Wisconsin and CIB-Indiana were classified as well capitalized and Central Illinois Bank and Citrus Bank were each categorized as adequately capitalized. While those banks classified as adequately capitalized met the capital ratio criteria of a well capitalized bank, they were each subject to a cease and desist order or written agreement as of that date, and pursuant to the FDIC regulations, a bank that is subject to any written agreement or order to meet and maintain a specific capital level for any capital measure cannot be classified as well capitalized.

At December 31, 2006 and 2005, CIB Marine was subject to a Written Agreement (“Agreement”) it entered into with the Federal Reserve Bank in the second quarter of 2004; Central Illinois Bank was subject to a Cease and Desist Order (“Order”) it consented to with its banking regulatory authorities in the second quarter of 2004; and Marine-Wisconsin was subject to a Memorandum of Understanding (“Memorandum”) it entered into with its respective banking regulators in March 2005. Additionally, at December 31, 2005, Citrus Bank was subject to a Written Agreement (“Citrus Agreement”) it entered into with the Office of the Comptroller of the Currency in the third quarter of 2004 and CIB-Indiana was subject to a Memorandum of Understanding. The Citrus Agreement was terminated in September 2006 and CIB-Indiana was merged into Marine-Wisconsin in August 2006. Among other items, the Agreement, Order and Memorandum restrict the payment of cash dividends without prior written consent from the regulators and require the banks to maintain a Tier 1 leverage capital level equal to or exceeding 8% of the bank’s total average assets. The Citrus Agreement, in addition to such dividend restriction and capital requirement, also required Citrus Bank to maintain total capital to risk weighted assets of not less than 14%. Failure to comply with the Agreement, Order or Memorandum could have a material adverse effect on CIB Marine and its operations. As of December 31, 2006, the capital level of CIB Marine and each of its subsidiary banks exceeded the minimum levels required by the Agreement, Order or Memorandum.

The actual and required capital amounts and ratios for CIB Marine and its bank subsidiaries are presented in the tables below.

## Table of Contents

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
<b>December 31, 2006</b>

Marine FSB	8,866	10.90	3,255	4.00	4,069	5.00
Citrus Bank (2)	19,307	12.94	5,969	4.00	7,461	5.00

- (1) Pursuant to the Order and Memorandum of Understanding, the banks are required to maintain a Tier 1 leverage capital level equal to or exceeding 8% of total average assets.
- (2) In 2004, Citrus Bank entered into a the Citrus Agreement with the OCC, which required Citrus Bank to maintain total capital to risk weighted assets of at least 14% and a Tier 1 leverage capital level equal to or exceeding 8% of total average assets throughout such time as the Citrus Agreement remained in effect. The Citrus Agreement was terminated in September, 2006.

The payment of dividends by banking subsidiaries is subject to regulatory restrictions by various federal and/or state regulatory authorities. Pursuant to the respective Agreement, Order and Memorandum and throughout such time as the Agreement, Order and Memorandum remain

in effect, these subsidiary banks may not pay a dividend to

## Table of Contents

CIB Marine and CIB Marine cannot declare or pay dividends without first obtaining the consent of the regulators. In addition, dividends paid by bank subsidiaries are further limited if the effect would result in a bank subsidiary's capital being reduced below applicable minimum capital amounts. CIB Marine did not receive any dividend payments from its subsidiary banks during 2006. At December 31, 2006, only one subsidiary bank, Citrus Bank, had retained earnings available for the payment of dividends to CIB Marine, subject to regulatory approval, in the amount of \$0.6 million.

### Federal Deposit Insurance

As FDIC-insured institutions, each of CIB Marine's subsidiary banks are required to pay deposit insurance premiums based on the risk each poses to the FDIC insurance funds. In 2006, the FDIC had the authority to raise or lower assessment rates on insured deposits in order to achieve certain designated reserve ratios in the insurance funds and to impose special additional assessments. The FDIC had adopted a premium rate schedule, which provided for an assessment range of 0% to 0.27% of domestic deposits, depending on the capital category and supervisory category to which a bank is assigned. As of December 31, 2006, the assessment rate for Central Illinois Bank was 0.17% and the assessment rate for the other banks was 0.03%. The FDIC's risk-based insurance assessment system was amended by the Federal Deposit Insurance Reform Act in 2006. Under implementing regulations effective for 2007, each insured bank is placed in one of four risk categories based on its level of capital, supervisory ratings and other risk measures, including debt ratings for large institutions, and its insurance assessment rate is determined by its risk category. There is currently a 38 basis point spread between the highest and lowest assessment rates, so that banks classified by the FDIC in Risk Category I are subject in 2007 to an insurance assessment of five to seven basis points (according to the FDIC's assessment of the bank's strength), and banks classified by the FDIC in Risk Category IV are subject to an insurance assessment rate of .43%.

The FDIC is authorized to terminate an institution's deposit insurance upon a finding by the FDIC that the institution's financial condition is unsafe or unsound or that the institution has engaged in unsafe or unsound practices or has violated any applicable rule, regulation, order or condition enacted or imposed by the institution's regulatory agency. The termination of deposit insurance for CIB Marine's banks would have a material adverse effect on CIB Marine. In addition to its insurance assessment, each insured institution is subject to quarterly debt service assessments in connection with bonds issued by the government corporation that financed the federal savings and loan bailout. The quarterly debt service assessment rate for all banks was 0.0124%.

In October 2006, the FDIC Board of Directors approved a One-Time Assessment Credit. This credit, totaling \$0.6 million for CIB Marine's subsidiary banks, will be recorded as a credit against regular FDIC insurance premium expense beginning in January 2007 and continue until the credit is exhausted.

### Note 15-Other Expense

Other expense consisted of the following:

	Years Ended December 31,		
	2006	2005	2004
	(Dollars in thousands)		
Payroll and other processing charges	\$ 99	\$ 125	\$ 133
Correspondent bank charges	256	291	372
Advertising/marketing	722	1,135	691
Communications	1,386	1,310	1,182
Supplies and printing	357	581	421
Shipping and handling	523	703	807
Collection expense	43	248	221
FDIC and state assessment	1,289	1,768	1,634
Recording and filing fees	149	185	116
Foreclosed property	7	46	111
Other expense	4,330	3,015	2,705
<b>Total other expense</b>	<b>\$ 9,161</b>	<b>\$ 9,407</b>	<b>\$ 8,393</b>

## Table of Contents

### Note 16-Loss Per Share

The following provides a reconciliation of basic and diluted loss per share:

	For the Years Ended December 31,		
	2006	2005	2004
	(Dollars in thousands, except share and per share data)		
Loss from continuing operations	\$ (9,839)	\$ (13,144)	\$ (28,551)
<b>Weighted average shares outstanding:</b>			
Basic	18,333,779	18,333,779	18,245,884
Effect of dilutive stock options outstanding	—	—	—
Diluted	<u>18,333,779</u>	<u>18,333,779</u>	<u>18,245,884</u>
<b>Per share loss:</b>			
Basic	\$ (0.54)	\$ (0.72)	\$ (1.56)
Effect of dilutive stock options outstanding	—	—	—
Diluted	<u>\$ (0.54)</u>	<u>\$ (0.72)</u>	<u>\$ (1.56)</u>

For 2006, 2005 and 2004, 971,830, 778,000, and 1,059,896 options, respectively, were excluded from the calculation of diluted earnings per share because their assumed exercise would be anti-dilutive due to losses from continuing operations.

### Note 17-Financial Instruments with Off-Balance Sheet Risk

The following table summarizes the contractual or notional amount of off-balance sheet financial instruments with credit risk.

	December 31,	
	2006	2005
	(Dollars in thousands)	
Commitments to extend credit	\$157,851	\$186,187
Standby letters of credit	5,637	7,222
Interest rate swaps	15,675	15,807

CIB Marine is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. CIB Marine has entered into commitments to extend credit, which involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the balance sheets.

Standby letters of credit are conditional commitments that CIB Marine issues to guarantee the performance of a customer to a third-party. Fees received to issue standby letters of credit are deferred and recognized as noninterest income over the term of the commitment. The guarantees frequently support public and private borrowing arrangements, including commercial paper issuances, bond funding, and other similar transactions. CIB Marine issues commercial letters of credit on behalf of customers to ensure payments or collection in connection with trade transactions. In the event of a customer's nonperformance, CIB Marine's credit loss exposure is the same as in any extension of credit, up to the letter's contractual amount. Management assesses the borrower's financial condition to determine the necessary collateral, which may include marketable securities, real estate, accounts receivable and inventory. Since the conditions requiring CIB Marine to fund letters of credit may not occur, CIB Marine expects its future cash requirements to be less than the total outstanding commitments. The maximum potential future payments guaranteed by CIB Marine under standby letter of credit arrangements at December 31, 2006 and 2005, is \$5.6 million and \$7.2 million, respectively, with a weighted average term of approximately 8 months and 5 months, respectively. CIB Marine has accrued liabilities of \$0.7 million at both December 31, 2006 and 2005 for probable losses related to certain standby letters of credit. The standby letters of credit for which reserves were established were participated to nonaffiliated banks. CIB Marine did not default on any payment obligations with the other banks.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination

---

## **Table of Contents**

clauses and may require the payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. CIB Marine evaluates each customer's creditworthiness and determines the amount of the collateral necessary based on management's credit evaluation of the counterparty. Collateral held varies, but may include marketable securities, accounts receivable, inventories, property and equipment, and real estate.

At December 31, 2006, CIB Marine is primarily involved with derivative financial instruments in the form of interest rate swaps utilized for purposes of asset/liability management to modify the existing market risk characteristics of certain hedged assets and liabilities. An interest rate swap agreement involves the exchange of fixed and floating rate interest payment obligations based on the underlying notional principal amounts. The amounts subject to market and credit risks are the streams of interest payments under the agreements and not the notional principal amounts, which are used only to express the volume of the transactions. CIB Marine's credit risk on a swap agreement is limited to nonperformance of the counterparty's obligations under the terms of the swap agreement. CIB Marine generally deals with counterparties that have high credit ratings, and based on management's assessments, all counterparties were expected to meet any outstanding obligations as of December 31, 2006. In addition, at December 31, 2005, CIB Marine held warrants for the purchase of common stock of a publicly traded company. The warrants were exercised during 2006.

CIB Marine had \$10.0 million notional value of receive fixed/pay floating interest rate swaps outstanding as of December 31, 2006 used to hedge fixed rate deposits with matching interest payment frequencies, maturities, option features and amounts. As of December 31, 2006, these swaps received Fair Value Hedge accounting treatment under SFAS 133. CIB Marine had \$5.7 million notional value of pay fixed/receive floating interest rate swaps outstanding as of December 31, 2006 used to hedge fixed rate loans. These swaps are accounted for as Fair Value Hedges under SFAS 133 as of December 31, 2006. Market value changes during the period of the interest rate swaps and the hedged assets are reflected in other noninterest income in the statement of operations.

The fair value of derivatives that fail to qualify as a hedge and the ineffective position of derivatives that do qualify as a hedge is charged to other expense or credited to other income in the period of the change in fair value. Such amounts charged to net income in both 2006 and 2004 was \$0.0 million and \$0.1 million in 2005. The fair value adjustment of warrants charged to net income in both 2006 and 2005 was \$0.1 million.

### **Note 18-Commitments and Contingencies**

In the ordinary course of business, CIB Marine has various outstanding commitments and contingent liabilities that are not reflected in the accompanying consolidated financial statements. CIB Marine is not currently involved in any material pending legal proceedings other than the following:

In August 2003, Keith Burchett, a shareholder of CIB Marine and a borrower of CIB-Chicago, commenced an action in the Circuit Court of Cook County, Illinois, against CIB Marine, Central Illinois Bank, CIB-Chicago and two of their now former directors and/or officers for damages arising out of alleged fraudulent misrepresentations relative to the financial condition of Canron and its principal shareholder by defendants to induce the plaintiff to borrow money from CIB-Chicago and make a \$0.5 million investment in Canron. Plaintiff asserts claims for fraud and shareholder remedies. The shareholder remedies action alleges the defendants' violations of lending regulations caused a decline in the plaintiff's investment in CIB Marine. Plaintiff seeks an unspecified amount of compensatory and punitive damages, requests an order requiring CIB Marine and the banks to repurchase his CIB Marine shares of stock at fair value, and other forms of relief. While the outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend this action. Central Illinois Bank has been removed as a defendant in subsequent amended complaints filed by the plaintiff. On November 30, 2004, CIB Marine sold CIB-Chicago.

In June 2004, Central Illinois Bank commenced an action in the Circuit Court of the Sixth Judicial Circuit, Champaign County, Illinois, against John C. Hadley and Mary Lydia Hadley, CIB Marine's largest individual shareholders at the time, for damages arising out of the Hadleys' default in December 2003 of certain loan obligations (the "State Litigation") and subsequently obtained a confession of judgment. The loans approximate \$9.7 million plus interest and attorneys fees and were secured by CIB Marine stock and the accounts receivable, inventory, equipment and other personal property of the borrowers and their restaurant supply and coin businesses. In December 2004, the Hadleys consented to the entry of an order for relief under Chapter 11 of the Bankruptcy

---

## Table of Contents

Code pending in the United States Bankruptcy Court for the Central District of Illinois (the “Bankruptcy Case”). The Hadleys stayed the State Litigation and, in the third quarter of 2006, the Hadleys filed a counterclaim against Central Illinois Bank in the dischargeability adversary proceeding that sought to recover \$35.0 million in actual damages and punitive damages for the alleged loss or substitution by Central Illinois Bank of certain rare coins and collectibles which the Hadleys alleged were pledged to the bank as collateral, sought to recover certain alleged preferential transfers and sought to equitably subordinate the bank’s claim to those of unsecured creditors. Central Illinois Bank and the Hadleys have settled these matters with the approval of the Bankruptcy Court. According to the settlement agreement, the adversary complaint and counterclaims in the Bankruptcy Court and the State Litigation were dismissed with prejudice and without admitting any fault or liability; the parties exchanged mutual general releases of claims among the Hadleys, Central Illinois Bank and its parent and affiliated corporations, preserving only the Hadleys’ claims as members of a putative plaintiff class in an action currently pending in the United States District Court for the Eastern District of Wisconsin entitled *Dennis Lewis, et al. v. CIB Marine Bancshares, Inc., et al.*, Case No. 05-C-1008 or as individual plaintiffs in an “opt out” action against some or all of the same parties alleging substantially the same claims; and Central Illinois Bank discharged, waived, released and assigned its claims in the Bankruptcy Case to the Hadleys’ bankruptcy estate, returned to the Hadleys’ bankruptcy estate all collateral security held by Central Illinois Bank and paid the bankruptcy estate \$1.75 million in the first quarter of 2007. CIB Marine recorded a \$1.75 million contingent liability expense in the first quarter of 2006 related to the settlement.

In June 2004, John C. Ruedi, a former employee of CIB Marine, filed an action against CIB Marine and “Central Illinois Bancorp, Inc.” in the Circuit Court of the Sixth Judicial District, Champaign County, Illinois for rescission or damages, including punitive damages, in connection with plaintiff’s October 1, 2002 exercise of options issued by CIB Marine to acquire 36,688 shares of CIB Marine common stock at various exercise prices. Plaintiff claims that but for CIB Marine’s and Central Illinois Bancorp, Inc.’s alleged fraudulent concealment of material facts regarding the financial condition of CIB Marine he would not have exercised his options. Plaintiff also seeks to recover from Central Illinois Bancorp, Inc. and CIB Marine in excess of \$40,000 allegedly due Plaintiff pursuant to a purported memorandum providing for the payment of an incentive to Plaintiff in connection with his employment. In March 2005, Plaintiff amended his complaint to add the former President and CEO of CIB Marine as a defendant based upon claims of alleged fraudulent concealment. (Claims filed in the action against CIB Marine’s independent registered public accounting firm KPMG LLP (hereinafter “KPMG”) and a now retired partner of KPMG were voluntarily dismissed by the Plaintiff.) CIB Marine filed a motion to dismiss several of Plaintiff’s claims and answered the others denying liability. That motion to dismiss was denied and CIB Marine answered the remaining counts against it, denying liability. Plaintiff filed a motion for summary judgment seeking recovery of \$40,000 from CIB Marine on his incentive payment claim. This motion was denied. All discovery has been stayed in this action by an order of the Federal Court in the Dennis Lewis case described later in this section, with the result that this suit is currently dormant. Plaintiff has filed a motion in the Lewis case to vacate the discovery stay in this case. No date has been set for a ruling on that motion, which CIB Marine and the other defendants in the Lewis case opposed. While the ultimate outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend the action.

On June 3, 2005, a first consolidated complaint was filed by Dennis Lewis, a shareholder, and other alleged shareholders of CIB Marine in the United States District Court for the Central District of Illinois, Urbana Division, against CIB Marine, certain of its current and former officers and directors, and KPMG The filing consolidated two actions that had been filed in January 2005: one filed by Lewis in the United States District Court for the Central District of Illinois, Urbana Division and another filed in the United States District Court for the Central District of Illinois, Peoria Division by Elaine Sollberger, a purported shareholder, whose claims were voluntarily dismissed in connection with the consolidation, and have not been reasserted in the consolidated complaint. Plaintiffs sought to maintain the action as a class action on behalf of all persons who purchased common stock of CIB Marine between April 12, 1999, and April 12, 2004, claiming violations of Section 10(b) of the Exchange Act and Rule 10b-5 thereunder by CIB Marine and other defendants and liability of certain defendants other than CIB Marine and KPMG under Section 20(a) of the Exchange Act as controlling persons. The substance of the complaint is that the financial condition of CIB Marine was overstated with the result that members of the purported class acquired their CIB Marine stock at inflated prices. Plaintiffs seek money damages, interest, attorneys’ fees and costs. The federal court in Urbana, Illinois granted the motion of CIB Marine and several other defendants to transfer the action to the United States District Court for the Eastern District of Wisconsin, sitting in Milwaukee, Wisconsin, where the action is now pending.

---

## Table of Contents

All defendants moved to dismiss the action on various grounds. On October 12, 2006 the court denied CIB Marine's motion to dismiss, granted in part the motions to dismiss filed by the individual defendants and granted the motion to dismiss filed by KPMG. CIB Marine and the individual defendants have filed answers to the pending complaint denying any liability. An additional person has moved to intervene as a plaintiff in the action. In light of a recent decision of the Supreme Court of the United States that addressed the pleading standards that must be satisfied by the plaintiff in a case such as this one, on July 16, 2007 CIB Marine and the individual defendants filed a motion for judgment on the pleadings, or in the alternative, a motion for reconsideration of the ruling on the motion to dismiss, seeking dismissal of the action on the ground that the plaintiffs have not satisfactorily pleaded one of the essential elements of their cause of action. That motion has been fully briefed and no date has been set for a decision.

On November 10, 2006, plaintiffs filed a further amended complaint as to KPMG, which KPMG moved to dismiss. On August 13, 2007, the court granted KPMG's motion and dismissed the action as to it.

As a result of the filing of the initial motions to dismiss, all discovery in this action was stayed automatically. Plaintiffs have moved to vacate that stay of discovery, which all defendants opposed based on KPMG's pending motion to dismiss the further amended complaint filed by plaintiffs against KPMG. In granting KPMG's motion to dismiss, the court noted the pendency of the motion for judgment on the pleadings described above and ruled that the stay of discovery will remain in place. Plaintiffs have filed a separate motion for a limited lift of the stay of discovery, which CIB Marine and the individual defendants opposed in their response filed on September 11, 2007. The court has not set a date to rule on the motions to vacate the stay of discovery.

CIB Marine intends to vigorously contest certification of any class action and to otherwise vigorously defend this action. The ultimate outcome of this action cannot be determined at this time.

In April 2005, James Fasano and Thomas Arundel, shareholders of CIB Marine and borrowers of CIB-Chicago, commenced an action in the Circuit Court of Cook County, Illinois, against CIB Marine, CIB-Chicago and two of their now former directors and/or officers for damages arising out of alleged fraudulent misrepresentations relative to the financial condition of Canron and its principal shareholder to induce the plaintiffs to borrow \$0.5 million from CIB-Chicago and invest it in Canron. Plaintiffs assert claims for fraud and shareholder remedies. The shareholder remedies action alleges the defendants' violations of lending regulations caused a decline in the plaintiffs' investment in CIB Marine. Plaintiffs seek an unspecified amount of compensatory and punitive damages, request an order requiring CIB Marine and the bank to repurchase their CIB Marine shares of stock at fair value, and other forms of relief. While the outcome of these claims cannot be determined at this time, CIB Marine intends to vigorously defend this action. On November 30, 2004, CIB Marine sold CIB-Chicago.

In December 2003, CIB-Chicago acquired the title to a commercial office building that was being converted into residential condominiums. The property was acquired through a Deed in Lieu of Foreclosure Settlement Agreement ("DIL Agreement") from a borrower who was in default on its obligation. The property was included in foreclosed properties at December 31, 2003. Pursuant to the DIL Agreement, CIB-Chicago acquired the property subject to the first lien held by an unaffiliated financial institution and assumed the borrower's financial obligation relating to that first lien. At December 31, 2003, the assumed financial obligation was reported as an outstanding non-recourse mortgage note payable. During the second quarter of 2004, CIB-Chicago transferred all of its rights, title and interest in the property, along with the borrower's obligation under the related mortgage note, to the first lien holder. CIB-Chicago transferred the property based upon its evaluation that the amount of additional funds necessary to complete the project was greater than the financial benefits and risks associated therewith. The property was transferred without any further liability or obligation to the first lien position holder and CIB-Chicago reserved its legal rights to pursue the borrower and guarantors. The transfer to the first lien holder resulted in no additional gain or loss to CIB Marine. During 2003, CIB Marine charged-off \$41.7 million of the loan to its allowance for loan loss with respect to this borrowing relationship and also recorded a \$1.5 million market value write down on the property. In July 2004, CIB-Chicago commenced litigation in the United States District Court for the Northern District of Illinois, Eastern Division, against the borrower, guarantors and their related interests for collection of the losses incurred by CIB Marine based upon state law claims of breach of agreements, fraud, conversion and other theories of recovery, including Federal RICO violations. In November 2004, CIB-Chicago assigned the loans and claims related to this development to CIB Marine in conjunction with the sale of CIB-Chicago. In April 2005, the United States District

---

## Table of Contents

Court dismissed the RICO claim and, as a result, lacked jurisdiction over the state law claims. In April 2005, CIB Marine commenced an action in the Circuit Court of Cook County, Illinois, against the defendants on the state law claims. In the event that there are any recoveries with respect to these loans and claims, CIB Marine has agreed to pay the purchaser of CIB-Chicago ten percent of any recovery after collection costs. To date, CIB Marine has not made any recoveries with respect to such loans and claims.

On April 20, 2006, Mark A. Sindecuse filed an action in the United States District Court, Eastern District of Missouri, Eastern Division (St. Louis) against CIB Marine, Dean M. Katsaros (“Katsaros”), a former director of CIB Marine, and Katsaros & Associates, Inc. The complaint, as amended, purported to assert common law causes of action against CIB Marine for fraud and negligent misrepresentation in connection with plaintiff’s purchases of common stock of CIB Marine in private placements in 1995, 1996, 1997 and 1998. Plaintiff sought compensatory damages in excess of \$2,000,000 and unspecified punitive damages. After a motion to dismiss the amended complaint resulted in the dismissal of the negligent misrepresentation claims against it, CIB Marine filed an answer denying any liability to plaintiff and a motion for summary judgment on the remaining claim. On August 28, 2007, following Plaintiff’s withdrawal of two of the three remaining claims against Katsaros, the Court granted CIB Marine and Katsaros summary judgment on the sole remaining claim and dismissed the lawsuit. On September 24, 2007, Plaintiff filed a notice of appeal of the judgment.

CIB Marine and the individual defendants in the Ruedi, Burchett, Fasano/Arundel and Lewis cases described above, are insureds under a policy that on its face purports to provide coverage for those cases, including the costs of defense (payment of which by the insured reduces the remaining coverage under the policy), which include attorneys’ fees. The insurer has reserved all rights and notified CIB Marine and the other insureds of potential grounds to deny coverage. After CIB Marine exhausted the retention under that policy, the insurer paid substantially all of the costs of defense of CIB Marine and the individual defendants in the Ruedi and Lewis cases through February 17, 2006 subject to its reservation of rights to seek reimbursement (and through March 31, 2007 in the Burchett and Fasano/Arundel cases). The insurer informed the insureds of its intention to terminate any further funding of the costs of defense. Negotiations ensued and CIB Marine and the insurer discussed an arrangement in which the insurer would pay 35% of the costs of defense of the Ruedi and Lewis cases incurred by CIB Marine and the individual defendants and CIB Marine would pay the remaining 65% of those reasonable costs. This agreement has not been reduced to writing. With respect to the individual defendants, the payment of these defense costs by CIB Marine is pursuant to the provision of its by-laws that mandates advancing defense costs of directors and officers under certain circumstances and a full reservation of rights under the policy by both parties. The advances to individuals are subject to repayment by the individual defendants if it is ultimately determined, as provided in the by-laws and applicable Wisconsin law, that they are not entitled to be indemnified. The arrangement under discussion with the insurer would provide that either CIB Marine or the insurer could terminate the funding arrangement under certain circumstances. In the event of termination, CIB Marine would be responsible for all of the reasonable costs of defense of CIB Marine and the individual defendants.

With respect to the Burchett and Fasano/Arundel cases, after CIB Marine exhausted retention under that policy, the insurer paid substantially all of the costs of defense of CIB Marine and the individuals through March 31, 2007, subject to its reservation of rights. On March 14, 2007, the insurer informed the insureds of its intention to terminate funding of all of the costs of defense in those actions on or after April 1, 2007 and proposed a funding arrangement comparable to that discussed with respect to the Ruedi and Lewis cases. No agreement has been reached with respect to post-April 1, 2007 funding of defense costs in the Burchett and Fasano/Arundel cases. With respect to the individual defendants, the payment of these defense costs by CIB Marine is pursuant to the provision of its by-laws that mandates advancing defense costs of directors and officers under certain circumstances and a full reservation of rights under the policy by both parties. The advances to individuals are subject to repayment by the individual defendants if it is ultimately determined, as provided in the by-laws and applicable Wisconsin law, that they are not entitled to be indemnified.

It is not possible to estimate the amount or timing of the defense costs that will be paid by CIB Marine from and after February 17, 2006 in the Ruedi and Lewis cases or in the other cases described above. The following factors, among others, could cause actual results to differ from those described in the preceding forward-looking statement and affect the amount and timing of the expenses referred to with respect to the Ruedi and Lewis cases: (1) the federal court’s decision on whether to vacate the existing stays of discovery and, if one or both stays are vacated, the scope of discovery that is allowed by the court and/or requested by the plaintiffs; (2) the extent, if any, to which the

## Table of Contents

Lewis case is allowed to proceed and, if so, allowed to proceed as a class action; (3) the scope of discovery pursued by the plaintiffs (and the timing and substance of the court's rulings on any objections thereto by defendants) if and when discovery proceeds irrespective of the existing stays of discovery; (4) the extent to which CIB Marine and the individual defendants and their respective counsel are able to coordinate their defense of the action and in particular minimize duplication of activities in defense of the case; (5) if the funding arrangement is finally agreed to by CIB Marine, the individual defendants and the insurer, the insurer's determinations of what services and costs are reasonable and appropriate under the insurer's guidelines for paying the costs of defense; (6) CIB Marine's determination of what costs of defense are "reasonable" within the meaning of its by-laws and any claims made by individual defendants whose costs of defense may be rejected in whole or in part on that ground; (7) the occurrence of circumstances that would lead either CIB Marine or the insurer to terminate the funding arrangement described above if in fact an agreement is entered into; and (8) the extent to which any individual defendant whose costs of defense are advanced by CIB Marine is ultimately required to repay those costs and, if so, the ability of that person to make repayment.

In July 2007, Mark Swift and M.A. Swift & Associates Ltd., purported minority shareholders of a former loan customer of CIB Marine Capital, LLC ("CIB Capital"), filed a lawsuit in US District Court for the Northern District of Illinois, Eastern Division, against CIB Capital and CIB Marine. Subsequently, the Trustee for the bankruptcy estate of Mark Swift assumed the action as plaintiff. In September 2007, the plaintiff amended the complaint and dismissed CIB Marine and CIB Capital as defendants.

### Note 19-Stock Option Plans

CIB Marine has a nonqualified stock option and incentive plan for its employees and directors. At December 31, 2006, options to purchase 463,409 shares were available for future grant. The plan provides for the options to be exercisable over a ten-year period beginning one year from the date of the grant, provided the participant has remained in the employ of, or on the Board of Directors, of CIB Marine and/or one of its subsidiaries. The plan also provides that the exercise price of the options granted may not be less than 100% of the fair market value of the common stock on the option grant date. Options vest over five years. CIB Marine issues new shares upon the exercise of options.

The following table shows activity relating to stock options.

	Number of Shares	Range of Option Prices per Share	Weighted Average Exercise Price	Weighted Average Grant Date Fair Value Per Share
Shares under option at December 31, 2003	1,439,850	\$8.50-25.08	\$ 16.45	
Granted	—	\$ —	\$ —	
Lapsed or surrendered	(648,519)	8.50-25.08	16.58

### Note 20-Other Benefit Plans

CIB Marine provides a defined contribution 401(k) plan to all employees of CIB Marine and its subsidiaries who have attained age 18. As of August 2006, employees may enter the Plan on the first day of the month following sixty days of employment. The plan permits participants to make voluntary tax deferred contributions up to the maximum permitted by law. Participants age 50 or older are allowed to make a stated amount of additional contributions on a tax deferred basis as permitted by law. During the first quarter of 2004, CIB Marine suspended the matching contribution. In 2005 and 2006, the matching contribution was 50% of the employee's contribution up to 6% of compensation. The total expenses incurred for employer matching contributions to the plan were \$0.3 million in 2006, \$0.4 million in 2005, and \$0.1 million in 2004. All administrative costs to maintain the plan are paid by the plan.

CIB Marine has an employee stock ownership plan for the benefit of employees who attain a certain number of hours worked and length of service. At December 31, 2006, the plan held 205,836 shares of common stock, all of which have been allocated to participants. CIB Marine recognizes compensation expense for its contributions to the plan. CIB Marine did not make contributions to the plan in either 2006, 2005 or 2004, and does not currently have any plan to reinstate such contributions. Contributions are discretionary and are determined annually by the Board of Directors. The administrative costs to maintain the plan are paid by the plan.

### Note 21-Income Taxes

The provision for income taxes (benefits) on income (loss) from continuing operations in the consolidated statements of operations consisted of the following components:

	For the Years Ended December 31,		
	2006	2005	2004
	(Dollars in thousands)		
Current tax provision (benefit):			
Federal	\$ (78)	\$ (1,152)	\$ (5,781)
State	(21)	(56)	(370)
Deferred (benefit)	—	—	911
	<u>\$ (99)</u>	<u>\$ (1,208)</u>	<u>\$ (5,240)</u>

A reconciliation of the income tax provision (benefit) and income taxes from continuing operations, which would have been provided by applying the federal statutory rate of 35%, is as follows:

## Table of Contents

	For the Year Ended December 31,					
	2006		2005		2004	
	Amount	%	Amount	%	Amount	%
Income tax benefit at statutory tax rate	\$ (3,478)	(35.0)%	\$ (5,023)	(35.0)%	\$ (11,827)	(35.0)%
Increase (reduction) in tax rate resulting from:						
State income taxes, net of federal income tax effect	12	0.1	(63)	(0.4)	(2,845)	(8.4)
Tax-exempt interest	(337)	(3.4)	(548)	(3.8)	(650)	(1.9)
Affordable housing credits	(360)	(3.6)	(359)	(2.5)	(360)	(1.1)
Valuation allowance	3,978	40.0	4,163	29.0	9,328	27.6
Other, net	86	0.9	622	4.3	1,114	3.3
	\$ (99)	(1.0)%	\$ (1,208)	(8.4)%	\$ (5,240)	(15.5)%

The tax effects of temporary differences that give rise to net deferred tax (liabilities)/assets reported in other assets in the accompanying consolidated balance sheets are as follows:

	December 31,		
	2006	2005	2004
	(Dollars in thousands)		
Deferred tax assets:			
Loss carryforwards (1)	\$ 59,678	\$ 53,121	\$ 48,406
Tax credit carryforwards	2,177	1,817	1,457
Allowance for loan losses	8,221	9,759	11,698
Goodwill and intangible assets	—	6	1,609
Allowance for unfunded loan commitments	—	—	291
Net unrealized loss in securities available for sale	746	1,322	252
Other real estate owned	4	498	455
Other	1,435	2,075	1,135
Deferred tax assets before valuation allowance	72,261	68,598	65,303
Valuation allowance	(71,202)	(67,193)	(64,074)
Net deferred tax assets	1,059	1,405	1,229
Deferred tax liabilities:			
Fixed assets	\$ 388	\$ 429	\$ 613
Other	671	976	616
Total deferred tax liabilities	1,059	1,405	1,229
Net deferred tax assets	\$ —	\$ —	\$ —

(1) Includes U.S. federal net operating, capital loss and charitable contribution carryforwards.

The change in the net deferred tax assets as reported in other assets in the accompanying consolidated balance sheets is as follows:

	December 31,		
	2006	2005	2004
	(Dollars in thousands)		
Deferred tax benefits (expenses) included in continuing operations provision	\$ —	\$ —	\$ (911)
Deferred tax included in other comprehensive income	—	—	1,050
Valuation allowance against deferred tax in other comprehensive income	—	—	(1,050)
Total increase (decrease) in net deferred tax assets	\$ —	\$ —	\$ (911)

---

## Table of Contents

With respect to continuing and discontinued operations, there were U.S. federal net operating loss, capital loss and charitable contribution carryforwards of approximately \$150.1 million, \$141.9 million and \$128.5 million and state net operating loss, capital loss and charitable contribution carryforwards of approximately \$225.2 million, \$207.6 million and \$221.0 million at December 31, 2006, 2005 and 2004, respectively. In 2004, the sale of CIB-Chicago resulted in a capital loss of \$73.2 million. The net operating loss carryforwards will expire in varying amounts between 2007 and 2026. \$13.5 million of the U.S. federal net operating loss carryforwards were acquired in connection with the Canron acquisition, of which \$6.7 million will not be available due to separate return year limitations. Included in the carryforwards at December 31, 2006 are \$70.2 million of capital loss carryforwards, of which \$0.3 million is attributable to Canron. The capital loss carryforwards expire in 2008 and 2009. Excluded from the approximately \$128.5 million of carryforwards at December 31, 2004 are U.S. federal net operating loss carryforwards of \$36.1 million, state net operating loss carryforwards of \$27.3 million and capital loss carryforwards of \$2.5 million which were allocated to sold subsidiaries and are no longer available to the company.

CIB Marine had Alternative Minimum Tax (“AMT”) credit carryforwards of \$0.7 million at December 31, 2006, 2005 and 2004. \$0.1 million of the AMT credit carryforward was acquired in connection with the Canron acquisition. There were also \$1.7 million of General Business Credit carryforwards at December 31, 2006, which will expire in varying amounts between 2007 and 2011. Excluded from the above, are AMT credit carryforwards of \$0.5 million and General Business Credit carryforwards of \$0.3 million were allocated to sold subsidiaries and are no longer available to the company.

Realization of the net deferred tax assets over time is dependent upon the existence of taxable income in carryback periods or CIB Marine generating sufficient taxable earnings in future periods. In determining whether the realization of the net deferred tax asset was more likely than not, CIB Marine gave consideration to a number of factors including its recent earnings history, its expectations for earnings in the future, including tax planning strategies and, where applicable, the expiration dates associated with tax carryforwards.

Due to the significant losses in 2005 and 2006 and the expectation of additional losses in 2007, management has determined that it is not more likely than not that the net deferred tax assets at December 31, 2006 will be realized in their entirety. As of December 31, 2006 and 2005, no U.S. federal or state loss carryback potential remains. Therefore, a valuation allowance has been provided by way of a charge to federal and state tax expense to reduce the net U.S. federal and state deferred tax asset to zero.

In 2003 through 2006, valuation allowances have been established against state deferred tax assets for those entities which have state net operating loss carryforwards in which management believes that it is not more likely than not that the state deferred tax assets will be realized.

Like many financial institutions with banking operations in Wisconsin, CIB Marine’s Wisconsin bank subsidiary is under audit by the Wisconsin Department of Revenue (“WDOR”) relative to its Nevada investment subsidiary. CIB Marine believes it complied with Wisconsin law and that it is not liable for any taxes or interest that the WDOR may claim. At December 31, 2006 and 2005, CIB Marine has an accrued liability including interest of \$0.1 million. CIB Marine has not made a decision as to whether it will contest the matter or settle with the WDOR, however, CIB Marine does not expect resolution of this matter to have a material effect on its consolidated financial position, results of operations or cash flows beyond the amounts accrued.

Similarly, CIB Marine is currently under audit by the Illinois Department of Revenue (“IDR”) relative to its investment in an Illinois REIT. The REIT was formed as a subsidiary of a former Illinois subsidiary that was sold in 2004. Although CIB Marine believes it has both statutory authority and sound business purposes for establishing the REIT, the IDR audit has caused it to re-examine its Illinois tax exposure. Consequently CIB Marine charged its 2005 discontinued operations in the amount of \$1.9 million to recognize its exposure and that liability remains at December 31, 2006.

Additionally, in 2005 Canron had a net reduction in prior year exposure items of \$0.4 million related to certain individually insignificant items.

Commitments to extend credit	\$186,187	\$ —	\$ —
Standby letters of credit (1)	7,222	(753)	(753)
Interest rate swap agreements	15,807	(37)	(37)

- (1) Includes an accrued liability for probable losses on unfunded commitments to extend credit and standby letters of credit of \$0.7 million at both December 31, 2006 and 2005.

Fair value amounts represent estimates of value at a point in time. Significant estimates regarding economic conditions, loss experience, risk characteristics associated with particular financial instruments and other factors were used for the purposes of this disclosure. These estimates are subjective in nature and involve matters of judgment. Therefore, they cannot be determined with precision. Changes in the assumptions could have a material impact on the amounts estimated.

While these estimated fair value amounts are designed to represent estimates of the amounts at which these instruments could be exchanged in a current transaction between willing parties, it is CIB Marine's intent to hold most of its financial instruments to maturity. Therefore, it is not probable that the fair values shown will be realized in a current transaction.

The estimated fair values disclosed do not reflect the value of assets and liabilities that are not considered financial instruments. In addition, the value of long-term relationships with depositors (core deposit intangibles) is not reflected. The value of this item is significant.

Because of the wide range of valuation techniques and the numerous estimates that must be made, it may be difficult to make reasonable comparisons of CIB Marine's fair value to that of other financial institutions. It is important that the many uncertainties discussed above be considered when using the estimated fair value disclosures and to realize that because of these uncertainties the aggregate fair value should in no way be construed as representative of the underlying value of CIB Marine.

The following describes the methodology and assumptions used to estimate fair value of financial instruments required by SFAS 107.

### *Cash and Cash Equivalents*

The carrying amount reported in the balance sheet for cash and cash equivalents approximates their fair value. For purposes of this disclosure only, cash equivalents include cash and due from banks, Federal Funds sold and repurchase agreements.

### *Available for Sale Securities*

The estimated fair values of securities by type are provided in Note 3-Securities. These are based on quoted market prices, when available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities or carrying values.

### *Loans held for Sale*

The fair value of loans held for sale, primarily conventional residential mortgage loans, are estimated using current market prices for similar mortgages in the market.

---

## **Table of Contents**

### ***Loans Receivable***

For loans that reprice frequently, the carrying value approximates their value. The fair values of all other loans receivable were estimated by discounting the expected future cash flows using current interest rates at which similar loans would be made to borrowers with similar credit ratings and maturities. The carrying value and the fair value of loans receivable is net of the allowance for loan losses.

### ***Accrued Interest Receivable***

The carrying amounts of accrued interest approximate their fair values.

### ***Deposit Liabilities***

The carrying value of deposits with no stated maturity approximates their fair value as they are payable on demand. The estimated fair value of fixed time deposits is based on discounted cash flow analyses. The discount rates used in these analyses are based on market rates of alternative funding sources currently available for similar remaining maturities.

### ***Short-term Borrowings***

The carrying value of short-term borrowings payable within 3 months or less approximates their fair value. The estimated fair value of borrowed funds with a maturity greater than 3 months is based on quoted market prices, when available. Debt for which quoted prices were not available was valued using cash flows discounted at a current market rate for similar types of debt. For purposes of this disclosure, short-term borrowings are those borrowings with stated final maturities of less than or equal to one year, including securities sold under agreements to repurchase, U.S. Treasury tax and loan notes, lines of credit, commercial paper and other similar borrowings.

### ***Long-term Borrowings***

The carrying value of long-term borrowings payable within 3 months or less approximates their fair value. The estimated fair value of borrowed funds with a maturity greater than 3 months is based on quoted market prices, when available. Debt for which quoted prices were not available was valued using cash flows discounted at a current market rate for similar types of debt. For purposes of this disclosure, long-term borrowings are those borrowings with stated final maturity of more than one year, including Federal Home Loan Bank advances with stated final maturity of more than one year. Notwithstanding their stated final maturity of more than one year, junior subordinated debentures are excluded from long-term borrowings.

### ***Junior Subordinated Debentures***

The estimated fair value of junior subordinated debentures was valued using option adjusted spread valuation models with an option free spread approximating a non-investment grade credit quality.

### ***Accrued Interest Payable***

The carrying amounts of accrued interest are used to approximate their fair values.

### ***Off-Balance Sheet Instruments***

The fair value and carrying value of letters of credit and unused and open ended lines of credit have been estimated based on the unearned fees charged for those commitments net of accrued liability for probable losses.

The fair value of interest rate swaps is based upon quoted market prices, when available. If a quoted market price is not available, fair value is estimated based on the net of the discounted cash flows of the fixed leg and the floating leg of the swap using as a discount rate currently existing rates available for swaps of comparable remaining term, notional value, index and counterparty credit risk.

---

(1) In the fourth quarter of 2005, CIB Marine sold MICR and recognized a \$0.2 million gain on the sale.

---

## **Table of Contents**

### **Note 25-Subsequent Events**

#### **CIB Construction/Canron**

Canron is continuing to collect both on and off-balance sheet receivables and settle and resolve payables and claims through the voluntary liquidation process. In the first nine months of 2007, Canron paid \$1.2 million in dividends to CIB Construction and CIB Construction paid \$1.2 million in dividends to CIB Marine.

#### **Regulatory Orders and Agreements**

In January 2007, the Cease and Desist Order at Central Illinois Bank was terminated and replaced with a Memorandum of Understanding. Among other items, the Memorandum requires Central Illinois Bank to maintain a minimum Tier 1 capital of 8% of total assets as calculated in accordance with Part 325 of the FDIC Rules and Regulations and to obtain regulatory approval prior to the purchase of any loan pools in excess of \$3.0 million.

#### **Liquidity**

During 2007, some of the borrowing sources customarily utilized by CIB Marine continued to be contingent on subsidiary bank pledges of fixed income investment securities, including availability of federal funds purchased with correspondent banks and short-term borrowing availability from the Federal Home Loan Bank of Chicago. In the first quarter of 2007, the restriction requiring one of the subsidiary banks to pledge securities in order to have access to the federal reserve discount window was removed.

#### **FHLB Stock Investment**

In September, 2007, the FHLB Chicago filed a Form 8-K with the SEC regarding the receipt of a draft consent cease and desist order from its regulator, the Federal Housing Finance Board ("Finance Board"). The draft order includes a prohibition, unless otherwise approved by the Director of the Office of Supervision of the Finance Board ("OS Director"), of capital stock repurchase and redemptions by the FHLB from its members, including redemptions upon membership withdrawal or termination. The FHLB states that the draft order contemplates that the OS Director may approve proposed redemptions, provided that allowing the redemption would be consistent with maintaining the capital adequacy of the FHLB. The draft order also proposes that dividend declarations would be subject to the prior written approval of the OS Director. As of September 30, 2007, CIB Marine had \$11.5 million in FHLB Chicago stock, of which \$1.7 million was categorized as required.

#### **Loan Pool Purchase**

In February 2007, CIB Marine purchased a closed end pool of fixed rate second lien home equity loans from Residential Funding Corporation, a division of General Motors Acceptance Corporation, in the amount of \$48.2 million. The purchased pool included 965 loans with a weighted average yield of 9.98%, term to maturity of 17.5 years, loan-to-value ratio of 94%, borrower debt service-to-income ratios of 40% and FICO score of 709.

In the third quarter of 2007 CIB Marine increased the loss provision rates on the two home equity pools it purchased during 2006 and 2007, primarily due to the general deterioration in the condition of the housing markets and the housing finance markets.

#### **Branch Activities**

CIB Marine had 30 branches as of December 31, 2006 holding \$0.8 billion in deposits.

During the first nine months of 2007, Marine-Wisconsin sold its Cedarburg and Brookfield, Wisconsin branches, resulting in a total net gain on the sales of \$1.1 million. The branches had \$49.7 million in deposits at the time of sales. Additionally, CIB Marine closed the Henderson, Nevada; Sun City, Arizona; and Indianapolis (Fox Road), Indiana branches and received regulatory approval to close the Milwaukee, Wisconsin branch. At December 31,

---

## **Table of Contents**

2006, these four branches had total deposits of \$46.7 million. Deposits of closed branches are transferred to other CIB Marine branches.

### **Goodwill**

The balance of CIB Marine's goodwill at December 31, 2006 is a result of prior branch acquisitions and related to a branch that was sold in the first quarter of 2007. As a result of the branch sale during the first quarter of 2007, CIB Marine had no goodwill at September 30, 2007.

### **FDIC Deposit Insurance Premiums**

In October 2006, the FDIC Board of Directors approved a One-Time Assessment Credit. This credit, totaling \$0.6 million for CIB Marine's subsidiary banks, will be recorded as a credit against regular FDIC insurance premium expense beginning in January 2007 and continue until the credit is exhausted. Of the \$0.6 million, an estimated \$0.2 million will be used to offset the FDIC insurance premium during 2007.

### **Stock Options**

As a result of the reduction in force program, resignations and other management and Board of Directors changes during 2007, 102,632 shares of previously granted stock options lapsed and/or were surrendered and became available for future grants under CIB Marine's 1999 Stock Option and Incentive Plan. In May 2007, 74,000 options were granted at an exercise price of \$4.10 per share. As of September 30, 2007, there were 1,146,689 options outstanding with a weighted average exercise price of \$7.89.

### **Late Filing of Tax Returns**

CIB Marine did not file all required federal and state tax returns for calendar years 2004, 2005 and 2006 by the required due dates. The 2004 federal return was subsequently filed in February 2007 and the state returns were filed during the second quarter of 2007. CIB Marine is in the process of completing the 2005 tax returns. Upon conclusion of the audit of the financial statements for 2006 and the filing of the related Form 10-K and Form 10-Q's with the SEC, CIB Marine intends to complete and file the 2006 tax returns. Although CIB Marine does not anticipate taxable income during these periods, penalties and interest may still be assessed by the Internal Revenue Service and/or applicable state departments of revenue.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

There were no disagreements or reportable events of the nature required to be disclosed pursuant to Item 304 (b) of Regulation S-K.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### **(a) Evaluation of Disclosure Controls and Procedures**

CIB Marine maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to reasonably assure that such information is accumulated and communicated to management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate to allow timely decisions regarding required disclosure. Disclosure controls include components of internal control over financial reporting, which consists of control processes designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with U.S. generally accepted accounting principles.

CIB Marine's management, under the supervision and with the participation of the CEO and CFO, evaluated the effectiveness of the design and operation of the company's disclosure controls and procedures as of

## Table of Contents

December 31, 2006. As a part of its evaluation, management has evaluated whether the control deficiencies related to the material weakness in internal control over financial reporting which was reported in the 2005 Form 10-K continues to exist. Based on this evaluation, management has concluded that the disclosure controls and procedures were effective as of December 31, 2006.

### (b) Changes in Internal Control over Financial Reporting

There were no changes in CIB Marine's internal control over financial reporting during the quarter ended December 31, 2006, that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

## ITEM 9B. OTHER INFORMATION

None.

## PART III

## ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The following table sets forth the names and ages of all Directors of CIB Marine at December 31, 2006, the positions and offices with CIB Marine held by each Director, the period that each has held any position with CIB Marine, the expiration of such Director's term, and a brief account of each Director's business experience during at least the past five years. CIB Marine did not hold an annual meeting of shareholders during 2004, 2005 or 2006. Directors whose term would have otherwise expired during 2004, 2005 or 2006 remained on the Board of CIB Marine.

### Directors

Name and Age	Serving Since	Term Expired or Scheduled to Expire	Position with CIB Marine or Other Principal Occupation and Other Directorships
José Araujo (61)	1988	2005	Director of Central Illinois Bank since 1987; Chairman of the Board of Citrus Bank from March 2004 to January 2005, International Business Development Officer of Citrus Bank since April 2003, and Director of Citrus Bank since 2001. President of Joaraucar Consulting, Inc., an industrial gas service company, since October 1997. <sup>(1)</sup>
Norman E. Baker (60)	1988	2004	Chairman of Central Illinois Bank from February 2004 to March 2006, Director of Central Illinois Bank since 1988; Director of CIB-Indiana, from 1998 until its merger into Marine-Wisconsin in August 2006; Director of Marine-Wisconsin since September 2006; Chairman of Marine-FSB from February 2004 to June 2005 and Director of Marine-FSB from October 1999 until its merger into Marine-Wisconsin in March 2006. President and Chief Executive Officer of Estoy Pronto, Inc., a consulting and investment company, since July 1994.
W. Scott Blake (46)	1987	2004	Chairman of CIB Marine since February 2004; Chairman of Marine-Wisconsin since March 2006, Director of Marine-Wisconsin since December 2002; Manager of CIB Marine Capital LLC since 2001; and Director of MICR, Inc. since 2000. President of Blake Capital Corp., a real estate development, investment and property management company, since July 1998. <sup>(2)</sup> <sup>(3)</sup>
Stanley J. Calderon (61)	2004	2006	President and Chief Executive Officer of CIB Marine since April 2004; Director of the following bank and nonbank subsidiaries of CIB Marine: Central Illinois Bank since December 2004, Marine-Wisconsin since February 2005, Citrus Bank since February 2005, and CIB Marine Information Services, Inc. since March 2005. Prior to joining CIB Marine, Mr. Calderon was Executive Vice President and Manager of Middle Market Banking for the Midwest Region of Bank One from 1999 to 2003. <sup>(4)</sup>
Steven C. Hillard (44)	2004	2006	Director of CIB Marine from 1991 to 2002 and since September 2004; Director of MICR, Inc. since December 2004. President of HILMUN Holdings, Inc., a diversified holding company with interests in manufacturing and financial investments, since September 1991; Chief Executive Officer and Chairman of the

Board of Pinnacle Door Company, a distributor and installer of garage doors, since September 1992; Managing member of HILMUN Development, LLC, a real estate development company, since 1993; and Chairman, President and Chief Executive Officer of Strategic Capital Bancorp, Inc. from November 2002 to September 2004.<sup>(3)</sup>

## Table of Contents

<u>Name and Age</u>	<u>Serving Since</u>	<u>Term Expired or Scheduled to Expire</u>	<u>Position with CIB Marine or Other Principal Occupation and Other Directorships</u>
Gary L. Longman (58)	2004	2006	President of Sunny Ridge Family Center, an adoption agency, since June 2003; President of G.L. Longman Consulting, a consulting business, since January 2001; Partner at KPMG, LLP, an accounting, tax and advisory services firm from 1980 to 2000.
Donald M. Trilling (76)	1987	2004	Chairman of the Board of CIB Marine from September 1987 to February 2004; Director of Central Illinois Bank from 1987 to April 2004. Sales Representative at TTT, a phone service company, since January 2005; Secretary of Illini Tile Distributors Inc., an importer and distributor of ceramic tiles, from 1983 to 2002. <sup>(5)</sup>
Howard E. Zimmerman (77)	1987	2005	Retired; Chairman of the Board of Zimmerman Real Estate Group, a real estate appraisal and consulting company since 1986.

- (1) Mr. Araujo passed away in March 2007.
- (2) Mr. Blake resigned as Chairman of CIB Marine in the first quarter of 2007. Mr. Blake remains a director of CIB Marine.
- (3) In November 2005, CIB Marine sold substantially all of the assets of MICR and changed the company's name to Everett Tech Inc.
- (4) On March 2, 2007, Mr. Calderon resigned from his positions as President and Chief Executive Officer of CIB Marine and was succeeded by Mr. John P. Hickey, Jr. Mr. Calderon was appointed Chairman of the Board of Directors of CIB Marine on March 8, 2007. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Subsequent Events-Management Changes in Part II of this Form 10-K for additional information relative to management and Board of Directors changes.
- (5) In September 2003, Illini Tile Distributors, Inc. entered into liquidation through an assignment for the benefit of creditors under Illinois law.

### Executive Officers

The following table sets forth the names, ages and positions of all executive officers of CIB Marine at December 31, 2006, the period that each has held positions with CIB Marine, and a brief account of each officer's business experience during at least the past five years. Under CIB Marine's by-laws, executive officers are elected annually by the Board of Directors, and each executive officer holds office until his/her successor has been duly elected and qualified or until the earlier of his/her death, resignation or removal.

<u>Name and Age</u>	<u>Office and Experience</u>
Stanley J. Calderon (61)	Mr. Calderon has served as President and Chief Executive Officer of CIB Marine since April 2004, Director of CIB Marine since November 2004, and Director of the following bank and nonbank subsidiaries of CIB Marine: Central Illinois Bank since December 2004, Marine-Wisconsin since February 2005, Citrus Bank since February 2005, and CIB Marine Information Services, Inc. since March 2005. Prior to joining CIB Marine, Mr. Calderon was Executive Vice President and Manager of Middle Market Banking for the Midwest Region of Bank One from 1999 to 2003. <sup>(1)</sup>
Michael L. Rechkemmer (57)	Mr. Rechkemmer has been Executive Vice President of CIB Marine since July 1999 and Chief Operations Officer since April 2000. He was CIB-Chicago's interim President and CEO from March 2004 to November 2004.
Steven T. Klitzing (43)	Mr. Klitzing has served as Executive Vice President, Chief Financial Officer, Treasurer and Assistant Secretary of CIB Marine since December 1993.
Michael L. Paoletta (54)	Mr. Paoletta has served as Senior Vice President and Chief Credit Officer since January 2006. He was Senior Vice President and Manager of Commercial Loan Workout department from June 2004 to January 2006, and Senior Vice President and Portfolio Manager of CIB-Chicago from 1998 to June 2004.
Daniel J. Rasmussen (40)	Mr. Rasmussen has served as Senior Vice President, General Counsel and Secretary of CIB Marine since April 2005. He was Vice President and Senior Attorney of CIB Marine from 1999 to 2005.
Patrick J. Straka (39)	Mr. Straka has served as Senior Vice President and Chief Investment Officer of CIB Marine since

February 1999. He was Vice President, Investment Officer and General Auditor of CIB Marine from 1995 to February 1999.

- 
- (1) On March 2, 2007, Mr. Calderon resigned from his positions as President and Chief Executive Officer of CIB Marine and was succeeded by Mr. John P. Hickey, Jr. Mr. Calderon was appointed Chairman of the Board of Directors of CIB Marine on March 8, 2007. See Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations-Subsequent Events-Management Changes in Part II of this Form 10-K for additional information relative to management and Board of Directors changes.

#### **Audit Committee Financial Expert**

Gary L. Longman has served as Chairman of the Audit Committee since November 2004. Mr. Longman is independent as defined in Rule 10A-3 of the Exchange Act and the Board has determined that Mr. Longman is an audit committee financial expert as defined in Item 407 of Regulation S-K.

#### **Code of Ethics**

CIB Marine has adopted a Code of Ethics (the "Code") which applies to all of CIB Marine's Directors, officers and employees. A copy of the Code may be accessed on our website at <http://www.cibmarine.com/> by clicking on

---

## **Table of Contents**

the “Code of Ethics Policy” link in the Corporate Information section of the website.

### **Section 16(a) Beneficial Ownership Reporting Compliance**

Section 16(a) of the Exchange Act requires executive officers and Directors, and persons who own more than ten percent of a registered class of CIB Marine’s stock, to file reports of ownership and changes in ownership with the SEC. Executive officers, Directors and greater than ten percent shareholders are required by SEC regulation to furnish CIB Marine with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons that no Annual Statement of Changes In Beneficial Ownership of Securities on Form 5 were required for those persons, CIB Marine believes that, for the period January 1, 2006 through December 31, 2006, its executive officers and Directors complied with all filing requirements applicable to them.

## **ITEM 11. EXECUTIVE COMPENSATION**

### **COMPENSATION DISCUSSION AND ANALYSIS**

This Compensation Discussion and Analysis explains the objectives and philosophy underlying CIB Marine’s executive compensation program and the material elements of the compensation paid to CIB Marine’s executive officers, including the executive officers named in the Summary Compensation Table (the “Named Executive Officers”).

CIB Marine’s Compensation and Stock Option Committee (the “Committee”), which is comprised of all non-employee Directors of CIB Marine, has responsibility for CIB Marine’s compensation program. The Committee reviews and approves CIB Marine’s compensation goals and objectives, assesses the competitiveness of CIB Marine’s overall compensation practices and programs, and reviews and evaluates the performance of the executive officers of CIB Marine and make recommendations to the Board of Directors relative to the compensation and incentive awards of such executive officers.

#### ***Executive Compensation Objectives***

CIB Marine’s compensation objectives with respect to executive compensation have been to:

- Provide incentive to maximize shareholder value by aligning the executives’ interests with those of the shareholders.
- Attract and retain the best available executive talent.
- Provide incentives and reward individual performance and contributions to CIB Marine.

#### ***Setting Executive Compensation***

Historically, the Committee has attempted to meet these objectives by providing compensation elements of base salary, annual cash incentives, and equity-based compensation. In determining the total compensation for each of the Named Executive Officers, the Committee would first establish appropriate levels of base salary for the executives, then establish the opportunity for the executives to earn additional compensation through annual cash incentives and longer-term equity compensation in the form of stock options. The amount of such additional compensation has varied with base salary and was also determined based upon attainment of both individual and corporate performance measures.

#### ***Current Elements of Compensation***

In 2003, CIB Marine experienced a deterioration in its financial condition and results of operations. As a result of CIB Marine’s ongoing financial issues, it has suspended its historical compensation program described above. The purpose of the current compensation policy is to assist liquidity at CIB Marine while providing modest incentives to its executives. With respect to base salary paid by CIB Marine to the Named Executive Officers in

---

## Table of Contents

2006, (i) the Chief Executive Officer agreed to reductions in his salary that resulted in a salary of \$278,000 earned in 2006; and (ii) the other Named Executive Officers generally received a minimal increase in salary, except that Mr. Rasmussen received increases reflecting his increased responsibilities that resulted in a salary of \$151,000 earned in 2006. These increases were recommended by the Chief Executive Officer and approved by the Committee.

No Named Executive Officer received an annual cash incentive for 2006. No annual cash incentives were paid to any Named Executive Officer for 2005 or 2004 except for a \$10,000 bonus paid to Daniel Rasmussen in 2005.

The Committee made grants of stock options in 2006 to the Named Executive Officers other than the Chief Executive Officer, in order to provide a basic incentive to them and to more closely align their financial interests with those of CIB Marine's shareholders. The grants, which were made pursuant to CIB Marine's Stock Option Plan, are described in the Grants of Plan-Based Awards Table set forth in this Form 10-K.

CIB Marine also provides retirement benefits, severance and change in control benefits for certain officers, and a limited number of perquisites and other personal benefits:

### 401(k) Plan

CIB Marine's 401(k) plan is a tax-qualified retirement plan that covers all employees generally, including the Named Executive Officers. An employee can elect to defer a percentage of his or her compensation on a pre-tax basis, up to a maximum in 2006 of \$15,000, or \$20,000 if age 50 or over, and CIB Marine contributes a matching contribution of 50% up to 6% of the employee's deferral contributions. CIB Marine's contributions under the plan on behalf of each Named Executive Officer are included in the "All Other Compensation" column of the Summary Compensation Table of this Form 10-K. CIB Marine provides no other retirement benefits for its executives, including the Named Executive Officers.

### Employment Agreement

CIB Marine had an employment agreement with Mr. Calderon, its President and CEO, that terminated March 2, 2007 as a result of his resignation as CEO. It provided for a minimum base salary of \$450,000 per year, a year-end bonus subject to the sole discretion of the Board of Directors, and 150,000 stock options pursuant to CIB Marine's Stock Option Plan. In addition, the agreement provided for a severance payment to Mr. Calderon if Mr. Calderon's employment was terminated by CIB Marine without cause, or Mr. Calderon terminated his employment due to good reason (as defined in the agreement). The employment agreement is described in greater detail in the "Potential Payments Upon Termination or Change in Control of the Company" section of this Form 10-K.

### Stock Option Plan

CIB Marine's Stock Option Plan provides for accelerated vesting of outstanding stock options upon a change of control of CIB Marine. See "Potential Payments Upon Termination or Change in Control of the Company" section of this Form 10-K for a more detailed discussion.

### Perquisites and Other Benefits

CIB Marine provides limited perquisites and other benefits to its Named Executive Officers. During 2006, Messrs. Klitzing, Rasmussen and Rechkemmer were provided with company-owned automobiles for their personal use. In 2007, CIB Marine terminated this perquisite, and Messrs. Klitzing, Rasmussen and Rechkemmer were each paid a one-time payment of \$15,000 in lieu of the continued program. CIB Marine pays for club membership dues for Mr. Calderon. CIB Marine also provides company-paid group term life insurance and parking/transit benefits to its eligible employees generally, including its Named Executive Officers. The perquisites and benefits appear in the "All Other Compensation" column of the Summary Compensation Table of this Form 10-K.

---

## **Table of Contents**

### *2007 Events*

Effective March 2, 2007, Mr. Calderon resigned as President and Chief Executive Officer of CIB Marine and assumed the position of Chairman of the Board. Effective as of the same date, John P. Hickey, Jr. was appointed successor President and Chief Executive Officer of CIB Marine. CIB Marine and Mr. Hickey have entered into an employment agreement that continues until June 1, 2010 and provides for a minimum base salary of \$260,000. The employment agreement also provides for severance equal to continued salary for the remainder of the term of the agreement if Mr. Hickey's employment is terminated by CIB Marine for other than cause or he terminates his employment with CIB Marine for good reason (as defined in the agreement).

### ***Deductibility of Executive Compensation***

Section 162(m) of the Internal Revenue Code limits the deductibility of executive compensation paid to the CEO and to each of the three other most highly compensated officers of a public company (other than CFO) to \$1 million per year, but contains an exception for "performance-based compensation." Salary, by its nature, does not qualify as performance-based compensation under Section 162(m). Due to the amounts and forms of compensation currently paid to CIB Marine's executive officers, the tax deductibility of such compensation under Section 162(m) is not an important factor at this time in making compensation decisions.

## **COMPENSATION AND STOCK OPTION COMMITTEE REPORT**

The Compensation and Stock Option Committee hereby furnishes its report to the shareholders of CIB Marine in accordance with rules adopted by the Securities and Exchange Commission.

The Committee states that it has reviewed and discussed with management CIB Marine's Compensation Discussion and Analysis contained in this Form 10-K.

Based upon this review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Form 10-K.

This report is submitted on behalf of the members of the Committee.

Howard E. Zimmerman (Chairman)  
Norman E. Baker  
W. Scott Blake  
Steve C. Hillard  
Gary L. Longman  
Donald M. Trilling

## **EXECUTIVE COMPENSATION TABLES**

The following table sets forth the cash and non-cash compensation for each of the last three fiscal years awarded to or earned by the Named Executive Officers.

Employment Agreement

CIB Marine had an employment agreement with its President and CEO, Stanley Calderon, which terminated March 2, 2007 as a result of his resignation, and which provided for a minimum base salary of \$450,000 per year, a year-end bonus subject to the sole discretion of the Board of Directors, and 150,000 stock options pursuant to the Stock Option Plan, which options were granted to Mr. Calderon on September 29, 2005. In 2005, 2006 and 2007,

## Table of Contents

Mr. Calderon voluntarily agreed to salary reductions. The employment agreement is described in greater detail in the “Potential Payments Upon Termination or Change in Control of CIB Marine” section of this Form 10-K.

### GRANTS OF PLAN-BASED AWARDS

The following table provides information on options granted to the Named Executive Officers during 2006:

Name	Grant Date	All Other Option Awards: Number of Securities Underlying Options <sup>(1)</sup>	Exercise or Base Price of Option Awards (\$/Sh) <sup>(2)</sup>	Grant Date Fair Value of Stock and Option Awards (\$)
Stanley J. Calderon	— <sup>(3)</sup>	0		—
Steven T. Klitzing	11/16/2006	20,000	4.10	15,600
Michael L. Rechkemmer	11/16/2006	20,000	4.10	15,600
Patrick J. Straka	11/16/2006	15,000	4.10	11,700
Daniel J. Rasmussen	11/16/2006	20,000	4.10	15,600

- (1) The option to purchase shares of CIB Marine’s common stock was granted pursuant to its Stock Option Plan.
- (2) The amount shown represents the dollar amount of expense recognized by CIB Marine for financial reporting purposes in 2006 in accordance with SFAS No. 123R, disregarding adjustments for potential forfeitures, for options granted during 2006. See Item 8, Note 1- Summary of Significant Accounting Policies Stock-Based Compensation contained in Part II of this Form 10-K for a discussion of the assumptions made by CIB Marine in valuation of these option awards. Under SFAS No. 123R, the fair value of option awards is recognized as expense over the vesting period of the award.
- (3) Mr. Calderon was not granted any stock options during 2006.

### *Stock Option Plan Compensation*

CIB Marine maintains the Stock Option Plan, which is an equity incentive plan designed to enable CIB Marine to attract, retain, and reward employees by offering them an opportunity to have a greater proprietary interest in and closer identity with CIB Marine and its financial success. The Stock Option Plan permits the Chief Executive Officer to grant Options at any time (except a grant to the Chief Executive Officer which shall be determined by the Committee). The practice of CIB Marine is for the Committee to determine the options to be granted to employees, including the number of shares of common stock to be subject to each such option, the duration of the option, the exercise price under each option, the time or times within which (during the term of the option) all or portions of each option may be exercised (subject to predetermined exercise periods if employment is terminated by CIB Marine without cause or due to death or disability), whether cash, common stock, or other property may be accepted in full or partial payment upon exercise of an option, any other terms and conditions of such options, and the type of such options. All outstanding options have a ten year term and vest ratably over a five-year period, except that outstanding options vest earlier upon death or disability or a change in control of CIB Marine.

### OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END

This table sets forth the information for each Named Executive Officer with respect to each grant of stock options outstanding as of December 31, 2006.

## Table of Contents

Name	Option Awards			
	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Option Exercise Price (\$)	Option Expiration Date

	4,000	16,000 <sup>(1)</sup>	4.10	09/29/2015
	0	20,000 <sup>(2)</sup>	4.10	11/16/2016

- (1) One-fifth of these options became fully exercisable on September 29, 2006, one-fifth became fully exercisable on September 29, 2007, one-fifth become fully exercisable on September 29, 2008, one-fifth become fully exercisable on September 29, 2009, and one-fifth become fully exercisable on September 29, 2010.
- (2) One-fifth of these options become fully exercisable on November 16, 2007, one-fifth become fully exercisable on November 16, 2008, one-fifth become fully exercisable on November 16, 2009, one-fifth become fully exercisable on November 16, 2010, and one-fifth become fully exercisable on November 16, 2011.

If a Named Executive Officer's employment terminates by reason of death or disability, all of the Named Executive Officer's outstanding options vest and may be exercised within twelve months after the date of such termination, but in no event later than the expiration date of such options.

### POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL OF THE COMPANY

CIB Marine provides certain benefits in connection with a change in control of CIB Marine. These benefits are in addition to those to which the employee would be entitled upon a termination of employment generally (e.g., vested retirement benefits accrued as of the date of termination, stock options that are vested as of the date of termination, and the right to elect continued health coverage pursuant to COBRA)

#### Employment Agreement

CIB Marine had an employment agreement with its President and CEO, Stanley Calderon, which had a three-year term through April 13, 2007, but terminated earlier on March 2, 2007 as a result of his resignation as President and CEO. The

---

## Table of Contents

agreement provided for severance benefits if Mr. Calderon's employment was terminated by CIB Marine without cause, or Mr. Calderon terminated his employment due to good reason (which included a change in control, liquidation, or dissolution of CIB Marine, a reduction in base salary by more than 20%, a material reduction in his position or responsibilities, or a relocation outside of the metropolitan Chicago area). Mr. Calderon was entitled to severance equal to his base salary at the time of termination payable in equal installments over the remaining term of the agreement. Had a change in control occurred and Mr. Calderon's employment terminated without cause or for good reason on December 31, 2006, Mr. Calderon would have been paid approximately \$68,000, which represents his then current base salary through April 13, 2007, which was the original expiration date of the agreement. As a result of his resignation as President and CEO, Mr. Calderon received no severance benefits under this agreement. The agreement contained restrictive covenants that prohibited Mr. Calderon from disclosing proprietary information.

### *Stock Option Plan*

CIB Marine's Stock Option Plan provides that upon a change in control, all unexercised options immediately vest, and may be exercised until the expiration date set forth in the applicable stock option agreement. A change in control occurs upon one of the following events: (i) the acquisition by any entity, person, or group of beneficial ownership, as that term is defined in Rule 13d-3 under the Exchange Act, of more than 15% of the outstanding capital stock of CIB Marine entitled to vote for the election of directors ("Voting Stock"); (ii) the commencement by an entity, person, or group (other than CIB Marine or a subsidiary of CIB Marine) of a tender offer or an exchange offer for more than 15% of the outstanding Voting Stock of CIB Marine; or (iii) the effective date of (A) a merger or consolidation of CIB Marine with one or more other corporations as a result of which the holders of the outstanding Voting Stock of CIB Marine immediately prior to such merger or consolidation hold less than 60% of the voting stock of the surviving or resulting corporation, or (B) a transfer of substantially all of the assets of CIB Marine other than to an entity of which CIB Marine owns at least 80% of the voting stock; or (iv) the election to the Board, without the recommendation or approval of the incumbent Board, of the lesser of: (A) three directors; or (B) directors constituting a majority of the number of directors of the Board then in office; or (v) the occurrence of any transaction, merger or consolidation of CIB Marine whereby the Chief Executive Officer of CIB Marine immediately prior to the consummation of such transaction is not the Chief Executive Officer of the surviving or resulting company and the members of the Board, or any number thereof immediately prior to the consummation of such transaction, do not constitute a majority plus one director of the total number of directors appointed to the Board of Directors of the surviving or resulting company; or (vi) the liquidation or dissolution of CIB Marine.

If a Named Executive Officer's employment is terminated by CIB Marine without cause (as defined in the Stock Option Plan), all of his then vested options are exercisable within ninety days of such termination, but in no event later than the expiration date of such options. If the Named Executive Officer's employment terminates by reason of death or disability, all of the Named Executive Officer's outstanding options vest and may be exercised within twelve months after the date of such death or disability, but in no event later than the expiration date of such options.

Assuming a change in control occurred on December 31, 2006, CIB Marine does not believe that any outstanding options were in the money.

## **DIRECTORS' COMPENSATION**

For fiscal year 2006, the Board agreed to forego the payment of a Board retainer for all members except for Mr. Blake, the Chairman of CIB Marine, who was to be paid an annual retainer of \$15,000 in quarterly installments. Non-employee Directors received a fee of \$1,000 for each Board meeting attended. Non-employee Directors serving on the Audit, Executive, Litigation, Investment, and Executive Loan Committees received a fee of \$1,000, \$1,000, \$300, \$300 and \$300 per meeting attended, respectively, except that the Chairman of the Audit Committee was paid \$2,000 per Audit Committee meeting attended. In addition, the Chairman of the Audit Committee was paid an annual retainer of \$10,000. In January 2006, Mr. Blake received a payment of \$3,750 representing the first installment of his retainer. Mr. Blake was also paid \$2,000 each for his attendance at the January and February Board meetings, and \$2,000 for his attendance at an executive committee meeting in January. In March 2006, due to his significantly increased responsibilities and in lieu of the remainder of the \$15,000 annual retainer, and Board and committee meeting fees for both CIB Marine and any subsidiary committees, the Board agreed to compensate Mr. Blake \$15,000 per month, effective March 15, 2006.

The following table sets forth all compensation paid to each of CIB Marine's non-employee Directors in 2006:

## Table of Contents

Name	Fees Earned or Paid in Cash (\$)	Option Awards (\$)	Total (\$)
Jose Araujo	\$ — <sup>(1)</sup>	\$ —	\$ —
Norman E. Baker	28,000	—	28,000
W. Scott Blake	168,300	54,000 <sup>(2)</sup>	216,150
Steven C. Hillard	14,900	—	14,900
Gary L. Longman	30,500	—	30,500
Donald M. Trilling	16,000	—	16,000
Howard Zimmerman	16,000	—	16,000

- (1) Mr. Araujo commenced employment as International Business Officer of Citrus Bank on April 15, 2003. Pursuant to his compensation agreement, Mr. Araujo was no longer paid fees for attending regularly scheduled CIB Marine Board meetings. During 2006, Mr. Araujo was paid a salary of \$30,111, which includes a bonus of \$111 in connection with his employment.
- (2) On March 30, 2006, Mr. Blake was granted 50,000 options at an exercise price of \$4.10. The options vest ratably over a five-year period, and expire on March 30, 2016. On November 16, 2006, Mr. Blake was granted 25,000 options at an exercise price of \$4.10. The options vest ratably over a five-year period, and expire on November 16, 2016. The amount shown represents the dollar amount of expense recognized by CIB Marine for financial reporting purposes in 2006 in accordance with SFAS No. 123R, disregarding adjustments for potential forfeitures. See Item 8, Note 1-Summary of Significant Accounting Policies Stock-Based Compensation contained in Part II of this Form 10-K for a discussion of the assumptions made by CIB Marine in valuation of these option awards. Under SFAS No. 123R, the fair value of option awards is recognized as expense over the vesting period of the award. As of December 31, 2006, the Directors had the following amounts of outstanding options: Jose Araujo – 33,050; Norman E. Baker – 33,050; W. Scott Blake – 108,050; Stanley Calderon – 150,000; Steven C. Hillard – 0; Donald M. Trilling – 33,050; and Howard E. Zimmerman – 33,050.

Mr. Calderon is not included in this table since he is an employee director and received no additional compensation. His compensation is set forth in the Summary Compensation Table of this Form 10-K.

Directors are reimbursed for any out-of-pocket expenses they incur.

Directors of CIB Marine who are also directors of subsidiaries of CIB Marine receive compensation from such subsidiaries in varying amounts based on the director compensation schedules of such subsidiaries. Total amounts paid to each applicable Director in 2006 include: Norman E. Baker – \$7,800; and W. Scott Blake – \$600. Mr. Blake's payments represent fees paid to him prior to March 15, 2006.

### Compensation Committee Interlocks and Insider Participation

The Committee, consisting of Norman E. Baker, W. Scott Blake, Steven C. Hillard, Gary L. Longman, Donald M. Trilling, and Howard E. Zimmerman, determines executive compensation and consists entirely of non-employee Directors. Mr. Blake was a non-executive officer of CIB Marine at December 31, 2006.

## ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

### Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides information as of December 31, 2006 with respect to compensations plans (including individual compensation arrangements) approved by security holders and under which our equity securities are authorized for issuance.

Plan category	Equity Compensation Plan Information(1)		
	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	1,172,321	\$8.47	489,041
Equity compensation plans not approved by security holders	—	—	—
Total	1,172,321	\$8.47	489,041

- (1) See Item 8, Note 1-Summary of Significant Accounting Policies-Stock-Based Compensation and Note 19-Stock Option Plans in Part II of

this Form 10-K for additional information regarding our stock-based compensation plans.

## Table of Contents

### Stock Ownership of Certain Beneficial Owners and Management

The following table sets forth, as of December 31, 2006, the number of shares of common stock of CIB Marine beneficially owned by (1) each stockholder believed by CIB Marine to be a beneficial owner of more than five percent of the outstanding common stock of CIB Marine, based on information available to CIB Marine, (2) each director of CIB Marine, (3) each of the Named Executive Officers, and (4) all directors and executive officers of CIB Marine as a group. Except as otherwise indicated, each person listed has sole voting and investment power over shares beneficially owned. For purposes of this table, all references to the right to acquire shares within 60 days refers to the 60 day period commencing December 31, 2006.

Beneficial Owner	Beneficial Ownership of Common Stock	
	Amount and Nature of Beneficial Ownership <sup>(1)</sup>	Percentage of Common Stock Outstanding
<b>5% Stockholders</b>		
John and Mary Lydia Hadley 915 W. Park Avenue, Champaign, Illinois 61821	1,116,950 <sup>(2)</sup>	6.09%
<b>Named Executive Officers and Directors</b>		
Jose Araujo	115,571 <sup>(3)</sup>	*
Norman E. Baker	402,500 <sup>(4)</sup>	2.19% <sup>(5)</sup>
W. Scott Blake	226,250 <sup>(6)</sup>	1.23% <sup>(5)</sup>
Stanley J. Calderon	30,058 <sup>(7)</sup>	*
Steven C. Hillard	165,030	*
Steven T. Klitzing	80,485 <sup>(8)</sup>	*
Gary L. Longman	—	*
Daniel J. Rasmussen	8,320 <sup>(9)</sup>	*
Michael L. Rechkemmer	47,889 <sup>(10)</sup>	*
Patrick J. Straka	50,808 <sup>(11)</sup>	*
Donald M. Trilling	230,532 <sup>(12)</sup>	1.26% <sup>(5)</sup>
Howard E. Zimmerman	140,650 <sup>(13)</sup>	*
<b>All Directors and Executive Officers as a group (13 persons)</b>	<b>1,505,048</b>	<b>9.94%<sup>(14)</sup></b>

\* Less than one percent

- (1) Unless otherwise indicated, the nature of beneficial ownership for shares shown in this column is sole voting and investment power. The information contained in this column is based upon information furnished to the Company by the persons named above.
- (2) Based solely on information in CIB Marine's stock transfer records.
- (3) Includes 33,050 shares that Mr. Araujo has the right to acquire within 60 days upon the exercise of stock options. Mr. Araujo passed away in March 2007.
- (4) Includes 33,050 shares Mr. Baker has the right to acquire within 60 days upon the exercise of stock options.
- (5) Percentage is calculated on a partially diluted basis, assuming only the exercise of stock options by such individual which are exercisable within 60 days.
- (6) Includes 33,050 shares that Mr. Blake has the right to acquire within 60 days upon the exercise of stock options, and 60,000 shares held in two trusts for the benefit of Mr. Blake's mother, for which Mr. Blake shares voting and investment powers, and for which Mr. Blake disclaims beneficial ownership of the shares.
- (7) Includes 30,000 shares that Mr. Calderon has the right to acquire within 60 days upon the exercise of stock options.
- (8) Includes 53,162 shares that Mr. Klitzing has the right to acquire within 60 days upon the exercise of stock options.
- (9) Includes 8,047 shares that Mr. Rasmussen has the right to acquire within 60 days upon the exercise of stock options.
- (10) Includes 36,770 shares that Mr. Rechkemmer has the right to acquire within 60 days upon the exercise of stock options.
- (11) Includes 1,400 shares jointly owned by Mr. Straka and his wife, 6,300 shares owned by partnerships with respect to which Mr. Straka shares voting and investment power, and 36,895 shares that Mr. Straka has the right to acquire within 60 days upon the exercise of stock options.
- (12) Includes 68,705 shares held in a trust for the benefit of Mr. Trilling's wife and 33,050 shares that Mr. Trilling has the right to acquire within 60 days upon the exercise of stock options.
- (13) Includes 33,050 shares Mr. Zimmerman has the right to acquire within 60 days upon the exercise of stock options.
- (14) Percentage is calculated on a diluted basis, assuming the exercise of all stock options which are exercisable within 60 days by individuals

included in the above table.

## Table of Contents

### **ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**

#### *Transactions with Related Persons*

During 2006, Directors and executive officers of CIB Marine, as well as members of their immediate families and various corporations and other entities associated with the directors, were clients of and had transactions with CIB Marine's subsidiaries in the ordinary course of business. These transactions included loans and deposits. Similar transactions may occur in the ordinary course of business in the future. All loans were made on a non-preferential basis and did not involve more than the normal risk of collectibility or present other unfavorable terms.

#### *Review, Approval or Ratification of Related Party Transactions*

CIB Marine has various policies and procedures, including its Code of Ethics policy, annual questionnaires completed by all directors and executive officers, and regulatory compliance requirements (including Regulation O, which restricts loans by the subsidiary banks to directors, executive officers, principal stockholders and their affiliates and requires approval by the board of directors of the banks for certain such loans), all of which are designed to identify transactions or relationships that may constitute conflicts of interest or otherwise require disclosure under applicable SEC rules. When such a transaction or relationship is identified, the Board of Directors of CIB Marine evaluates the transaction or relationship and determines if the transaction is permissible or a prohibited conflict of interest.

#### *Director Independence*

The Board has determined that each of the following directors is an "independent director" as such term is defined in Nasdaq Marketplace Rule 4200(a)(15): Norman E. Baker, W. Scott Blake, Steven C. Hillard, Gary L. Longman, Donald M. Trilling and Howard E. Zimmerman. Stanley J. Calderon is not independent under the Nasdaq rule since he is an officer of CIB Marine.

### **ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

The following table presents fees for professional audit services rendered by our independent registered public accounting firm KPMG LLP ("KPMG") for the audit of CIB Marine's annual financial statements for 2006 and 2005, and fees billed for other services rendered by KPMG.

	<u>2006</u>	<u>2005</u>
	<u>(Dollars in thousands)</u>	
Audit fees	\$ 440	\$ 450
Audit related fees <sup>(1)</sup>	13	—
Tax fees <sup>(2)</sup>	99	177
Total fees	<u>\$ 552</u>	<u>\$ 627</u>

(1) Audit related fees consisted of audits of financial statements of certain employee benefit plans, audits of mortgage banking compliance and due diligence services.

(2) Tax fees consisted of fees for tax consultation and tax compliance services, and included \$20 thousand and \$80 thousand paid in relation to Canron during 2006 and 2005, respectively.

#### **Pre-Approval Policy and Procedures**

The Audit Committee must pre-approve all audit and non-audit services provided by the Company's independent auditors, as provided in its Charter. The chair of the Audit Committee has the authority to grant pre-approvals of audit and non-audit services between meetings, provided that any such pre-approvals must be presented to and approved by the full Audit Committee at its next scheduled meeting.

**CERTIFICATION**

I, John P. Hickey, Jr., Chief Executive Officer of CIB Marine Bancshares, Inc., certify that:

1. I have reviewed this annual report on Form 10-K of CIB Marine Bancshares, Inc. for the year ended December 31, 2006;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

<DESCRIPTION> 906 Certification of Chief Executive Officer  
<TEXT>

**Certification Pursuant to 18 U.S.C. Section 1350,  
as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Annual Report of CIB Marine Bancshares, Inc. (the "Company") on Form 10-K for the period ending December 31, 2006 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, John P. Hickey, Jr. as Chief Executive Officer of the Company, hereby certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, to my knowledge that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.

<DESCRIPTION> 906 Certification of Chief Financial Officer  
<TEXT>

**Certification Pursuant to 18 U.S.C. Section 1350,  
as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Annual Report of CIB Marine Bancshares, Inc. (the "Company") on Form 10-K for the period ending December 31, 2006 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Steven T. Klitzing, as Chief Financial Officer of the Company, hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, to my knowledge that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.
